Introduction to Retail Loss Prevention Tim Trafford,Tim Trafford Bem,Ian Watts,Ian Watts Mipi,2014-10-07 Retail

Loss Prevention Description Retail loss prevention and profit protection isn't just about theft from retail stores. There are thousands of ways that assets can be lost from your retail business, normally caused by one of three things: theft, waste, or negligence. All impact negatively on an organisation's bottom line and can come from internal or external activity.

Introduction to Retail Loss Prevention explains key terms used in retail loss prevention and gives an overview of the main causes of loss in retail environments, such as shrinkage, litigation, fraud, supply chain losses, extortion, disaffected staff, and reputation. The book then goes on to explain how and where to conduct loss prevention risk assessments in relation to business premises, various retail security systems, stock, cash, personnel, terrorist activity, legal and regulatory compliance, distribution networks, IT systems, disaster recovery, and industrial espionage. Case studies are used throughout the book to illustrate key points and concepts.

Cost effectiveness of the loss prevention effort within your retail environment is emphasised throughout the book. After all, it's of no benefit to save assets in one area if you are going to waste them on ineffective or non-essential security measures. This and other books in the series are written for readers with little or no knowledge of retail loss prevention, but the content makes them suitable for all managers and loss prevention specialists.

Written in easy-to-understand language, this book will help any retail manager or loss prevention specialist who needs to prevent and deal with loss in their retail outlets. Retail loss prevention risk assessments will become simple using this book. Carry it with you on your e-reader and easily move to different sections of the book as you conduct your risk assessments. Use the book to make your own checklists and save hours of time having to think about what you should be looking for.

Introduction to Retail Loss Prevention has been written by two retail loss prevention specialists who combined have over 60 years of experience in loss prevention and profit protection across many industries. Tim Trafford BEM has over 25 years' experience working in and managing loss prevention and investigation departments, including hospitality, sports, retail, supermarket chains, and distribution. He currently holds a senior position in the loss prevention department of a well-known international distribution chain. Ian Watts MCMI, MIPI, MSyI has over 25 years' experience investigating losses in various industries and 15 years' experience in training managers and loss prevention personnel in several countries. This is the first book in a series of 10 books dealing with retail loss prevention and profit protection activities. The ideas promoted in this book are fully expanded in other books in the series. The full series provides a library of material which covers most areas of retail loss and profit protection and how to prevent, minimise, and deal with those losses.

Loss Prevention Guide for Retail Businesses Rudolph C. Kimiecik, 1995. Copious illustrations and figures help you familiarize yourself with security hardware and unbiased evaluations make it easier to select the products that are right for your business. End-of-chapter checklists and sample forms enable you to organize your approach to each security issue. Kimiecik also provides helpful guidelines on how to spot, detain, interview, and arrest suspected shoplifters; evaluate checks and credit cards; identify counterfeit currency; thwart con artists; and detect fraud of every stripe. An important section on armed robbery shows you

steps you can take to minimize your risk of robbery how to behave while a robbery is in progress and what to do once the robber has fled A similar section covers burglaries An entire chapter on internal loss prevention provides valuable tips on hiring trustworthy employees preventing and detecting employee theft and training staff members to be part of your security effort
