Tide of War David R. Petriello, 2018-01-16 The first comprehensive look at nature's role on military history Halley's Comet helped to announce the fall of the Shang Dynasty in China a solar eclipse frightened the Macedonian army enough at Pydna in 168 BC to ensure victory for the Romans a massive rain storm turned the field of Agincourt to mud in 1415 and gave Henry V his legendary victory fog secured the throne of England for Edward IV at Barnet in 1471 wind and disease conspired to wreck the Spanish Armada snow served to prevent the American capture of Quebec in 1775 and confined the Revolution to the Thirteen Colonies and an earthquake helped to spark the Peloponnesian War But this is only a small sampling of the many instances where nature has tipped the balance in combat Over the past 4000 years weather and nature have both hindered and helped various campaigns and battles occasionally even altering the course of history in the process Today elements of nature still affect the planning and waging of war even as we have tried to mitigate its impact The growing concern over climate change has only heightened the need to study and understand this subject *Tide of War* is the first book to comprehensively tackle this topic and traces some of the most notable intersections between nature and war since ancient times

Empires of Ancient Persia Michael Burgan, Thomas G. Urban, 2009 For almost 1 200 years the Persians ruled a territory that stretched from the Black Sea into Central Asia from India to Egypt and into the fringes of southern Europe During that period from 550 BCE to 651 CE the ancient Persians learned to cultivate crops such as wheat and barley and to domesticate animals they also demonstrated their talents for architecture and art by building enormous palaces such as at the site of Persepolis and through intricate art painted on pottery As their neighbors particularly the Macedonian prince Alexander the Great grew stronger ancient Persia struggled to maintain its authority Despite their eventual decline the Persian empires had significant influence on the ancient world including the idea of worshipping a single god As the first monotheistic religion Zoroastrianism would lay the foundation for the development of Christianity Islam and Judaism *Empires of Ancient Persia* looks at the rise and fall of the Persian empires the daily life of the people and their influence on subsequent civilizations

A New Chronology for Old Testament Times Jan Van Tuyl, 2012 This book brings solutions to a very great list of hitherto unsolved chronological and synchronisation problems The reason why those solutions could be found lies in the extensive

research the author made in old and often rare texts instead of limiting himself to the near exclusive source of the Bible. Ample use has been made of information that is available in works like the Books of Enoch The Apocrypha The Legends of the Jews The Seder Olam the Book of Jasher and many more as well as in the texts from known historians like Herodotus and the famous Jewish historian and priest Flavius Josephus. Just a few of the many special findings are: The real reason why Joseph was so popular with the Pharaoh Sarah was not Abraham's half sister Moses was uncircumcised and even forbade the ritual for 40 years Terah was not 70 years old when he begat Abraham The exact period of the Judges when they started and when they ended A solution for the verse of the about 450 years of Paul's speech Why did the Lord God give form and then blew life into Adam Eve was not made out of Adam's rib but from another body part A solution to the impossible synchronism of Judah and his sons Enoch made not one but 4 trips to Heaven The definitive answer why did King Josiah attack Necho II Why did King Ahab not fight at Qarqar And many more. The book has a unique style. It has nothing of the study book difficult to understand texts. The subject is serious well researched and treated with respect. But that does not mean that it cannot be presented at a fast moving pace in easy to read style with here and there even a bit of humour. The purpose of the book is to prove that the promise that the Lord God made to Adam was kept. It held that there would be exactly 5500 years between the arrival of Adam in this world and the arrival of Christ. Every person who was of importance in that timespan has been visited. For every single one there are his years of birth and death or the years of his rule. Every person has a short story about some important part of his life his actions or the influence he had on the history of the Hebrew people that lived in that period.

Storm John Withington, 2016-09-15. Gales cyclones blizzards tornados and hurricanes few things demonstrate the awesome power of nature like a good storm. Devastating diverse and sometimes appearing completely out of nowhere storms are also a source of both scientific and aesthetic wonder. In this book John Withington takes an in depth and unique look at the nature of storms and the impact that they have both physical and cultural on our lives. Withington shows how storms have changed the course of human history. From Roman times to the modern day he shows how their devastating effects have wiped out entire communities changed the fates of battle and even reset the entire planet. He also shows how beneficial they have been to us as an important feature of our atmosphere and climate but also as a source of inspiration for nearly every artist who has ever lived from Homer to Rembrandt in works from the Old Testament to Robinson Crusoe. Beautifully illustrated this book offers a fascinating look at Earth's most fearsome events.
