Lost Cities Of The Mayas The Life Art And Discoveries Of Frederick Catherwood:

The Lost Cities of the Mayas Fabio Bourbon, 1999 In 1839 Frederick Catherwood and John Lloyd Stephens climbed the steps of the Mayan pyramids of the lost city Copan This text reconstructs the two expeditions they made into Mayan territory with historical and architectural annotations and Catherwood's illustrations for Stephens' travel diaries **The Lost Cities of the Mayas**, 1999 *The Lost Cities of the Maya* Fabio Bourbon, 2014 In 1839 British artist Frederick Catherwood and his American companion John Lloyd Stephens were the first Westerners to view the terraces, temples and palaces of the Mayans' lost cities Through their published journals enhanced by extensive research Fabio Bourbon has pieced together Catherwood's fascinating and mysterious life More than 200 reproductions of Catherwood's original drawings appear throughout including a rare color portfolio *John Lloyd Stephens and Frederick Catherwood* Peter O. Koch, 2013-01-16 Daring exploits and astounding achievements were common for two 19th century adventurers John Lloyd Stephens a New York lawyer and best selling author and Frederick Catherwood a London architect and renowned topographical artist Separately these explorers covered much of the same ground touring Italy Greece Egypt Arabia and the Holy Land in search of ancient sites that were of historical significance Jointly these adventurers endured many life threatening obstacles in a determined effort that led to the discovery of nearly fifty forgotten Mayan cities buried deep in the jungles of Central America and Mexico The vivid accounts penned by Stephens coupled with the magnificent drawings of ruins by Catherwood brought back to life a vanished civilization that both considered equal to the greatness of ancient Egypt Greece and Rome The story concludes with the premature and tragic deaths of the two **The Catherwood Project** Leandro Katz, Jesse Lerner, 2017-10-15 The work of Argentine photographer Leandro Katz is presented here in dialogue with the nineteenth century artist Frederick Catherwood whose images of Maya ruins have fascinated viewers for more than a century Catherwood's daguerreotypes and sketches originally published to illustrate the travel narratives of John Lloyd Stephens are among the most accurate depictions of important Maya sites before the advent of modern archaeology Katz's photos of the same sites most of which are previously unpublished are presented alongside Jesse Lerner's essay which explores their connections to the history of archaeology their resonance in contemporary art and the evolution of an artist who seamlessly integrates form and content

Ornamental Nationalism Seonaid Valiant, 2017-09-25 In *Ornamental Nationalism: Archaeology and Antiquities in Mexico 1876-1911* Seonaid Valiant examines the Porfirian government's reworking of indigenous particularly Aztec images to create national symbols She focuses in particular on the career of Mexico's first national archaeologist Inspector General Leopoldo Batres He was a controversial figure who was accused of selling artifacts and damaging sites through professional incompetence by his enemies but who also played a crucial role in establishing Mexican control over the nation's archaeological heritage Exploring debates between Batres and his rivals such as the anthropologists Zelia Nuttall and Marshall Saville Valiant reveals how Porfirian politicians reinscribed the political meaning of artifacts while social scientists

both domestic and international struggled to establish standards for Mexican archaeology that would undermine such endeavors **Spectacle Culture and American Identity 1815-1940** S. Tenneriello,2013-12-18 Scenic spectacles collapse the borders of graphic and visual arts multimedia technology spectatorship and architecture Drawing upon various systems of commercial institutional and public spectacle that intersect with scenic stages of the national landscape Tenneriello examines how spectacle is entrenched in the formation of national identity **Byron and Trinity** Adrian Poole,2024-03-21 This collection of essays reprints previously published writings about Trinity College Cambridge s most celebrated writer Lord Byron for the bicentennial commemoration of his death on 19 April 1824 Bringing together diverse contributions from a series of scholars three of them fellows of Trinity College it explores various aspects of Byron s life and writing The collection draws out the relationships between memorials marbles and ruins themes always prominent in his thinking and feeling The earliest essay reprinted here dates from the bicentenary of Byron s birth in 1788 Thirty six years and two centuries later this collection honours a figure of enduring complex significance with whom Trinity College is proud to be associated It will be of value to scholars and students of Byron as well as those interested in his life in the bi centenary year of his death

Afterlives of Affect Matthew C. Watson,2020-07-27 In *Afterlives of Affect* Matthew C Watson considers the life and work of artist and Mayanist scholar Linda Schele 1942-98 as a point of departure for what he calls an excitable anthropology As part of a small collective of scholars who devised the first compelling arguments that Maya hieroglyphs were a fully grammatical writing system Schele popularized the decipherment of hieroglyphs by developing narratives of Maya politics and religion in popular books and public workshops In this experimental person centered ethnography Watson shows how Schele s sense of joyous discovery and affective engagement with research led her to traverse and disrupt borders between religion science art life death and history While acknowledging critiques of Schele s work and the idea of discovery more generally Watson contends that affect and wonder should lie at the heart of any reflexive anthropology With this singular examination of Schele and the community she built around herself and her work Watson furthers debates on more than human worlds spiritualism modernity science studies affect theory and the social conditions of knowledge production

Views of Ancient Egypt since Napoleon Bonaparte David Jeffreys,2016-06-16 This book addresses some of the main themes of the study of Egypt during the nineteenth and twentieth centuries In a combination of case studies and discursive chapters the status of Egypt as an important example of traditional Asian scholarship and as an ancient model of imperialism itself is examined Contributions range from studies of nineteenth century antiquarianism and the collecting of Egyptian antiquities as an extension of the territorial ambitions and rivalries of the European powers to explorations of how Egypt is understood and interpreted in contemporary societies *Views of Ancient Egypt* also considers the way in which Ancient Egypt has been adopted by less privileged members of some societies as a cultural icon of past greatness Decolonizing Development Joel Wainwright,2011-07-22 Winner of the 2010 James M Blaut Award in recognition of innovative scholarship

in cultural and political ecology Honors of the CAPE specialty group Cultural and Political Ecology Decolonizing Development investigates the ways colonialism shaped the modern world by analyzing the relationship between colonialism and development as forms of power Based on novel interpretations of postcolonial and Marxist theory and applied to original research data Amply supplemented with maps and illustrations An intriguing and invaluable resource for scholars of postcolonialism development geography and the Maya *The Maya of Modernism* Jesse Lerner, 2011-05-16 This study examines the ways artists architects filmmakers photographers and other producers of visual culture in Mexico the United States Europe and beyond have mined Mayan history and imagery *Conflict and Carnage in Yucatán* Douglas W. Richmond, 2015-04-15 Synthesizing a wealth of primary and secondary sources Conflict and Carnage in Yucatán offers a fresh study of the complex and violent history of Mexico's easternmost Gulf Coast region that expands and revises perceptions of liberal as well as Second Empire politics from 1855 to 1876 Decolonial Heritage Aníbal Arregui, Gesa Mackenthun, Stephanie Wodianka, 2018 The volume attempts to triangulate three vibrant discourses of our times It combines postcolonial and decolonial readings of cultural conflicts with assessments of ecological dimensions of those conflicts as well as their significance within discourses on natural and cultural world heritage The examples from four continents range from the medieval Middle East already shaken by a convergence of ecological and social disaster to modern imaginary constructions of medieval Vikings the persistence of Indigenous knowledge in the Arctic literary poetics of patrimony and the heritage politics of Mediterranean urban architecture Authors ask which strategies societies in developing countries use to defend their cultural and ecological uniqueness and integrity while being penetrated by environmental hazards and hegemonizing Western forms of heritage culture or how western societies construct their own past in ways that are sometimes reminiscent of traditional imaginations of a pre modern past petrified eternally in an ideal moment of time Colonial and historical forms of heritagization of human and non human environments the essays show answer to pressing emotional needs for a sense of stability But the desire for nostalgia frequently commodified tends to collide with the similarly pressing need for political and economic survival in a rapidly changing world and in the face of accelerating extraction practices Without being able to solve this dilemma the volume makes an interdisciplinary contribution to taking intellectual stake of the asymmetrical politics and poetics of heritage and collective cultural memory **Indigenous Archaeologies** Margaret Bruchac, Siobhan Hart, H Martin Wobst, 2016-06-03 This reader of original and reprinted articles many by indigenous authors is designed to display the array of writings around relationships between archaeologists and indigenous peoples around the globe *William Hickling Prescott* Peter O. Koch, 2016-05-11 William Hickling Prescott 1796 1859 was one of those rare historians who effectively melded history and literature in an elegant compelling writing style that appealed to the casual reader while still meeting the strict criteria of the scholar Prescott was the first American historian to achieve international recognition with his critically acclaimed History of the Reign of Ferdinand and Isabella Plagued by poor vision

and chronic health issues he was determined to make his mark as a historian His follow up work The History of the Conquest of Mexico is considered his masterpiece Prescott went on to write A History of the Conquest of Peru History of the Reign of Philip II and a 200 page addendum to William Robertson s History of the Reign of the Emperor Charles V Drawing on correspondence and journal entries this book traces the life of one of America s most celebrated historians

The Colossal Peter Mason,2013-06-01 Peter Mason takes a bold multidisciplinary approach in this account of the idea of the colossal in culture He gathers instances of the colossal throughout history including the obelisks of Egypt the Colossus of Rhodes the Roman Colosseum the heads of the Olmecs and the stone statues of Easter Island using historical and archaeological evidence to position them within the context of time and culture Mason establishes a vision of the colossal that encompasses both the colossal in scale and another overlooked sense of the word the archaic Greek kolossos a ritual effigy and its modern equivalents Combining fascinating detail with a rigorous account that spans three millennia The Colossal argues that the artist who best understood and tapped into the kolossos was Alberto Giacometti Mason shows that the Swiss sculptor and painter s work articulated themes of death and mourning in ways rarely seen since the art of archaic Greece themes most evident in his enigmatic work The Cube From the monolithic sculptures of long dead civilizations to Giacometti s imposing and unsettling heads The Colossal is an innovative book that traces unexplored thematic threads through visual history

Relic Hunters James E. Snead,2018-08-30 Relic Hunters is a study of the complex relationship between the people of 19th century America with the material antiquities of North America s indigenous past As scholars struggled to explain their existence farmers in Ohio were plowing up arrowheads building their houses atop burial mounds and developing their own ideas about antiquity They experienced the new country as a place with history reflected in material traces that became important touch points for scientific knowledge but for American cultural identity as well Relic Hunters traces the encounter with American antiquities from 1812 to 1879 This encompasses the period when archaeology took root in the United States it also spans the deep settlement of the Midwest and sectional strife both before and after the Civil War At the center of the story is the first iconic find of American archaeology known as the Kentucky Mummy Discovered deep in a cavern this dessicated burial became the subject of scholarly competition traveling exhibitions and even poetry The book uses the theme of the Kentucky Mummy to structure the broader story of the public and American antiquities a tour that leads through rural museums mound excavations lecture tours shady deals and ultimately into the famous attic of the Smithsonian Institution Ultimately Relic Hunters is a story of the American landscape and of the role of archaeology in shaping that place Derived from letters memoranda and reports found in more than a dozen archives this is a unique account of a critical encounter that shaped local and national identity in ways that are only now
