a cultural history of the modern Southwest it is a complete rethinking and recentering of the key players and primary events marking the Southwest in the twentieth century Historian Flannery Burke emphasizes how indigenous Hispanic and other non white people negotiated their rightful place in the Southwest Readers visit the region s top tourist attractions and find out how they got there listen to the debates of Native people as they sought to establish independence for themselves in the modern United States and ponder the significance of the U S Mexico border in a place that used to be Mexico Burke emphasizes policy over politicians communities over individuals and stories over simple narratives Burke argues that the Southwest's reputation as a region on the margins of the nation has caused many of its problems in the twentieth century She proposes that as they consider the future Americans should view New Mexico and Arizona as close neighbors rather than distant siblings pay attention to the region s history as Mexican and indigenous space bear witness to the area s inequalities and listen to the Southwest's stories Burke explains that two core parts of southwestern history are the development of the nuclear bomb and subsequent uranium mining and she maintains that these are not merely a critical facet in the history of World War II and the militarization of the American West but central to an understanding of the region s energy future its environmental health and southwesterners conception of home Burke masterfully crafts an engaging and accessible history that will interest historians and lay readers alike It is for anyone interested in using the past to understand the present and Mediatized Conflict Cottle, Simon, 2006-05-01 We live in the future of not only the region but the nation as a whole times that generate diverse conflicts we also live in times when conflicts are increasingly played out and performed in the media Mediatized Conflict explores the powered dynamics contested representations and consequences of media conflict reporting It examines how the media today do not simply report or represent diverse situations of conflict but actively enact and perform them This important book brings together the latest research findings and theoretical discussions to develop an encompassing multidimensional and sophisticated understanding of the social complexities political dynamics and cultural forms of mediatized conflicts in the world today Case studies include Anti war protests and anti globalization demonstrations Mediatized public crises centering on issues of race and racism War journalism and peace journalism Risk society and the environment The politics of outrage and terror spectacle post 9 11 Identity politics and cultural recognition This is essential reading for Media Studies students and all those interested in understanding how why and with what impacts media report **The Comic-book Book** Richard A. Lupoff,1974 on diverse conflicts in the world today **Journalism: Critical Issues** Allan, Stuart, 2005-01-01 Over the years it has been frequently remarked that journalism is at a crossroads indeed so often that it risks sounding somewhat cliched yet there is every indication that its very forms practices and institutions are being decisively transformed with startling implications Accordingly the principal aim of this book is to help provide the basis for new dialogues to emerge regarding journalism today as well as about where it may be heading tomorrow Journalism Critical Issues poses a series of important questions afresh questions deserving of much greater attention than they have typically

received to date Each of the contributors seeks to challenge conventional ways of thinking about the critical issue at stake in their respective chapter In so doing it is their intention to further our understanding but also to encourage future explorations with the potential to revitalise journalism studies In adopting this approach it is hoped that the book will make for a lively argumentative in the best sense of the word and engaging intervention New Earth Histories Alison Bashford, Emily M.
