Lost in Familiar Places Edward R. Shapiro, A. Wesley Carr, 2011

Finding a Place to Stand Edward R.

Shapiro, 2020-04-29 What stands between us and authoritarianism seems increasingly fragile Democratic practices are under attack by foreign intrusion into elections voter suppression restricts citizen participation Nations are turning to autocratic leaders in the face of rapid social change Democratic values and open society can only be preserved if citizens can discover and claim their voices We access society through our organisations yet the collective voices and irrationalities of these organisations do not currently offer clear pathways for individuals to locate themselves How can we move through the mounting chaos of our social systems through our multiple roles in groups and institutions to find a voice that matters What kind of perspective will allow institutional leaders to facilitate the discovery of active citizenship and support engagement This book draws on psychodynamic systems thinking to offer a new understanding of the journey from being an individual to joining society as a citizen With detailed stories the steps and the conscious and unconscious linkages from being a family member to entering outside groups to taking up and making sense of institutional roles illuminate the process of claiming the citizen role With the help of leaders who recognise and utilise the dynamics of social systems there may be hope for us as citizens to use our institutional experiences to discover a place to stand

Heroine Abuse Thomas Gaiton Marullo, 2015-10-15 Fyodor Dostoevsky s first novel Netochka Nezvanova written in 1849 remains the least studied and understood of the writer s long fiction but it was a seedbed for many topics and themes that became hallmarks of his major works Specifically Netochka Nezvanova was the first in Dostoevsky s corpus to focus on the psychology of children and the first to feature a woman in a leading and narrative role It was also the first work in Russian literature to deal with problems of the family In Heroine Abuse Thomas Marullo contends that Netochka Nezvanova also provides a striking example of what psychologists today call codependency the ways often deviant and destructive in which individuals bond with people places and things as well as with images and ideas to cope with the vicissitudes of life Marullo shows how at age twenty eight Dostoevsky intuited and illustrated the workings of relationship addiction almost a century and a half before it became the scholarly focus of practitioners of mental health The moral monsters infernal women children adults and adult children who populate Netochka Nezvanova seek codependence in people places and things and in images ideas and ideals to satiate cravings for love dominance and control as well as to indulge in narcissism sexual perversion and other aberrant or alternative behaviors Indeed in no other work would Dostoevsky examine

such phenomena as pedophilia and lesbianism with such abandon Racing from tie to tie bond to bond and caught in a debilitating loop that they claim to detest but sadomasochistically enjoy the characters in Netochka Nezvanova wreak havoc on themselves and the world They do so moreover with impunity their addictions moving them from momentary exultation as self styled extraordinary men and women through prolonged darkness and despair and once again to old and new addictions for physical and emotional release Readers of Heroine Abuse will see Netochka Nezvanova as a timeless model in depicting codependency in the world of the twenty first century as it did in St Petersburg in 1849 Marullo s original work will appeal to scholars and students of Russian and comparative fiction to doctors psychologists and therapists to laymen and women interested in relationship addiction and finally to codependents and relationship addicts of all types [A Theology for Pastoral Psychotherapy](#) Brian Grant, Richard L Dayringer, 2014-01-02 The role of the pastoral psychotherapist requires balance between the individual the community and God Are you ready to take on this challenge This unique book examines the role of pastoral psychotherapy as it relates to the individual the community and God and describes the process of pastoral psychotherapy in detail It identifies healing as a mark of God s activity and then shows how God through healing creates communities that ultimately shape the selves and personalities within them Pastoral psychotherapy is a sanctified act taking place in a sanctified space It occurs in sacred space as defined created hallowed by God the community the therapist and the client The delineating of this sanctified holy space separates what goes on in therapy from the secular ordinary processes of life A Theology for Pastoral Psychotherapy God s Play in Sacred Spaces finds God in the creation of each sacred space Pastoral psychotherapy has developed as a means of enabling individuals and communities to cope with the ills of the modern age It addresses sin and evil in today s world changing the way that clients relate to people ideas and events in their communities families and individual psyches A Theology for Pastoral Psychotherapy God s Play in Sacred Spaces describes the process of psychotherapy from a theological point of view It shows how God hallows sacred spaces and explores the power of God to stimulate the search for healing A Theology for Pastoral Psychotherapy God s Play in Sacred Spaces explores the sharing of selves as presented by theorists on intersubjectivity identifies the creation of the therapy dyad in the work of the Holy Spirit drawing on new trinitarian theology explores ways in which therapy both is and is not an extension of the work of Christ shows how God lures us toward spiritual growth links psychoanalysis to the mystical disciplines interweaving mystical Christianity object relations view of psychoanalysis and process theology Based on the theories of Bion Klein Winnicott Bollas and Whitehead A Theology for Pastoral Psychotherapy God s Play in Sacred Spaces is an in depth examination of the intricate interplay of God community the individual and the therapist in pastoral psychotherapy at [www HaworthPress com](http://www.HaworthPress.com) *The Parables of Jesus* Richard Q. Ford, In this startling new way to read the parables Ford unlocks seven of the longer parables attributed to Jesus He focuses on the two major characters in each parable who are separated by social inequality and he entirely bypasses the common approach that assumes that the superior character represents God

and the subordinate character the Christian believer Drawing on his own therapeutic training Ford offers unique insight into the psychodynamics at work in the parables He proposes that the two characters are equally balanced in their multiple misperceptions of each other and shows how Jesus stories invite listeners to advert to issues of conflict and power and to struggle toward reconciliation

Salvio, 2012-11-12 The idea that teachers love children is often taken for granted in education Rarely is the idea of love itself examined Bringing together the work of educators curriculum theorists and clinical psychoanalysts and drawing upon autobiographical and narrative case studies this groundbreaking collection examines the collision of love and learning including the ways in which such intersections are provoked repressed and denied Contributors turn to psychoanalysis to explore questions of love in all of its varying permutations ambivalence sexuality hatred desire projection and loss in order to demonstrate how the social ramifications of such work is critical to the ways teachers are currently being prepared for life in the classroom

The Inner World in the Outer World Edward R. Shapiro, 1997-01-01 As psychoanalysis enters its second century practitioners and researchers are shifting away from focus on the individual and toward analysis of social existence In this collection of essays psychoanalysts and psychologists investigate the changing analytic situation

Beyond Reductionism Terry Wykowski, Neil Douglas, 2023-07-28 Beyond Reductionism Gateways for Learning and Change takes a critical look at organizational learning and change management from a leadership perspective in late 20th century organizations The authors argue that the dynamics that restrain the efforts of leaders transcend personal attributes and leadership styles They are rooted in the nature of work and institutions and the histories and cultures of the organizations themselves Often seen as the central constraint and the core limiting factor in organizational effectiveness and learning reductionism is defined as over simplification and a failure to comprehend the nature of life in organizations by concentrating too fully on discrete and disconnected aspects of reality The other constraints of hierarchy and institutional

knowledge are activated and driven by reductionism After reading *Beyond Reductionism Gateways for Learning and Change* leaders at all organizational levels will understand why low levels of organizational learning persists and change efforts fail They will also be equipped to recognize and reject overly simplistic and superficial interventions helping them to create non reductionist strategies for creating and sustaining change Actual project designs experiences techniques and results are described in the book within an overall framework that emphasizes the roles and interconnectedness of individuals leaders and groups all operating within the overlay of culture *From Belief to Knowledge* Neil Douglas, Terry

Wykowski, 2010-09-08 Belief is not knowledge but we tend to hold our beliefs as if they represent knowledge selecting whatever evidence is required to justify them And because humans tend to cling to their beliefs as truths organizations often ignore the need for change no matter how urgent that need *From Belief to Knowledge Achieving and Sustaining an Adaptive*

C **Taking the Transference, Reaching Toward Dreams** M. Gerard Fromm, 2018-03-08 This book reports on clinical work in and at the boundaries of the intermediate space between patient and therapist perhaps the space between reaching toward dreams and taking the transference Though the clinical work to be described here was influenced quite deeply by the writing of Winnicott primarily and then of Lacan it is meant to stand for itself as the record of and a set of stories about one therapist's experiences and learning The chapters that follow take up a range of clinical conditions hopelessness self destructiveness psychosis clinical phenomena regression impasse trauma technical issues interpretation transference free association and related topics dreams creativity the analytic setting Most of this work took place at the Austen Riggs Center a small psychiatric hospital in Stockbridge Massachusetts in which quite troubled patients are offered intensive psychoanalytic psychotherapy in a completely open and voluntary therapeutic community setting
