The Lost Submarines of Pearl Harbor James P. Delgado, Terry Kerby, Stephen Price, Maximilian D. Cremer, Hans K. Van Tilburg, Ole Varmer, Russell Matthews, 2016-11-16 In the pre dawn darkness of December 7 1941 five Imperial Japanese Navy submarines surfaced off the coast of Oahu Secured to the decks of these vessels were secret weapons to be deployed for the first time in modern warfare two man midget submarines intended to enter Pearl Harbor without being detected and torpedo the US Navy battleships lying at anchor there None of them would return from their mission One of the last remaining and persistent mysteries of the Pearl Harbor attack is that of the Japanese Midget Submarines It is a fascinating story of innovation courage secrets and failed expectations And it is not only a story of the morning hours of December 7 but of the years before to develop these weapons and the years after where they were deployed in the great Pacific War and how they fared as weapons of war These words by Daniel J Basta from the foreword of this work capture both the essence and the impact of *The Lost Submarines of Pearl Harbor* James P Delgado and his coauthors have worked on the story of these incredible craft for decades They combed the records of the US Navy and the recollections of its veterans as well as Japanese Australian and British archives in order to uncover the truth They have logged hours of direct observation and research on the midget subs in their final resting places in some cases more than 1 000 feet below the surface of the Pacific And in the end they have woven a tapestry of scholarship historical sleuthing scientific insight and good storytelling that will enthrall specialists and history enthusiasts alike

Poseidon Steven R. Schwankert,2013-10-01 Royal Navy submarine HMS Poseidon sank in collision with a freighter during routine exercises in 1931 off the Chinese coast Thirty of its fifty six man crew scrambled out of the hatches as it went down Of the twenty six who remained inside eight attempted to surface using an early form of diving equipment five of them made it safely to the surface in the first escape of this kind in submarine history and became heroes The incident was then

forgotten eclipsed by the greater drama that followed in World War II until news emerged that for obscure reasons the Chinese government had salvaged the wrecked submarine in 1972 This lively account of the Poseidon incident tells the story of the accident and its aftermath and of the author's own quest to discover the shipwreck and its hidden history **The Oxford Handbook of Maritime Archaeology** Alexis Catsambis, Ben Ford, Donny L. Hamilton, 2011-09-08 This title is a comprehensive survey of maritime archaeology as seen through the eyes of nearly fifty scholars at a time when maritime archaeology has established itself as a mature branch of archaeology **Electrical World**, 1919 **Air Power History** Sebastian Cox, Peter Gray, 2013-11-05 The 20th century saw air power transformed from novelists' fantasy into stark reality From string and canvas to precision weaponry and stealth air power has progressed to become not only the weapon of first political choice but often the only conceivable option This rapid development has given rise to considerable debate and controversy with those holding entrenched views rarely slow to shout their case Many myths have grown over the period ranging from the once much vaunted ability of air power to win wars alone through to its impact as a coercive tool This volume examines the theory and practice of air power from its earliest inception The contributors have been drawn from academia and the military and represent some of the world's leading proponents on the subject All significant eras on air power employment are examined some are evidently turning points while others represent continuous development Perhaps more importantly the book highlights the areas that could be considered to be significant and invites the reader to enter the debate as to whether it constitutes a continuum a turning point or indeed a revolution New Atlantis Earl Clark, 2001-08 New Atlantis The year is 2062 and mankind has finally begun colonization and taming of the planet's final frontier Earth's oceans This is the story of the largest of these cities beneath the sea An open port of call for merchants traders diplomats and thieves Over five thousand men women and children call this technological marvel located almost one mile beneath the ocean's surface home This is New Atlantis City Beneath the Sea The United States Navy's most sophisticated submarine has been hijacked by a band of mercenary soldiers who want to sell its technological secrets to an unknown secret organization But first the new captain of the submarine has some old scores to settle with Miles Walker the founder and builder of New Atlantis Can Walker save his undersea city from destruction at the hands of his worst enemy and will the price be his own life
