Hatry, 1986 **Police Manpower Management** Ronnie Mills, 1980 **Document Retrieval Index**, 1976 **Policing in Hong Kong** Kam C. Wong, 2016-04-22 This book is one of the first to document the challenges and opportunities facing the Hong Kong police force following the reversion of political authority from the UK to China in 1997. Thematically organized and oriented towards those issues of greatest concern to the public such as police accountability, assaults on police, police deployment, surveillance powers and policing across borders, it provides a detailed discussion of these and other contemporary issues. The opening chapter sets the work within historical context while the final chapter provides a comparison of policing in Hong Kong with public security in the PRC. The book will be of value to students and researchers working in the area of comparative policing and comparative criminal justice as well as police professionals and policy makers. *The Air Force Comptroller*, 1976 **Law and Order Training for Civil Defense Emergency** International Association of Chiefs of Police. This volume covers the uneven and often irresolute evolution of policing from the late 1940s to the end of the 1990s, concentrating on the impact of a succession of scandals on the reputation and regulation of the police and the fluctuating relations between central government, local authorities and police forces in shaping the control of police funding, policy and organisation, particularly in response to a growth in the scale and intensity of social protest and, above all, on the shifting sands of the policing of public order illustrated in the prolonged miners strike and urban unrest of the 1980s. It is a complement to earlier volumes in the series that focused on the liberalisation of the laws on capital punishment, abortion and homosexual relations between adult men in the 1960s, the founding of the Crown Court in 1971 and the Crown Prosecution Service in 1985, transformations in penal policy and the politics of law and order. It will be of much interest to scholars of British political history, criminology and sociology. **Recent Publications on Governmental Problems**, 1981 **An Introduction to American Policing** Stevens, 2017-05-08 An Introduction to American Policing, Second Edition, connects the US criminal justice system, criminology and law enforcement knowledge to the progress of the

David Farmer, 2021-03-22 This book describes what is argued to be the most effective way of doing public administration thinking Its aim is to encourage governments to govern fundamentally better in terms of policy and administration A better understanding of context and identities imaginization epistemic pluralism anti administration and the context of economics are examples of what is critical for high effectiveness The pieces included in this book have been handpicked from the vast academic collection that David Farmer has authored over the last thirty years and which were published in the Journal of Administrative Theory and Praxis and the Journal of Public Administration Education Collectively these chapters are intended to help governments use post traditional public administration theory in order to achieve better praxis
