## **Religion And Power In Morocco:**

**Religion and Power in Morocco** Henry Munson, 1993      **A History of Social Justice and Political Power in the Middle East** Linda T. Darling, 2013-05-02 From ancient Mesopotamia into the 20th century the Circle of Justice as a concept has pervaded Middle Eastern political thought and underpinned the exercise of power in the Middle East The Circle of Justice depicts graphically how a government's justice toward the population generates political power military strength prosperity and good administration This book traces this set of relationships from its earliest appearance in the political writings of the Sumerians through four millennia of Middle Eastern culture It explores how people conceptualized and acted upon this powerful insight how they portrayed it in symbol painting and story and how they transmitted it from one regime to the next Moving towards the modern day the author shows how although the Circle of Justice was largely dropped from political discourse it did not disappear from people's political culture and expectations of government The book demonstrates the Circle's relevance to the Iranian Revolution and the rise of Islamist movements all over the Middle East and suggests how the concept remains relevant in an age of capitalism A must read for students policymakers and ordinary citizens this book will be an important contribution to the areas of political history political theory Middle East studies and Orientalism

**Religion and Power** David Martin, 2016-04-08 There are few more contentious issues than the relation of faith to power or the suggestion that religion is irrational compared with politics and peculiarly prone to violence The former claim is associated with Juergen Habermas and the latter with Richard Dawkins In this book David Martin argues against Habermas that religion and politics share a common mythic basis and that it is misleading to contrast the rationality of politics with the irrationality of religion In contrast to Richard Dawkins and New Atheists generally Martin argues that the approach taken is brazenly unscientific and that the proclivity to violence is a shared feature of religion nationalism and political ideology alike rooted in the demands of power and social solidarity The book concludes by considering the changing ecology of faith and power at both centre and periphery in monuments places and spaces      *Sufism in Morocco's Religious Politics* John C. Thibdeau, 2023-07-25 This book outlines the role of Sufism in Moroccan politics in the twenty first century through a comparative study of contemporary Sufi organizations The author begins his analysis by highlighting the strategies employed by the Moroccan state over the past twenty years aimed at regulating and producing an authorized Moroccan Islam in the kingdom Despite these policies of spiritual security and spiritual diplomacy including the state sponsorship of Sufi organizations the author argues that this has not decreased diversity nor produced a banal interpretation of Islam but rather given rise to diverse articulations and performances of this religiosity Through a comparative analysis of three Sufi organizations based on eighteen months of fieldwork two of which have never before been studied the author brings into relief the spaces of creative enactment of Sufism as an ethical tradition Ultimately it is argued that each Sufi organization reflects a different refraction of Islam a concept emphasising the cultivation of public piety which underpins the Moroccan

state's formulation of Islam Focused on both theoretical contributions to Islamic studies and topical treatments of geopolitical issues like spiritual diplomacy the Western Sahara and Morocco Algeria the book spans multiple disciplines including anthropology religious studies sociology and political science      **The Government and Politics of the Middle East and North Africa** Mark Gasiorowski, 2016-08-02 A comprehensive country by country examination of the history domestic politics and foreign policies of the Middle East and North Africa      Government and Politics of the Middle East and North Africa Sean Yom, 2019-10-30 The latest edition of this renowned textbook explores the states and regimes of the Middle East and North Africa Presenting heavily revised fully updated chapters contributed by the world's leading experts it analyzes the historical trajectory political institutions economic development and foreign policies of the region's nearly two dozen countries The volume can be used in conjunction with its sister volume The Societies of the Middle East and North Africa for a comprehensive overview of the region Chapters are organized and structured identically giving insightful windows into the nuances of each country's domestic politics and foreign relations Data tables and extensive annotated bibliographies orient readers towards further research Whether used in conjunction with its sister volume or on its own this book provides the most comprehensive and detailed overview of the region's varied politics Five new experts cover the critical country cases of Turkey Lebanon Jordan Saudi Arabia and Iran All chapters cover the latest events including trends that have remarkably changed in just a few years like the gradual end of the Syrian civil war As such this textbook is invaluable to students of Middle Eastern politics The ninth edition brings substantial changes All chapters also have a uniform streamlined structure that explores the historical context social and economic environment political institutions regime dynamics and foreign policy of each country Fact boxes and political maps are now far more extensive and photographs and images also help illustrate key points Annotated bibliographies are vastly expanded providing nothing short of the best list of research references for each country      *Religion and Global Politics* Sheriff Folarin, Ogunnubi, 2022-06-21 Religion and Global Politics Soft Power in Nigeria and Beyond examines the deployment of religious soft power in African states and the potential it has for transforming perceptions of the continent The contributors refocus the attention on religion away from the misery discourse of conflict and violence towards the domain of international relations diplomacy and foreign policy in Africa Through this shift the contributors analyze the ways in which religion has impacted the external relations of African states Religion and Global Politics introduces the theme of religion to the discourse of African international relations and politics to provide a thorough examination of religion's influence on politics in the daily lives of African people      *Structuring Conflict in the Arab World* Ellen Lust-Okar, 2005-01-10 This book examines how ruling elites manage and manipulate their political opposition in the Middle East In contrast to discussions of government opposition relations that focus on how rulers either punish or co-opt opponents this book focuses on the effect of institutional rules governing the opposition It argues rules determining who is and is not allowed to participate in the formal political

arena affect not only the relationships between opponents and the state but also between various opposition groups This affects the dynamics of opposition during prolonged economic crises It also shapes the informal strategies that ruling elites use toward opponents The argument is presented using a formal model of government opposition relations It is demonstrated in the cases of Egypt under Presidents Nasir Sadat and Mubarek Jordan under King Husayn and Morocco under King Hasan II

**Islamist Radicalisation in North Africa** George Joffe,2012-06-12 In the current climate of political extremism and violence much attention has been directed towards radicalisation as the reasons behind such courses of action along with a conviction that those who are radicalised represent an irrational deviation from the conventionally accepted norms of social and political behaviour This book focuses on the current issues and analytical approaches to the phenomenon of radicalisation in North Africa Taking a comprehensive approach to the subject it looks at the processes that lead to radicalisation rather than the often violent outcomes At the same time chapters expand the discussion historically and conceptually beyond the preoccupations of recent years in order to develop a more holistic understanding of a complex individual and collective process that has represented a permanent challenge to dominant political social and on occasion economic norms With contributions from academics and policy makers within and outside the region the book is a comprehensive investigation of Islamist Radicalisation As such it will be of great interest to academics and students investigating North Africa and terrorism as well as specialists in radicalism and extremism

*Global Faith, Worldly Power* John Corrigan,Melani McAlister,Axel R. Schäfer,2022-09-15 Assessing the grand American evangelical missionary venture to convert the world this international group of leading scholars reveals how theological imperatives have intersected with worldly imaginaries from the nineteenth century to the present Countering the stubborn notion that conservative Protestant groups have steadfastly maintained their distance from governmental and economic affairs these experts show how believers ambitious investments in missionizing and humanitarianism have connected with worldly matters of empire the Cold War foreign policy and neoliberalism They show too how evangelicals

international activism redefined the content and the boundaries of the movement itself As evangelical voices from Africa Asia and Latin America became more vocal and assertive U S evangelicals took on more pluralistic multidirectional identities not only abroad but also back home Applying this international perspective to the history of American evangelicalism radically changes how we understand the development and influence of evangelicalism and of globalizing religion more broadly In addition to a critical introduction and essays by editors John Corrigan Melani McAlister and Axel R Sch fer are essays by Lydia Boyd Emily Conroy Krutz Christina Cecelia Davidson Helen Jin Kim David C Kirkpatrick Candace Lukasik Sarah Miller Davenport Dana L Robert Tom Smith Lauren F Turek and Gene Zubovich

**Schooling Islam** Robert W. Hefner, Muhammad Qasim Zaman, 2010-12-16

Since the Taliban seized Kabul in 1996 the public has grappled with the relationship between Islamic education and radical Islam Media reports tend to paint madrasas religious schools dedicated to Islamic learning as medieval institutions opposed to all that is Western and as breeding grounds for terrorists Others have claimed that without reforms Islam and the West are doomed to a clash of civilizations Robert Hefner and Muhammad Qasim Zaman bring together eleven internationally renowned scholars to examine the varieties of modern Muslim education and their implications for national and global politics The contributors provide new insights into Muslim culture and politics in countries as different as Morocco Egypt Pakistan India Indonesia Iran and Saudi Arabia They demonstrate that Islamic education is neither timelessly traditional nor medieval but rather complex evolving and diverse in its institutions and practices They reveal that a struggle for hearts and minds in Muslim lands started long before the Western media discovered madrasas and that Islamic schools remain on its front line *Schooling Islam* is the most comprehensive work available in any language on madrasas and Islamic education

**Inside a Madrasa** Arshad Alam, 2020-11-29 While there exists scholarly works on madrasas in India during medieval times and the colonial period there is hardly anything on the conditions of madrasas today and those are by and large based on secondary literature and not grounded in detailed empirical investigation This work through ethnographic study undertaken at two madrasas in Mubarakpur in Uttar Pradesh shows how Indian madrasas represent a diverse array of ideological orientations which is mostly opposed to each other's interpretation of Islam If madrasas are about the dissemination of Islamic knowledge then they also problematize and compete over how best to approach that knowledge in the process they create and sustain a wide variety of possible interpretations of Islam This volume will be of interest to scholars and researchers interested in the study of Islam and Indian Muslims Since it is multidisciplinary in approach it will find space within the disciplines of sociology social anthropology history and contemporary studies

Religious Appeals in Power Politics Peter S. Henne, 2023-10-15 Religious Appeals in Power Politics examines how states use or attempt to use confessional appeals to religious belief and conscience to advance political strategies and objectives Through case studies of the United States Saudi Arabia and Russia Peter S Henne demonstrates that religion although not as high profile or well funded a tool as economic sanctions or threats of military force remains a potent weapon in international relations Public policy analysis often minimizes the role of religion favoring military or economic matters as the important arenas of policy debate As Henne shows however at transformative moments in political history states turn to faith based appeals to integrate or fragment international coalitions Henne highlights Saudi Arabia s 1960s rivalry with Egypt the United States s post 9 11 leadership in the global war on terrorism and the Russian Federation s contemporary expansionism both to reveal the presence and power of calls for religious unity and to emphasize the uncertainty and anxiety such appeals can create Religious Appeals in Power Politics offers a bold corrective to those who consider religion as tangential to military or economic might
