Return To Earth A Novel Of The Future

Carl Abbott

Return To Earth A Novel Of The Future:

Return to Earth H. M. Hoover, 1980 In a future world a diplomat returns to Earth to retire and finds himself involved in political intrigue and a disquieting friendship with a young girl **Sequels** Janet G. Husband, Jonathan F. Husband, 2009 A guide to series fiction lists popular series identifies novels by character and offers guidance on the order in which to read unnumbered series Future Wars David Seed, 2012-01-01 This timely book investigates fiction that speculates about wars likely to break out in the near or distant future Ranging widely across periods and conflicts real and imagined *Future Wars* explores the interplay between politics literature science fiction and war in a range of classic texts Individual essays look at Reagan's infamous Star Wars project nuclear fiction Martian invasion and the Pax Americana The use of future war scenarios in military planning dates back to the nineteenth century and *Future Wars* concludes with a US Army officer's assessment of the continuing usefulness of future wars fiction Stanislaw Lem: Philosopher of the Future Peter Swirski, 2015-05-26 Stanislaw Lem *Philosopher of the Future* brings a welter of unknown elements of Lem's life career and literary legacy to light in order to mete out cognitive justice to the writer who preferred to be known as the philosopher of the future

Science-fiction Everett Franklin Bleiler, Richard Bleiler, 1998 *Complementing Science Fiction The Early Years* which surveys science fiction published in book form from its beginnings through 1930 the present volume covers all the science fiction printed in the genre magazines *Amazing Astounding* and *Wonder* along with offshoots and minor magazines from 1926 through 1936 This is the first time this historically important literary phenomenon which stands behind the enormous modern development of science fiction has been studied thoroughly and accurately The heart of the book is a series of descriptions of all 1 835 stories published during this period plus bibliographic information Supplementing this are many useful features detailed histories of each of the magazines an issue by issue roster of contents a technical analysis of the art work brief authors biographies poetry and letter indexes a theme and motif index of approximately 30 000 entries and general indexes *Science Fiction The Gernsback Years* is not only indispensable for reference librarians collectors readers and scholars interested in science fiction it is also of importance to the study of popular culture during the Great Depression in the United States Most of its data which are largely based on rare and almost unobtainable sources are not available elsewhere

Science Fiction: the Evolutionary Mythology of the Future Thomas Lombardo, 2021-08-26 An in depth history of science primarily covering the 1930s from Superman to Olaf Stapledon's *Star Maker* The book examines science fiction literature art cinema and comics and the impact of culture philosophy science technology and futures studies on the development of science fiction Further the book describes the influence of science fiction on human society and the evolution of future consciousness Other key figures discussed include apek Hamilton Doc Smith Campbell Lovecraft C A Smith and Williamson Childrens' Catalog H.W. Wilson Company, 1986 The 1st ed includes an index to v 28 36 of *St Nicholas* **The Stuff of Science Fiction** Gary Westfahl, 2022-10-07 While students and general readers typically cannot relate to esoteric

definitions of science fiction they readily understand the genre as a literature that characteristically deals with subjects such as new inventions space robot and aliens This book looks at science fiction in precisely this manner with twenty one chapters that each deal with a subject that is repeatedly addressed in science fiction of recent centuries Based on a packet of original essays that the author assembled for his classes the book could serve as a supplemental textbook in science fiction classes but also contains material of interest to science fiction scholars and others devoted to the genre In some cases chapters offer thorough surveys of numerous works involving certain subjects such as imagined vehicles journeys beneath the Earth and undersea adventures discovering intriguing patterns in the ways that various writers developed their ideas When comprehensive coverage of ubiquitous topics such as robots aliens and the planet Mars is impossible chapters focus on major themes referencing selected texts A conclusion discusses other science fiction subjects that were omitted for various reasons and a bibliography lists additional resources for the study of science fiction in general and the topics of each chapter

Frontiers Past and Future Carl Abbott, 2006 Abbott offers a fruitful new way to read science fiction one that also greatly enriches our understanding of western history and its impact on our collective imagination Detailing the overlap of science fiction and western fiction especially relating to their mutual interest in and concerns about frontier expansionism he reveals an unsuspected common ground that informs the writings of both camps Reviewing the work of many Hugo and Nebula Award winners as well as drawing upon popular film and television series like the Buck Rogers serials Abbott's study journeys across the far reaches of science fiction's universe

Voices for the Future Thomas D. Clareson, 1984

The Return of King Arthur Beverly Taylor, Elisabeth Brewer, 1983 The revival of interest in Arthurian legend in the 19th century was a remarkable phenomenon apparently at odds with the spirit of the age Tennyson was widely criticised for his choice of a medieval topic yet *The Idylls of the King* were accepted as the national epic and a flood of lesser works was inspired by them on both sides of the Atlantic Elisabeth Brewer and Beverly Taylor survey the course of Arthurian literature from 1800 to the present day and give an account of all the major English and American contributions Some of the works are well known but there are also a host of names which will be new to most readers and some surprises such as J Comyns Carr's *King Arthur* rightly ignored as a text but a piece of theatrical history for Sir Henry Irving played King Arthur Ellen Terry was Guinevere Arthur Sullivan wrote the music and Burne Jones designed the sets The Arthurian works of the Pre Raphaelites are discussed at length as are the poems of Edward Arlington Robinson John Masefield and Charles Williams Other writers have used the legends as part of a wider cultural consciousness *The Waste Land* David Jones's *In Parenthesis* and *The Anathemata* and the echoes of *Tristan and Iseult* in *Finnigan's Wake* are discussed in this context Novels on Arthurian themes are given their due place from the satirical scenes of Thomas Love Peacock's *The Misfortunes of Elphin* and Mark Twain's *A Connecticut Yankee at King Arthur's Court* to T H White's serio comic *The Once and Future King* and the many recent novelists who have turned away from the chivalric Arthur to depict him as a Dark Age ruler *The Return of King Arthur* includes a bibliography of British

and American creative writing relating to the Arthurian legends from 1800 to the present day The Web ,1980 **The 100 Most Popular Young Adult Authors** Bernard A. Drew,1997-10-15 The book focuses on individuals writing in the 90s but also includes 12 classic authors e g Mark Twain Louisa May Alcott J R R Tolkien who are still widely read by teens It also covers some authors known primarily for adult literature e g Stephen King and some who write mainly for middle readers but are also popular among young adults e g Betsy Byars An affordable alternative to multivolume publications this book makes a great collection development tool and resource for author studies It will also help readers find other books by and about their favorite writers **Armageddon Films FAQ** Dale Sherman,2013-10-01 FAQ Mankind has been predicting its own demise through various methods from fables and religious scriptures to hard core scientific studies since the dawn of time And if there is one thing Hollywood knows how to exploit it is the fears of Things to Come Movies about the end of the world have been around since the early days of cinema and Armageddon Film FAQ is a look into the various methods we have destroyed ourselves over the years zombies mad computers uptight aliens plunging objects from space crazed animals Satan God Contagions the ever popular atomic bomb sometimes even a combination of these in the same movie Armageddon Films FAQ goes from the silent days of filmmaking to the most recent literally earth shattering epics from cinema to television and even the novels from comedies to dramas from supernatural to scientific It also explores other aspects of the genre such as iconic but unfilmable apocalyptic novels postnuclear car racing flicks domestic dramas disguised as end of the world actioners and more from the most depressing to the happiest Armageddons ever **Urban Narratives about Nature** Carlos Tabernero,2024-10-15 When more than half of the Earth population lives in cities and living conditions worldwide suffer from a steady increase in environmental issues historical inquiry provides useful reflections and new perspectives on the present Urban Narratives about Nature Socio Ecological Imaginaries between Science and Entertainment aims at generating specific historical knowledge concerning processes of production circulation and management of natural history narratives and the associated struggles for meaning within the socio ecological relations involved The city is a powerful storyteller and this book upon a relational perspective provides a diverse and interrelated collection of case studies of urban based production and circulation of narratives about nature Altogether these cases probe the complex relationships among scientific authority public awareness policymaking corporate and political interests and environmental advocacy in effect expanding the interdisciplinary linking of urban and environmental history within a global history view Hope, Form, and Future in the Work of James Joyce David P. Rando,2021-11-18 Hope and future are not the terms with which James Joyce has usually been read but this book paints a picture of Joyce s fiction in which hope and future assume the primary colours Rando explores how Joyce s texts as early as Dubliners and A Portrait of the Artist as a Young Man delineate a complex hope that is oriented toward the future with restlessness dissatisfaction and invention He examines how Joyce envisions alternatives to the prevailing conventions of hope throughout his works and in Ulysses and Finnegans Wake develops formal techniques of

spatializing hope to contemplate it from all sides Casting fresh light on the ways in which hope animates key aspects of Joyce's approach to literary content and form Rando moves beyond the limitations of negative critique and literary historicism to present a Joyce who thinks agilely about the future politics and possibility *Publishers' Weekly*, 1893 On the Edge of Earth: The Future of American Space Power Steven Lambakis, Increasing evidence of the irreparable damage humans have inflicted on the planet has caused many to adopt a defeatist attitude toward the future of the global environment Local Environmental Movements A Comparative Study of the United States and Japan analyzes how local groups in both Japan and the United States refuse to surrender the Earth to a depleted and polluted fate Drawing on numerous case studies scholars from around the world discuss efforts by grassroots organizations and movements to protect the environment and to preserve the landscapes they love and depend upon The authors examine citizen campaigns protesting nuclear radiation and chemical weapons disposal Other groups have organized to protect farmlands and urban landscapes to groups that organize to preserve steams wildlife habitats tidal flats coral reefs National Parks and biodiversity These small groups of determined citizens are occasionally successful demonstrating the power of democracy against seemingly insurmountable odds In other cases the groups failed to bring about the desired change This book explores the distinctive leaders the relevant laws and regulations local politics and the historical and cultural contexts that influenced the goals and successes of the various groups The contributors conclude that there is no one single environmental movement but many and the volume emphasizes grassroots movements and advocacy groups that represent local constituencies By studying these groups and their respective challenges Local Environmental Movements highlights the common themes as well as the distinctive features of environmental advocates in the United States and Japan Over decades these groups have nurtured environmental awareness and promoted the concept of sustainable development that respects the need for both environmental protection and cultural preservation *Child of Earth* E.C. Tubb, 2011-09-29 There should have been soft breezes scented with entrancing perfumes the soothing warmth of a golden sun lakes of wine and mountains of grain trees adorned with fruit and bud and flower shrubs bearing a profusion of glittering gems Herbs and spices to provide freedom from pain a return to youthful zest an end of aging and decay Salves and ointments and natural fungi to cure all physical ills For this was Earth that planet of legend the paradise for which all yearned and hungered to find The world of joy and beauty and riches beyond the wildest dreams Instead Earl Dumarest found a landscape of unremitting hostility Could this really be the fabled home world for which he had spent his entire life searching First published 2008 **Magic, Literature and Climate Pedagogy in a Time of Ecological Crisis** Sofia Ahlberg, 2024-08-22 Channeling the creative potential of humanity to transition towards joyous and just futures in times of life threatening climate change this book uses metaphors of magic and shapeshifting to imagine liveable futures achievable through other than rational means Focusing on a wide range of 20th and 21st century novels from a diverse range of writers such as Madeline Miller Jeff VanderMeer Ursula LeGuin N K Jemisin Ambelin Kwaymullina and

Leanne Betasamosake Simpson it suggests that readers take seriously the pedagogical potential of magic in literature for the classroom and beyond while providing them with contextualized collective methods of climate action
