Returning Home Practical Advice For War Veterans Their Families And Friends:

Care for the Sorrowing Soul Duane Larson, Jeff Zust, 2017-10-26 Moral Injury is now recognized as a growing major problem for military men and women. Operant conditioning can overwhelm moral convictions and yet the question of whether to shoot or not to shoot often will never have a settled answer. Certain theories and treatment models about MI have been well developed but too often overlook root issues of religious faith. The authors propose a new model for understanding moral injury and suggest ways to mitigate its virtually inevitable occurrence in pre combat training and ways to resolve MI post trauma with proven spiritual resources. People outside the military too among whom the incidence of MI also is a growing threat will benefit from this analysis. The stories of the injured, their shaping and their telling are the key and there are many illuminating stories of moral injury and recovery. Those who suffer MI, their families and caregivers including counselors, pastors and faith communities will find hope giving first steps toward the healing of MI in this book. [Beyond Trauma:](#)

[Hope and Healing for Warriors](#) Dean Bonura, 2016-03-03 It is estimated that well over 250 000 military veterans from Iraq and Afghanistan are suffering today from PTSD and even more from post traumatic stress or PTS. Clinical interventions alone do not adequately address all the issues associated with PTSD. There is also a profound spiritual dimension to trauma and it is frequently manifested in post trauma symptoms such as guilt, grief and shame and in various forms of loss including loss of meaning, loss of faith and loss of peace. Pastors, chaplains and Christian counselors have a legitimate healing role alongside clinicians in addressing the spiritual aspects of trauma through spiritual interventions that are based on Scripture and leverage new ways of viewing trauma and assumptions about its meaning. [Beyond Trauma: Hope Healing for Warriors](#) equips pastors, chaplains and other pastoral caregivers with the knowledge and resources to not only understand the spiritual effects of trauma but to make appropriate interventions that will lead veterans in their churches and communities to healing and growth.
