of God Denis Edwards, 2005-01-12 Jesus the Wisdom of God brings together insights from wisdom literature and contemporary creation thought in a work that brilliantly illuminates an integrated ecological theology Adding new depth to the ethical demands of our global ecological situation Denis Edwards argues that commitment to ecological praxis springs from the very center of Christian identity in Jesus Trinity and humanity Beginning with the wisdom tradition of the Hebrew scriptures Jesus the Wisdom of God explores what it means to recover the notion that Sophia Wisdom became incarnate in

Jesus of Nazareth and shows how the universe is altered by this Incarnation Wisdom Christology then opens out into a view of the trinitarian God at work in ongoing creation Edwards considers the implications of the trinitarian theology of Richard of St Victor and St Bonaventure centering on the insight that every creature including humankind is the free self expression of the trinitarian God In this context humanity is revealed as integrally related to all of creation a part of a single cosmic story While at one with creation in evolutionary history humanity is at the same time creation come to self awareness This train of insights leads to principles for an ecological praxis that affirms human value while insisting that humanity is a part of nature The whole reinforces commitment to sustainability and a Franciscan attitude of reverence toward God s creation Jesus the Wisdom of God in a disciplined yet clear way crafts an alternative to the anthropocentrism and alienation of much of Christian tradition by finding in the very roots of Christian mysticism and Christian identity a truly ecological theology for our time It is profound reading for students theologians and all Christians concerned with ecology and with the interface of science and theology
