Revolutionary Change In Cuba:

Revolutionary Change in Cuba Carmelo Mesa-Lago, 1972-01-15 Cuba has been transformed more radically within one decade than almost any society in recent history Yet the Cuban Revolution is poorly understood abroad because of its physical and political isolation the controversies between adherents of the old and new regimes and the murky skirmishes of the cold war This collection of essays is a comprehensive and authoritative study of almost all major aspects of socialist Cuba It draws together the talents of the ablest group of Cuban specialists ever represented in a single volume *Revolutionary Change in Cuba* Carmelo Mesa-Lago, 1971

Brown, 2017-04-24 As Castro's democratic reform movement veered off course a revolution that seemed to signal the death knell of dictatorship in Latin America brought about its tragic opposite Jonathan C Brown examines in forensic detail how the turmoil that rocked a small Caribbean nation in the 1950s became one of the century's most transformative events

Cuba Since the Revolution of 1959 Samuel Farber, 2011-12-13 Frequent insights stimulating historical comparisons and command of the data relating to Cuba's economic and social performance Foreign Affairs Uncritically lauded by the left and impulsively denounced by the right the Cuban Revolution is almost universally viewed one dimensionally In this book Samuel Farber one of its most informed left wing critics provides a much needed critical assessment of the Revolution's impact and legacy The Cuban story twists and turns as we speak so thank goodness for scholars such as Samuel Farber an unapologetic Marxist whose knowledge of Cuban affairs is unrivalled In this excellent necessary book Farber takes stock of fifty years of revolutionary control by recognizing achievements but lambasting authoritarianism Latin American Review of Books A courageous and formidable balance sheet of the Cuban Revolution including a sobering analysis of a draconian reform program that will only deepen the gulf between revolutionary slogans and the actual life of the people Mike Davis author of Planet of Slums

The Origins of the Cuban Revolution Reconsidered Samuel Farber, 2007-09-06 Analyzing the crucial period of the Cuban Revolution from 1959 to 1961 Samuel Farber challenges dominant scholarly and popular views of the revolution's sources shape and historical trajectory Unlike many observers who treat Cuba's revolutionary leaders as having merely reacted to U S policies or domestic socioeconomic conditions Farber shows that revolutionary leaders while acting under serious constraints were nevertheless autonomous agents pursuing their own independent ideological visions although not necessarily according to a master plan Exploring how historical conflicts between U S and Cuban interests colored the reactions of both nations leaders after the overthrow of Fulgencio Batista Farber argues that the structure of Cuba's economy and politics in the first half of the twentieth century

made the island ripe for radical social and economic change and the ascendant Soviet Union was on hand to provide early assistance Taking advantage of recently declassified U S and Soviet documents as well as biographical and narrative literature from Cuba Farber focuses on three key years to explain how the Cuban rebellion rapidly evolved from a multiclass antidictatorial movement into a full fledged social revolution **Visions of Power in Cuba** Lillian Guerra,2012 In the tumultuous first decade of the Cuban Revolution Fidel Castro and other leaders saturated the media with altruistic images of themselves in a campaign to win the hearts of Cuba s six million citizens In Visions of Power in Cuba Lillian Gue

Operation Pedro Pan and the Exodus of Cuba's Children Deborah Shnookal,2022-06-28 This in depth examination of one of the most controversial episodes in U S Cuba relations sheds new light on the program that airlifted 14 000 unaccompanied children to the United States in the wake of the Cuban Revolution Operation Pedro Pan is often remembered within the U S as an urgent rescue mission but Deborah Shnookal points out that a multitude of complex factors drove the exodus including Cold War propaganda and the Catholic Church s opposition to the island s new government Shnookal illustrates how and why Cold War scare tactics were so effective in setting the airlift in motion focusing on their context the rapid and profound social changes unleashed by the 1959 Revolution including the mobilization of 100 000 Cuban teenagers in the 1961 national literacy campaign Other reforms made by the revolutionary government affected women education religious schools and relations within the family and between the races Shnookal exposes how in its effort to undermine support for the revolution the U S government manipulated the aspirations and insecurities of more affluent Cubans She traces the parallel stories of the young Pedro Pans separated from their families in some cases indefinitely in what is often regarded in Cuba as a mass kidnapping and the children who stayed and joined the literacy brigades These divergent journeys reveal many underlying issues in the historically fraught relationship between the U S and Cuba and much about the profound social revolution that took place on the island after 1959 Publication of the paperback edition made possible by a Sustaining the Humanities through the American Rescue Plan grant from the National Endowment for the Humanities **Political Change in the Third World** Charles Andrain,2012-07-26 In this informative and highly readable book first published in 1988 Charles Andrain explores the ways in which public policies and socio political beliefs and structures cause political change in the Third World The author examines 3 types of political change 1 transitions in political leaders and their policies 2 fundamental transformations in political structures policy priorities and political strategies for dealing with policy issues and 3 the impact of economic education and health care policies on the society itself including changes in unemployment inflation economic growth literacy and birth and death rates In the first part of the book Professor Andrain presents a general overview of political change in the Third World explaining how different models of political systems explain the dynamics of political events in Latin America Asia Africa and the Middle East In the second part of the book he then applies these models to specific changes in five developing nations Vietnam Cuba Chile Nigeria and Iran The book is unique in its careful blending of

a policy focus with a structural analysis of nation states domestic social groups and international institutions in the often turbulent regions of the developing world It thus provides a very useful systematic approach to political developments in the Third World that will be welcomed by students faculty and general readers **Cuba's Second Economy** Jorge Perez-Lopez,2018-02-06 Without doubt Cuba is facing its most serious economic challenge in nearly thirty five years of revolutionary rule There is consensus that as the official centrally planned economy has faltered ordinary citizens eke out a living only by engaging in under the table unrecorded and mostly illegal activities In fact this second economy is growing by leaps and bounds This volume sketches the contours of the very complex phenomenon of the second economy of socialist Cuba and discusses its evolution over time as well as the role that it may play in the transition to a market economy on the island The economic crisis of the 1990s has propelled the second economy from behind the scenes to center stage Not only have black markets mushroomed but second economy activities connected to the free market that the Castro government has traditionally discouraged or even prosecuted are now being incorporated into the government s own economic strategy Self employment cultivation of individual plots and the use of foreign currencies to buy or sell goods are now promoted with considerable enthusiasm by the leadership Perez Lopez examines different ways of thinking about unregulated economic activities that have been set forth in the literature and concludes that the concept of the second economy is the most appropriate for Cuba He brings together available information from a multitude of sources on the manifestations of the second economy in Cuba and of its operation Cuba s Second Economy is a timely study of an economic system in crisis It will be of interest to economists political scientists policymakers and Latin America area scholars **Contesting Castro** Thomas G. Paterson,1995-10-12 Based on extensive research in original sources Contesting Castro represents a fresh interpretation of Cuban American relations in the 1950s An incisive exploration of the failures of U S policy it sheds new light on the 1959 triumph of Fidel Castro and the establishment of the Cuban Revolution **U.S. Presidents and Latin American Interventions** Michael Grow,2008 Reveals how Cold War U S presidents intervened in Latin America not as the official argument stated to protect economic interests or war off perceived national security threats but rather as a way of responding to questions about strength and credibility both globally and at home *Routledge Library Editions: Education Mini-Set G Higher & Adult Education 11 vol set* Various,2021-07-14 Mini set G Higher and Adult Education re issues 11 volumes originally published between 1974 and 1992 They discuss and analyze adult education from both theoretical and practical standpoints and look at the challenges facing adult education during the 1970s and 80s as well as examining the history of higher adult education in the UK The mini set includes one volume which although previously available with another publisher and out of print for some years is now available for the first time from Routledge **International Higher Education Volume 2** Philip Altbach,2014 This encyclopedia is the result of a highly selective enterprise that provides a careful selection of key topics in essays written by top scholars in their fields Comprehensive and in depth

The Manipulation of Consent Youssef Cohen,2010-11-23 The Manipulation of Consent is a major contribution to our knowledge of the mechanisms by which elites instill in the lower classes the beliefs values and attitudes that legitimize their subordinate position in the social order Youssef Cohen explores the case of Brazil where the working class was relatively quiescent in the face of the authoritarian regime established by force in 1964 Drawing on recent advances in the theory of the state and the study of power relations as well as on modern methods of social inquiry he reveals the techniques of ideological control in the concrete setting of modern Brazilian society The result is an unusually illuminating case study that blends theoretical exposition conceptually informed historical analysis and a wealth of empirical data The Manipulation of Consent makes a substantial addition to the understanding of Brazilian politics the study of power relations and the theory of the state

Unequal Giants Joseph Smith,1991-09-15 In 1889 the Brazilian empire was overthrown in a military coup The goodwill and assistance of the United States to the young republic of Brazil helped forge an alliance But America s apparently irresistible political and economic advances into Brazil were also hampered by disagreements over naval armaments reciprocity arrangements the issue of coffee valorization and in the 1920s over Brazil s efforts to play an active role in the League of Nations at Geneva The relationship proved to be unequal with the United States gaining influence in Latin America as the Brazilian elite s ambitions and vanities were fed

Education and Social Transition in the Third World Martin Carnoy,Joel Samoff,2014-07-14 Through a comparative analysis of educational theory and practice this analytic overview illuminates the larger economic and political changes occurring in five peripheral countries China Cuba Tanzania Mozambique and Nicaragua commonly viewed as in transition to socialism Current political patterns and leadership in these countries have emerged in the context of predominantly agricultural industrially underdeveloped economies Each state has played a major role in social transformation relying on the educational system to train educate and socialize its future citizens Discussing the similarities and differences among these states the authors show the primacy of politics and the interaction of material and ideological goals in the process of social transition and how shifting policies reflect and are reflected in educational change This collection first examines critical analyses of education in capitalist societies both industrialized and peripheral and explores the utility of those perspectives in the political and educational conditions of the countries under study Together these essays offer the first systematic explanation of how and why education in socialist countries undergoing rapid change differs from education in developing capitalist countries Contributions to the study were made by Mary Ann Burris Anton Johnston and Carlos Alberto Torres Originally published in 1990 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of

National Interest* Margaret Daly Hayes, 2019-03-04 Arguing for a new and sober look at the nature of U S Latin American relations Dr Hayes addresses the question Does the United States have compelling national interests in maintaining close relations with Latin American countries Her conclusion is yes but for reasons different from those offered in the traditional literature or espoused by many policy analysts She maintains that U S interests in relations with Latin America are primarily political secondarily economic though economic ties are the basis of the relationship and only marginally military Proper emphasis on these long term interests may be critical to U S national security in a global as well as regional context Dr Hayes points out that the Latin American countries occupying a unique position among developing nations today because of their comparatively successful experiences in achieving economic growth and development represent an increasingly important political influence in both the developed and developing worlds Moreover she argues it is in the U S interest to give economic aid to the less developed countries in the hemisphere particularly in the Caribbean Basin U S security is better preserved and enhanced by encouraging political and economic stability in the region than by promoting military alliances that Latin Americans may not really want Supporting the need for a revised rationale for U S Latin American relations Dr Hayes focuses in detail on the regions and nations of special interest to the United States today the Caribbean Basin Mexico in a chapter by Professor Bruce M Bagley Brazil and the Southern Cone
