 The Minjian Avant-Garde Chang Tan, 2024-02-15 *The Minjian Avant Garde* studies how experimental artists in China mixed with brought changes to and let themselves be transformed by minjian the volatile and diverse public of the post Mao era Departing from the usual emphasis on art institutions global markets or artists communities Chang Tan proposes a new analytical framework in the theories of socially engaged art that stresses the critical agency of participants the affective

functions of objects and the versatility of the artists in diverse sociopolitical spheres Drawing from hitherto untapped archival materials and interviews with the artists Tan challenges the views of Chinese artists as either dissidents or conformists to the regime and sees them as navigators and negotiators among diverse political discourses and interests She questions the fetishization of marginalized communities among practitioners of progressive art and politics arguing that the members of minjian are often more complex defiant and savvy than the elites would assume The Minjian Avant Garde critically assesses the rise of populism in both art and politics and show that minjian could constitute either a democratizing or a coercive force This book was published with generous support from the George Dewey and Mary J Krumrine Endowment *Mindscaping the Landscape of Tibet* Dan Smyer Yü, 2015-03-30 Based on the author's cross regional fieldwork archival findings and critical reading of memoirs and creative works of Tibetans and Chinese this book recounts how the potency of Tibet manifests itself in modern material culture concerning Tibet which is interwoven with state ideology politics of identity imagination nostalgia forgetting remembering and earth inspired transcendence The physical place of Tibet is the antecedent point of contact for subsequent spiritual imaginations acts of destruction and reconstruction collective nostalgia and delayed aesthetic and environmental awareness shown in the eco religious acts of native Tibetans Communist radical utopianism former military officers recollections Tibetan and Chinese artwork and touristic consumption of the Tibetan landscape By drawing connections between differences dichotomies and oppositions this book explores the interiors of the diverse agentive modes of imaginations from which Tibet is imagined in China On the theoretical front this book attempts to bring forth a set of fresh perspectives on how a culturally and religiously specific landscape is antecedent to simultaneous processes of place making identity making and the bonding between place and people **A History of the Chinese Communist Party** Stephen Uhalley, 1988 *Edgar Snow* John Maxwell Hamilton, 2003-09-25 Edgar Snow 1905-1972 was one of the most notable Western journalists to report on China in both the revolutionary and postrevolutionary periods He first became famous in the mid 1930s when he broke through a Nationalist blockade and reached the Communists in northwest China For nearly a decade no foreign reporter had seen the Communists who were widely regarded as a ragtag bandit army Snow took them seriously as a national movement His reporting in the now famous book *Red Star over China* was major news even to the Chinese thousands of whom joined the Communists after reading it It has remained a seminal reference on the early Chinese Communist movement In this award winning biography journalist John Maxwell Hamilton follows Snow from his birth in Kansas City to his rise as a celebrated foreign correspondent for the *Saturday Evening Post* his ostracism during the cold war and his role as a singular journalistic bridge between Communist China and the United States With a new preface by the author this revealing portrait of the widely misunderstood Snow firmly establishes him as a model for the kind of committed reporting that is crucial to understanding our interdependent world **A Military History of China** David Andrew Graff, Robin Higham, 2012-03-09 Gaining an understanding of China's long and sometimes bloody history can help to

shed light on China's ascent to global power. Many of China's imperial dynasties were established as the result of battle from the chariot warfare of ancient times to the battles of the Guomindang KMT and Communist regimes of the twentieth century. China's ability to sustain complex warfare on a very large scale was not emulated in other parts of the world until the Industrial Age despite the fact that the country is only now rising to economic dominance. In *A Military History of China* Updated Edition David A. Graff and Robin Higham bring together leading scholars to offer a basic introduction to the military history of China from the first millennium B.C.E. to the present. Focusing on recurring patterns of conflict rather than traditional campaign narratives, this volume reaches farther back into China's military history than similar studies. It also offers insightful comparisons between Chinese and Western approaches to war. This edition brings the volume up to date including discussions of the Chinese military's latest developments and the country's most recent foreign conflicts. *The Lessons of History: The Chinese People's Liberation Army at 75*, From People's War to People's Rule Timothy J. Lomperis, 2000-11-09 Timothy Lomperis persuasively argues the ironic point that the lessons of American involvement in Vietnam are not to be found in any analysis of the war by itself. Rather, he proposes a comparison of the Vietnam experience with seven other cases of Western intervention in communist insurgencies during the Cold War era: China, Indochina, Greece, the Philippines, Malaya, Cambodia, and Laos. Lomperis maintains that popular insurgencies are manifestations of crises in political legitimacy which occur as a result of the societal stresses caused by modernization. Therefore, he argues, any intervention in a people's war will succeed or fail depending on how it affects this crisis. The unifying theme in the cases Lomperis discusses is the power of land reform and electoral democracy to cement political legitimacy and therefore deflect revolutionary movements. Applying this theory to the ongoing Sendero Luminoso insurgency in Peru, Lomperis makes a qualified prediction of that conflict's outcome. He concludes that a global trend toward democratization has produced a new era of people's rule.

Triangles, Symbols, and Constraints Charles M. Dobbs, 2010 In his five plus years as president of the United States, Lyndon Johnson witnessed dramatic power struggles within and between the Soviet Union, the People's Republic of China, and the United States of America. New Soviet leaders were determined to build Soviet power and extend Soviet influence. Mao's revolutionary ideology so dominated China that there were few levers to move Sino-American relations ahead. Johnson wanted to ease Cold War tensions by reaching a range of agreements with the Soviet Union on nuclear weapons and establishing relations with the People's Republic of China in order to end its isolation in the world community. However, multiple events frustrated Johnson's good intentions. The Soviet leadership that overthrew Nikita Khrushchev was committed to expanding its military might before negotiating with Washington; it also began focusing more and more on the worsening Sino-Soviet split. Mao Zedong entered into the Great Proletarian Cultural Revolution, and China seemed to devour itself. Meanwhile, the Vietnam War made negotiations among all three great powers more difficult, limiting room to maneuver. But Johnson persevered, and by 1968 the apparent American retreat symbolized by the North Korean

seizure of the USS Pueblo and the Communist Tet Offensive in Vietnam along with the Soviet invasion of Czechoslovakia seemed to change the construct between the great powers Beijing emerging from the worst of the Cultural Revolution increasingly feared Soviet intentions and Moscow wanted to prevent a Sino American rapprochement Although Johnson did not achieve his lofty goals he created the pre conditions that Richard Nixon later harvested for the détente with Moscow and rapprochement with Beijing Johnson's best intentions fell prey to triangles symbols and constraints
