advertising business negotiations etc The theme is all the more interesting today not only in consideration of the sheer magnitude of this phenomenon and its capillary spread but above all on account of the pervasive penetration of English into professional and workplace contexts as a communication language also for local internal communication The complexity of intercultural communication as an object of research is reflected in the variety of the topics explored the range of settings investigated and the diversity of methodological approaches taken

Tackling NHS Jargon Sarah Carr, 2018-08-08 Used properly jargon can be effective but used incorrectly it can damage communications waste time and money and harm public patient and staff relations This book will enable and encourage readers to use language that the intended audience will understand It provides practical advice based on the author's experience of producing National Health Service documents and contains explanations of common NHS jargon with alternatives Plain speaking and writing techniques are included and there are numerous examples from real NHS management communications This is an invaluable book for Health Service managers clinicians with management responsibilities and all those responsible for communicating information about healthcare

COMPREHENSIVE APPROACH TO ACCOUNTING FOR SCHOOLS AND TECHNICAL STUDIES Dr. N. VISWANADHAM, Mr. OTTO MATERN MUBA, Mr. ERICK SYLVESTER NGWEGA, 2019-08-19 It is very easy to control and manage business when a business is very small Hence the entire double entry account is kept in one book called a ledger As the business grows and expands it would be impossible just to use one book as the large number of pages needed for a lot of transactions could be very difficult to handle To solve this problem of getting difficulties in handling the bookkeeper should use more books Through this all similar types of transactions are handled together and have a book for each type Remember not to mix together transactions which are different from one another Therefore the books which are used to record all similar transactions on a first time before posting to the ledger account are called books of original entry
