Looking At Sweden Looking At Other Countries:

Looking at Violence in the Nordic Countries Jukka-Pekka Takala, Yaira Obstbaum, Nordic Council of Ministers, 2009 This report reviews and discusses violence statistics and their problems and possible improvements from various angles The report is based on the work of the statistical subproject of the Nordic Project on Violence Violence and its reduction in the Nordic countries V ld och v ldsreducering i Norden financed by the Nordic Council of Ministers and carried out by the Nordic councils for crime prevention and the Scandinavian Research Council for Criminology The Statistics Subproject was to look at three related but originally separate subprojects of the original overall plan 1 To describe and compare violence with the help of extant statistics 2 To chart variations in violence in the Nordic countries 3 To develop instruments of measuring violence in intimate relations including violence in the family With the resources available the subproject was unable to carry out any of these tasks in a truly systematic and comprehensive manner However we hope that the variable material we were able to produce on all these themes can contribute to better accounting for violence and be of help when devising methods for preventing violence The report describes levels and trends in violence It touches on problems and solutions in their measurement Some suggestions are tentative others are more firmly established and the reader can turn to the research and web pages that are referred to in the reports A Look at the Exchange Activities of the People's Republic of China United States Information Agency. Latin America's Potential in Nation Branding: A Closer Look at Brazil's, Chile's and Colombia's Practices Eva Niesing, 2013-09 In the globalized world of today a well elaborated long term oriented nation branding strategy can help nations to improve and to better control of their nation image Nation branding activities increase the countries competitiveness in the global marketplace and help to foster the tourism arrivals inward foreign direct investment flows and exports and further they help to attract talented workforce and students Despite its growing importance most Latin American countries still have not engaged enough in the area of nation branding and mostly only focus their activities on the tourism promotion The region's countries have a good image regarding soft factors such as their people and tourism attractions but have a weak image regarding their products and investment opportunities Brazil has a relatively good nation image in many dimensions but still has not developed an extensive nation branding strategy Chile and Colombia are among the Latin American countries which have started to conduct more complete nation branding activities Although such advances can be observed there is still a lot of improvement potential in the nation branding practices of Latin American countries

Migration from Turkey to Sweden Bahar Baser, Paul T. Levin, 2017-06-30 The refugee crisis and the recent rise of anti immigration parties across Europe has prompted widespread debates about migration integration and security on the continent But the perspectives and experiences of immigrants in northern and western Europe have equal political

significance for contemporary European societies While Turkish migration to Europe has been a vital area of research little scholarly attention has been paid to Turkish migration to specifically Sweden which has a mix of religious and ethnic groups from Turkey and where now well over 100 000 Swedes have Turkish origins This book examines immigration from Turkey to Sweden from its beginnings in the mid 1960s when the recruitment of workers was needed to satisfy the expanding industrial economy It traces the impact of Sweden s economic downturn and the effects of the 1971 Turkish military intervention and the 1980 military coup after which asylum seekers mostly Assyrian Christians and Kurds sought refuge in Sweden

Contributors explore how the patterns of labour migration and interactions with Swedish society impacted the social and political attitudes of these different communities their sense of belonging and diasporic activism The book also investigates issues of integration return migration transnational ties external voting and citizenship rights Through the detailed analysis of migration to Sweden and emigration from Turkey this book sheds new light on the situation of migrants in Europe **The**

Growth Great Britain: Parliament: House of Lords: European Union Committee,2006-03-16 This report by the European Union Committee examines the progress of the European Union in initiating a strategy for jobs and growth across the Community as a whole The background to this report stems from the Spring European Council meeting in 2000 in Lisbon and the launch of an economic reform agenda The Committee observes that since the Lisbon Agenda little progress has been made and the performance of many of the larger European economies has been poor The Committee has noted that certain worrying signs of protectionist behaviour have developed especially regarding barriers of cross border mergers The EU has recognized this weak performance and the Agenda was relaunched in 2005 with a greater focus on the key economic priorities of more growth and jobs Also all Member States are now required to produce an annual National Action Plan highlighting the policies being pursued to improve economic growth and increase employment The Committee sets out a

number of recommendations to further push forward the priorities of growth and jobs including that the Commission should seek to complete the progress towards an internal market that Member States should influence one another in the development of good practice through statistical comparison of their economic progress and agree on quantifiable targets that the format of the National Action Plans should include not only the successes but where countries are underperforming that the Agenda be given a higher public profile *Cobbett's Parliamentary Debates* Great Britain. Parliament,1886 The Census and Social Science Great Britain: Parliament: House of Commons: Science and Technology Committee,2012-09-21 The Committee undertook an inquiry to consider the use of the data from the census by the Government whether there were elements of the census that would be irreplaceable by other means and if the business of Government would be seriously impacted if census data was lost or changed The Committee is concerned that there is no chief advisor as with other sciences or a Minister who could answer for Government as a whole whether social science provision was adequate and whether the data from the census and other sources was fit for purpose The key disadvantage of the census is the timeliness of the data Yet census data provides a snapshot of the whole country at a moment in time It enables detection of trends in the recent past allows comparisons to be made of different areas in the country more accurately and provides a means to recruit to longitudinal studies Good use is being made of non census surveys to provide equivalent data in a number of areas in a much shorter timescale but these do not have the same breadth as the census and do not provide a national coverage or standard Social science could suffer if the census was to be discontinued without serious consideration as to how this data would be replaced Though the absence of a census would also potentially stimulate a considerable amount of innovation in social science and examination of how to produce social data of an equivalent standard *The Oxford Handbook of Swedish Politics* Jon Pierre,2016 The Handbook provides a broad introduction to Swedish politics and how Sweden's political system and policies have evolved over the past few decades **The American Swedish Monthly** ,1917 **A Look at Worker Rights in Eastern Europe** ,1989 **Income tax conventions** United States.
