Lord Grenville 1759-1834 P. Jupp, 2002 **Lord Grenville, 1759-1834** Peter Jupp, 1985 *The Emancipation of William Wyndham Grenville (1759-1834)* William Guy Martin Wood, 2018 Lord Grenville, 1759-1834 Arnold D. Harvey, 1989 Walks in London Augustus John Cuthbert Hare, 1894 *A List of All the National Portraits on Lean in the Bethnal Green Museum, with Dates and Names of Artists* George Scharf, 1885 Historical and Descriptive Catalogue of the Pictures, Busts, &c. in the National Portrait Gallery National Portrait Gallery (Great Britain), George Scharf, 1888 *British Freemasonry, 1717-1813 Volume 5* Robert Peter, 2016-10-14

Freemasonry was a major cultural and social phenomenon and a key element of the Enlightenment. It was to have an international influence across the globe. This primary resource collection charts a key period in the development of organized Freemasonry culminating in the formation of a single United Grand Lodge of England. The secrecy that has surrounded Freemasonry has made it difficult to access information and documents about the organization and its adherents in the past. This collection is the result of extensive archival research and transcription and highlights the most significant themes associated with Freemasonry. The documents are drawn from masonic collections, private archives and libraries worldwide. The majority of these texts have never before been republished. Documents include rituals, some written in code, funeral services, sermons, songs, certificates, an engraved list of lodges, letters, pamphlets, theatrical prologues and epilogues, and articles from newspapers and periodicals. This collection will enable researchers to identify many key masons for the first time. It will be of interest to students of Freemasonry, the Enlightenment, and researchers in eighteenth century studies. The New Werner Twentieth Century Edition of the Encyclopaedia Britannica, 1906

Architects of Empire John Kenneth Severn, 2007. A soldier and statesman for the ages, the Duke of Wellington is a towering figure in world history. John Severn now offers a fresh look at the man, born Arthur Wellesley, to show that his career was very much a family affair, a lifelong series of interactions with his brothers and their common Anglo Irish heritage. The untold story of a great family drama, *Architects of Empire*, paints a new picture of the era through the collective biography of Wellesley and his siblings. Severn takes readers from the British Raj in India to the battlefields of the Napoleonic Wars to the halls of Parliament as he traces the rise of the five brothers from obscurity to prominence. Severn covers both the imperial Indian period before 1800 and the domestic political period after 1820, describing the wide range of experiences Arthur and his brothers lived through. *Architects of Empire* brings together in a single volume a grand story that before now was discernible only through political or military analysis. Weaving the personal history of the brothers into a captivating narrative, it tells of sibling rivalry among men who were by turns generous and supportive, then insensitive and cruel. Whereas other historians have minimized the importance of family ties, Severn provides an unusually nuanced understanding of the Duke of Wellington. *Architects of Empire* casts his career in a new light, one that will surprise those who believe they already know the man. **The Memoirs of François René** François-René vicomte de Chateaubriand, 1902 **The Memoirs of**
