Department of Oriental Printed Books and Manuscripts, Alexander George Ellis, 1894 **Saudi Arabia Under Ibn Saud** J.E. Peterson, 2018-06-21 At its founding in 1932 the Kingdom of Saudi Arabia was characterized by tribal warfare political instability chronic financial shortages and economic crises As a desert chieftain Abd al Aziz Ibn Saud the ruler and king until 1953 had the skills the cunning and the power to control the tribes and bring peace to this realm But financial and economic matters were not his forte and these he left mostly to a single individual Abdullah al Sulayman al Hamdan He was entrusted with nearly all of the country's early financial dealings and administrative development The Ministry of Finance which he headed from its inception served as nearly the sole government agency dealing with a wide variety of matters many of which had only a peripheral connection to finance or the economy This book examines the role of the Ministry of Finance and its minister Abdullah al Sulayman in holding the country together financially and administratively until the promise of substantial oil income was realized a few years after the end of World War II It will be essential reading for anyone interested in Gulf History and the Economic History of the Middle East *Lord of Arabia. Ibn Saud. An Intimate Study of a King. [With a Portrait and Maps.].* Francis Harold Courtenay Lupin ARMSTRONG, 1956 *The Politics of Truth Management in Saudi Arabia* Afshin Shahi, 2013-12-04 Exploring the management of truth in the

Kingdom of Saudi Arabia this book aims to investigate the ways in which the official truth is constructed and institutionalised in the country The Politics of Truth Management in Saudi Arabia argues that there are two interrelated notions which articulate the ways in which truth is conceptualised in Islam One at macro level constitutes the trans historical foundational principles of the religion a set of engrained beliefs which establish the finality and oneness of Islam in relation to other competing narratives The other at a micro level takes place internally to find truth within the truth Unlike Islamic truth at the macro level which is entrenched the Islamic truth at the micro level refers to the various attempts by different agencies to claim to have found the truth within the truth Wahhabism which is the product of an eighteenth century revivalist movement is portrayed as the most authentic reading of Islam It is seen as the *raison d'être* for the prevailing political mechanism in the country and is introduced as an example of truth management at the micro level Arguing that truth is not born in a power vacuum and often its construction and institutionalisation signify domination in one way or another this book will be of interest to students of Religion Politics and Saudi Politics more specifically

Historical Dictionary of Saudi Arabia J.E. Peterson, 2020-03-06 The Kingdom of Saudi Arabia now has been under the spotlight of Western curiosity for more than 80 years More than 15% of the world's total oil reserves lie underneath Saudi Arabia and in the early 1990s the kingdom

became the world's largest crude oil producer. Not surprisingly a world highly dependent on oil regards the desert kingdom as an area of intense strategic concern as reflected in the coalition of forces assembled on Saudi soil to oust Iraq from Kuwait in 1991. Also it played a major role in the invasion of Saddam Husayn's Iraq in 2003 and shares concern with the West over Iran's nuclear intentions throughout the 21st century. This third edition of *Historical Dictionary of Saudi Arabia* contains a chronology, an introduction and an extensive bibliography. The dictionary section has over 1,000 cross-referenced entries on important personalities, politics, economy, foreign relations, religion, and culture. This book is an excellent resource for students, researchers, and anyone wanting to know more about Saudi Arabia.

Western Civilization in the Near East Hans Kohn, 2022-11-30. First published in 1936, *Western Civilization in the Near East* traces the spread and growth of Western civilization in the countries of the Levant and their immediate hinterland. The author argues that modern civilization took birth in Western Europe and then slowly spread to the rest of Europe and to all other parts of the earth, leading to the Europeanization of mankind. While Europe's modern civilization initially enabled it to dominate the world economically and politically, it also provided non-European people with the resources to ultimately resist and reject Europe's control. This universal acculturation and the ensuing birth of a coherent and closely knit humanity facing similar social, economic, and cultural problems determined the new trends of world history. This book only focuses on the European contact with the Muslim East and the consequences of the contact. The language used is a reflection of its era, and no offence is meant by the Publishers to any reader by this republication. This book will be of interest to students of history, political science, international relations, and geography.

The Arab Nationalist Advisor Joseph A. Kéchichian, 2022-11-01. Shaykh Yusuf Yassin (1892-1962) marked the contemporary history of the Kingdom of Saudi Arabia in his capacity as a favorite advisor who was the founder, monarch's confidential secretary, relentless envoy, and chief foreign policy consultant. Born in Latakia, Syria, Yassin earned the confidence of King Abdul Aziz bin Abdul Rahman Al Saud and moved to Riyadh even before the Third Saudi Kingdom was inaugurated in 1932. After obtaining citizenship, he participated in critical decisions reached by the ruler as regional and international actors honed in on the wealth of the Arabian Peninsula. Over the course of several decades, Yusuf Yassin met with and negotiated on behalf of three monarchs: Abdul Aziz and his two successors, Saud and Faysal, with Arab and global leaders. He was present at the creation of the country and suggested that al-Saudiyyah be added to its very name: Al Mamlakah al Arabiyyah al Saudiyyah, which reflected his personality and political outlook as an Arab nationalist who cherished the founder. Joseph Kéchichian has written the first political biography of the statesman based on original documents, the Yassin Papers, as well as Western diplomatic correspondence. Kéchichian provides insights into the Nationalist Al Saud Advisor who left his mark on Saudi Arabia. The volume provides essential background on a man who rose from humble origins in Syria to espouse Arabian values and walks the reader through nearly five decades of Arab history, including the repercussions of the infamous 1916 Sykes-Picot Agreement, the creation of the League of Arab States, and various Arab

crises These events experienced and engaged with by Shaykh Yusuf Yassin at the highest political and diplomatic levels set the stage that empowered Saudi Arabia along with other Arab States with the wherewithal to succeed for their respective peoples
