Addressing Community Gang Problems ,1998 **Calligraphy, a Sourcebook** Jinnie Y. Davis,John V. Richardson (jr.),1982

Looking High and Low Brenda Jo Bright,Liza Bakewell,2022-12-06 Can low riders rightfully be considered art Why are Chicano murals considered art while graffiti is considered vandalism What do Native American artisans think about the popular display of their ceremonial objects How do the middlebrow notions of Getty workers influence highbrow values at the J Paul Getty Trust Looking High and Low attempts to answer these questions and the broader question What is art by bringing together a collection of challenging essays on the meaning of art in cultural

context and on the ways that our understandings of art have been influenced by social process and aesthetic values. Arguing that art is constituted across cultural boundaries rather than merely inside them, the contributors explore the relations between art, cultural identity, and the social languages of evaluation among artists, art critics, art institutions, and their audiences in the Southwest and in Mexico. The authors use anthropological methods in art communities to uncover compelling evidence of how marginalized populations make meaning for themselves, how images of ethnicity function in commercial culture, how Native populations must negotiate sentimental marketing and institutional appropriation of their art work, and how elite populations use culture and ritual in ways that both reveal and obscure their power and status. The authors make dramatic revelations concerning the construction and contestation of ideas of art as they circulate between groups where notions of what art should be are often at odds with each other. This volume challenges conventional modes of analyzing art. Its ethnographic explorations illuminate the importance of art as a cultural force while creating a greater awareness of the roles that scholars, museum curators, and critics play in the evaluation of art.

Aztlán and Arcadia Roberto Ramón Lint Sagarena,2014-08-22 In the wake of the Mexican American War competing narratives of religious conquest and re conquest were employed by Anglo American and ethnic Mexican Californians to make sense of their place in North America These invented traditions had a profound impact on North American religious and ethnic relations serving to bring elements of Catholic history within the Protestant fold of the United States national history as well as playing an integral role in the emergence of the early Chicano a movement Many Protestant Anglo Americans understood their settlement in the far Southwest as following in the footsteps of the colonial project begun by Catholic Spanish missionaries In contrast Californios Mexican Americans and Chicana os stressed deep connections to a pre

Columbian past over to their own Spanish heritage Thus as Anglo Americans fashioned themselves as the spiritual heirs to the Spanish frontier many ethnic Mexicans came to see themselves as the spiritual heirs to a southwestern Aztec homeland
