Facultad de Filología, *A Companion to Mester de Clerecía Poetry*, 2024-07-15 Mester de clerecía is the term traditionally used to designate the first generations of learned poetry in medieval Ibero Romance dialects the precursors of modern Castilian and other Romance

languages of the Iberian Peninsula In its time this poetry was anything but traditional These long poems of structured verse reappropriate the heroic past through the retelling of legends from Classical Antiquity saints lives miracle stories Biblical apocrypha and other tales At the same time the poems recast the place of their authors and learned characters within their stories in the shifting dynamics of their thirteenth and fourteenth century present Contributors are Pablo Ancos Maria Cristina Balestrini Fernando Ba os Vallejo Andrew M Beresford Olivier Biaggini Martha M Daas Emily C Francomano Ryan Giles Michelle M Hamilton Anthony John Lappin Clara Pascual Argente Connie L Scarborough Donald W Wood and Carina Zubillaga

Death in Fifteenth Century Castile Laura Vivanco, 2004 Differences in attitudes to death and dying in two distinct social classes the ecclesiastics and the nobility The theory of the three estates made clear distinctions between the functions of the two estates which comprised the elite of medieval society the oradores ecclesiastics and the defensores warriors or nobility They had different lifestyles clothing and ways of thinking about life With regard to death the responses dictated by Christian theology conflicted with the demands of the defensor ideology based on the defence of individual honour the pursuit of fama and the display of earthly power This book charts the progress of the dying from their preparations for death through their good or bad deaths to their burials and otherworldly fates and also analyses the responses of the bereaved Through the use of pre fifteenth century texts it is possible to demonstrate that the conflict between the orador and defensor ideologies did not begin in the fifteenth century but rather had a much older origin and it is suggested that the conflict continued after 1500 Textual sources include the Siete partidas wills chronicles religious works such as the Arte de bien morir and literary works such as C rcel de Amor and Celestina

In the Doorway of All Worlds Robin M Bower, 2024-05-01 The thirteenth century poet Gonzalo de Berceo is the first named author of Old Spanish letters and the most prolific contributor to the emergence of the body of learned vernacular verse known as the mester de clerec a In the Doorway of All Worlds focuses on the four hagiographies Berceo produced as a unified body of poetic expression and world building Robin M Bower traces the poet s intricate juxtaposition of contraries to shed light on a poetic world that will innovate a deceptively simple poetic vernacular and elevate its capacity to express nuance power and mystery The book examines the entanglements that bind formal and lexical choices the inscription of performance sites and audiences and problematic source authority It argues that Berceo s elaboration of a poetic vernacular was wholly enmeshed in the immediate human experiential world and the diverse cultural religious linguistic and literary contexts that framed it The book also highlights how Berceo invented a literary vernacular that befits the spoken idiom not only for the crafting of learned fictions but for giving linguistic shape to the ineffable In the Doorway of All Worlds ultimately reveals how Berceo freed the meanings trapped in relics shrines and the impenetrable texts from which he translated the saints to circulate in a new time

Figuring the Feminine Jill Ross, 2008-03-15 Figuring the Feminine examines the female body as a means of articulating questions of literary authority

and practice within the cultural spheres of the Iberian Peninsula both Romance and Semitic as well as in the larger Latinate literary culture. It demonstrates the centrality in medieval literary culture of the gendering of rhetorical and hermeneutical acts involved in the creation of texts and meaning and the importance of the medieval Iberian textual tradition in this process. A complex multicultural tradition that is often overlooked in medieval literary scholarship. This study adopts an innovative methodology informed by current theories of the body and gender to approach Hispanic literature from a feminist perspective. Jill Ross offers new readings of medieval Hispanic texts in Latin, Castilian and Hebrew including Prudentius, Peristephanon, Gonzalo de Berceo's *Milagros de Nuestra Señora*, Shem Tov of Carrión's *Battle Between the Pen and the Scissors* and several others. She highlights ways in which these texts contribute to the understanding of gender in medieval poetics and foreground questions of literary and cultural import. *Figuring the Feminine* argues that the bodies of women are crucial to the working out of such questions as the unsettling shift from orality to literacy, textual instability, cultural dissonance and the resistance to cultural and religious hegemony.

Historicist Essays on Hispano-Medieval Narrative

Barry Taylor, Geoffrey West, 2005. In this volume seventeen scholars from Great Britain, Ireland, Spain and the US pay tribute to the memory of Roger M. Walker, Professor of Spanish at Birkbeck College, London. His publications were chiefly in the field of Old Spanish narrative, epic, romance, hagiography and the *Libro de buen amor*, and the editors have sought to assemble contributions on these topics. Versions of some of the papers were presented at the symposium held in Professor Walker's memory at Birkbeck College in October 1999.

A History of the Spanish Language through Texts, Christopher Pountain, 2002-09-11. *A History of the Spanish Language through Texts* examines the evolution of the Spanish language from the Middle Ages to the present day. Pountain explores a wide range of texts from poetry through newspaper articles and political documents to a Bunuel film script and a love letter. With key points and a careful indexing and cross-referencing system, this book can be used as a freestanding history of the language independently of the illustrative texts themselves.

Christ, Mary, and the Saints, 2018-12-10. The last decade has witnessed a striking upsurge of interest in Iberian hagiography. In painting and the fine arts through to poetic and narrative treatments composed in Castilian and Catalan, the legacies of Christ, Mary and the saints have been approached from a range of perspectives and subjected to detailed critical scrutiny. This book, which focuses specifically on the application of theoretical and methodological approaches to analysis, asks what scholars of early Iberian hagiography can bring to the analysis of the sacred past and how the study of the discipline can be taken forward innovatively in the future. Its fourteen essays, each focusing on a different aspect of composition, seek in particular to explore interdisciplinary methodologies and the ways in which they intersect with broader discourses in other branches of research. Contributors are Carme Arronis Llopis, Fernando Baños Vallejo, Andrew M. Beresford, Sarah Jane Boss, Sarah V. Buxton, Marinela García Sempere, Ryan D. Giles, Ariel Guance Lluís, Ramon i Ferrer, Rebeca Sanmartín Bastida, Connie L. Scarborough and Lesley K. Twomey.

Love's Fools -- Aucassin, Troilus, Calisto and the Parody of the Courtly Lover, June

Hall Martin, 1972 **Gaude Virgo Gloriosa** Juan Carlos Conde, Emma Gatland, 2011 **Miracles of Our Lady** Gonzalo de Berceo, 2021-12-15

Miracle tales in which people are rewarded for piety or punished for sin through the intervention of the Virgin Mary were a popular literary form all through the Middle Ages. *Milagros de Nuestra Señora*, a collection of such stories by the Spanish secular priest Gonzalo de Berceo, is a premier example of this genre; it is also regarded as one of the four most important texts of medieval Spain. Difficulties in translating this work have made it unavailable in English except in fragments; now Spanish language scholars Richard Terry Mount and Annette Grant Cash have made the entire work accessible to English readers for the first time. Berceo's miracle tales use the verse form *cuaderna vía*, a fourfold way of fully rhymed quatrains which Berceo may even have invented and are told in the language of the common man. They were written to be read aloud, most likely to an audience of pilgrims, and are an outstanding example of oral religious narrative. The total work comprises twenty-five miracles preceded by a renowned Introduction that celebrates the Virgin in rich symbolic allegory. Mount and Cash's translation is highly readable yet it retains the original meaning and captures Berceo's colloquial style and medieval nuances. An introduction placing the miracles in their medieval context and a bibliography complement the text.
