**A Disease of One's Own** John Steadman Rice, 2017-11-30 In the present decade co dependency has sprung up on the landscape of American popular culture Portrayed as an addiction like disease responsible for a wide range of personal and social problems co dependency spawned a veritable social movement nationwide A Disease of One's Own examines the phenomenon of co dependency from a sociological perspective viewing it not as something a person has but as something a person believes not as a psychological disease but as a belief system that offers its adherents a particular way of talking about the self and social relationships The central question addressed by the book is Why did co dependency one among a plethora of already existing discourses on self help meet with such widespread public appeal Grounded in theories of cultural and social change John Steadman Rice argues that this question can only be adequately addressed by examining the social cultural and historical context in which co dependency was created and found a receptive public the content of the ideas it espoused and the practical uses to which co dependency's adherents could apply those ideas in their everyday lives In terms of the larger American context his analysis links the emergence of co dependency with the permeation of psychological concepts and explanations throughout Western culture over the past thirty years focusing particularly on the cultural and social impact of the popular acceptance of what the author calls liberation psychotherapy Liberation psychotherapy portrays the relationship between self and society as one of intrinsic antagonism and argues that psychological health is inversely related to the self's accommodation to social

expectations Rice argues that a principal source of co dependency's appeal is that it affirms core premises of liberation psychotherapy thereby espousing an increasingly conventional and familiar wisdom It simultaneously fuses those premises with addiction related discourse providing people with a means of making sense of the problems of relationship and identity that have accompanied what Rice terms the psychologization of American life This brilliant analysis of the phenomenon of co dependency will be of interest to psychologists sociologists psychotherapists and those interested in American popular culture

**Silent Sons** Robert Ackerman, 2008-06-30 It could be you or someone you love Strong silent types are everywhere and it is their telltale silence that has kept their problems hidden until now A silent son can come from a family that coped with violence alcoholism child abuse extreme rigidity or divorce but all silent sons have certain common characteristics They keep things that bother them to themselves They deny that unpleasant events occur They fear letting people know them They have difficulty interacting with their parents spouses or children They have a strong fear of criticism They are often angry In *Silent Sons* Dr Robert Ackerman a silent son himself examines the problems that commonly confront silent sons keeping them from experiencing the full range of human emotions In a compassionate and hopeful voice the author defines the silent son and examines the impact of parents particularly fathers on these men and shows how their dysfunctional upbringing affects their present relationships especially with women By putting aside anger finding peace with one's self and looking for support from other silent sons Dr Ackerman feels every man can realize his full potential and become a well balanced healthy survivor

**The Self on the Shelf** Gary Greenberg, 1994-08-04 *The Self on the Shelf* examines the cultural and philosophical determinants of popular recovery books Greenberg argues that this literature can be read as documents of the prevailing understanding of the self in American society The construction of the self promoted by recovery literature is seen as a nihilistic one insofar as it denies the significance of what continental philosophy calls the Other In this sense the self help books are correct in their assertion that we have lost sight of how to love but their proposed solution shows up as a recapitulation and strengthening of the conditions that gave rise to this situation in the first place Greenberg's critique provides a commentary on the difficulties that face our culture in achieving any sense of meaningful community and on the way that this problem surfaces in a highly popular discourse

**Heroine Abuse** Thomas Gaiton Marullo, 2015-10-15 Fyodor Dostoevsky's first novel *Netochka Nezvanova* written in 1849 remains the least studied and understood of the writer's long fiction but it was a seedbed for many topics and themes that became hallmarks of his major works Specifically *Netochka Nezvanova* was the first in Dostoevsky's corpus to focus on the psychology of children and the first to feature a woman in a leading and narrative role It was also the first work in Russian literature to deal with problems of the family In *Heroine Abuse* Thomas Marullo contends that *Netochka Nezvanova* also provides a striking example of what psychologists today call codependency the ways often deviant and destructive in which individuals bond with people places and things as well as with images and ideas to cope with the vicissitudes of life Marullo shows how at age twenty eight Dostoevsky intuited and

illustrated the workings of relationship addiction almost a century and a half before it became the scholarly focus of practitioners of mental health. The moral monsters, infernal women, children, adults, and adult children who populate Netochka Nezvanova seek codependence in people, places, and things, and in images, ideas, and ideals to satiate cravings for love, dominance, and control, as well as to indulge in narcissism, sexual perversion, and other aberrant or alternative behaviors. Indeed, in no other work would Dostoevsky examine such phenomena as pedophilia and lesbianism with such abandon. Racing from tie to tie, bond to bond, and caught in a debilitating loop that they claim to detest but sadomasochistically enjoy, the characters in Netochka Nezvanova wreak havoc on themselves and the world. They do so moreover with impunity, their addictions moving them from momentary exultation as self-styled extraordinary men and women through prolonged darkness and despair, and once again to old and new addictions for physical and emotional release. Readers of *Heroine Abuse* will see Netochka Nezvanova as a timeless model in depicting codependency in the world of the twenty-first century, as it did in St. Petersburg in 1849. Marullo's original work will appeal to scholars and students of Russian and comparative fiction, to doctors, psychologists, and therapists, to laymen, and women interested in relationship addiction, and finally to codependents and relationship addicts of all types.

Christine McKay,1995 In the field of addiction research and counselling there has been an increasing investment in the theory of codependency a theory that holds women partly responsible for perpetuating the alcoholism and addiction of their male partners This is the first anthology of feminist essays that presents a cogent critique of this theory The unifying feature of the eighteen essays collected here is the revelation that solid evidence contradicts rather than supports the theory of codependency Its assumptions are found to be unsubstantiated in theory and practice The contributors to the volume explore the history of codependency theory and look at reasons for its growing popularity in medical model politics A central theme emerges that codependency theory is essentially misogynist in nature the result of a male backlash against feminism The collection leaves no doubt that this backlash is effective These essays reveal the many ways that codependency therapy promotes advice and counselling that is damaging and ultimately fails women seeking help for their distress This anthology aimed at professionals as well as readers at large reveals a remarkable body of literature questioning the validity of popular addictions philosophy about women and the quality of the scholarship that supports those theories      *Lectures on the Psychology of Women* Joan C.
