

The background is a rich, painterly illustration. The upper portion shows a landscape with a waterfall on the right, a body of water in the center, and a deer standing on a rocky outcrop on the right. The lower portion is dominated by a large, dark, and mysterious structure that appears to be a sunken city or a labyrinthine cave system. The structure has many arches and openings, some of which are illuminated from within, casting a warm glow. The overall color palette is dark, with deep blues, purples, and greens, accented by the warm light from the interior of the structure.

Ireland's Mysterious Lands and Sunken Cities Jon Douglas Singer,2001-04-13 The Emerald Isle of Ireland has inspired a vast number of legends about lost or sunken lands and cities These legends predate Roman and Christian influences This book examines the intriguing nature of these legends and reviews anthropological and geological evidence supporting them Was these indeed a Tir fo Thuin the Land Under Wave a combination of the dead and a paradise Reviewed in Ireland of the Welcomes Vol 50 No 6 November December 2001 p 54 by Mary OSullivan Stories of sunken cities monasteries churches and royal palaces are scattered hither and yon across the broad landscape of Irish folklore The fishermen of Lough Neagh believe that their huge lake conceals the proud remains of palaces and temples more firmly than the inhabitants of Scotland accept the existence of the Lough Ness monster Hy Brazil or Hy Breasail the legendary sunken paradise island is of course somewhere off the western seaboard and thanks to its frequent reappearances on the surface it persists on maps into the sixteenth century The great Thomas Westropp reports personal sightings one evening after sunset in 1887 off the Clare coast and again in 1910 this time on the Mayo coast There are persistent stories of the image of a stately city clearly visible set in the sky above Galway bay usually during spells of warm calm sunny weather Come over next summer with an open mind You never know your luck *Lost Lands and Cities Beneath the Sea* Jon Douglas Singer,1997 Sunken Realms Karen

graveyards of the lands Lands become eaten away by the action of the seas and it is no surprise to find that most of the world

s shorelines are in a state of erosion The fringes of Britain its cliffs and beaches are shrinking disappearing into the surrounding sea as a result of coastal flooding erosion and landsliding Is climate change speeding up the process are our homes our villages and towns at risk This book examines how the British coast is changing and why and what is being done to protect this island nation Are we doing enough Should we abandon vulnerable towns and villages to the seas as our forebears did and relocate coastal settlements inland These are some of the difficult and potentially emotive questions that this book explores Blending contemporary earth science and societal themes with historical and cultural records and a hint of myth and romance for good measure This Shrinking Land is a fascinating study of what we must learn from the past in order to manage the future of Britain s coasts With more than 100 illustrations most of them in colour this is a stunning book

as analysing the major efforts to interpret those changes By placing work done in Wales in the context of broader developments within sociological approaches over the period Graham Day demonstrates that there is a body of work on Wales worth considering in its own right as a specific contribution to sociology He also shows the relevance of sociological accounts of Wales for understanding contemporary empirical and theoretical concerns in social analysis Beginning with post war analysis which considered Wales in terms of regional planning and policy Day shows how more theoretically informed perspectives have come to the fore in recent years He also examines more contemporary developments such as gender and class transformations the emphasis on the centrality of the Welsh language for conceptions of Wales and Welshness as well as the impact of new forms of governance and questions of social exclusion *Atlantis of the West* Paul

Dunbavin,2003-01-01 In 1995 the author first published his theory that Plato s Atlantis myth remembers the submergence of a Neolithic civilisation around the shores of the British Isles He argues that this cataclysm resulted from a change in the Earth s axis consequent upon a comet impact around 3100 BC The Middle Neolithic period around 5 000 years ago was a time of dramatic climate and sea level changes all around the world Welsh legends remember lost cities beneath the Irish Sea and Irish myths recall an otherworld a golden age when the eastern Irish Sea was a flowery plain inhabited by a golden haired race of men The author argues that Plato s Atlantis is the same place that is remembered in these Celtic myths and in Ancient Egyptian and Greek myths of an underworld known as the Elysian Fields Bringing together modern scientific evidence and a pattern of ancient myths the author presents a multidisciplinary case for Atlantis as just one among many views of the submerged Neolithic civilisation of the Megalith Builders Atlantis of the West is an updated second edition of The Atlantis Researches with an appendix of further evidences and extended notes and extensive bibliography
