The Lost Explorer Conrad Anker, David Roberts, 2013-08-22 In 1999 Conrad Anker found the body of George Mallory on Mount Everest casting an entirely new light on the mystery of the lost explorer On 8 June 1924 George Leigh Mallory and Andrew Sandy Irvine were last seen climbing towards the summit of Everest The clouds closed around them and they were lost to history leaving the world to wonder whether or not they actually reached the summit some 29 years before Edmund Hillary and Tensing Norgay On 1 May 1999 Conrad Anker one of the world's foremost mountaineers made the momentous discovery Mallory's body lying frozen into the scree at 27 000 feet on Everest's north face Recounting this day the authors go on to assess the clues provided by the body its position and the possibility that Mallory had successfully climbed the Second Step a 90 foot sheer cliff that is the single hardest obstacle on the north face A remarkable story of a charming and immensely able man told by an equally talented modern climber

Mallory, Irvine and Everest Robert H Edwards, 2024-06-01 Unique and unconventional Robert H Edwards book provides a new perspective on mountaineering's greatest riddle With fresh information some controversial opinions and plenty food for thought it is bound to pour more fuel into the eternal flame that is the mystery of Mallory and Irvine For this alone I highly recommend reading it Jochen Hemmleb Mountaineering writer and filmmaker coinstantiator and member of the 1999 expedition that found Mallory's body and three more search expeditions to Mount Everest For a quarter of a century I've been held captive by the ghosts of Mallory Irvine and their mysterious disappearance on Mount Everest in 1924 Finally Bob Edwards has meticulously assembled all of the facts the clues and the countless possibilities surrounding their fate in a single fascinating book Thom Dharma Pollard Member of the 1999 expedition that found Mallory's body The last climb of George Mallory and Andrew Irvine towards the summit of Mount Everest on 8 June 1924 has been shrouded in mystery for a century Were they the first humans to stand at the highest point in the world The discovery of Mallory's body in 1999 did nothing to resolve the mystery Until now accounts of their climb have been driven by speculation and preconceived narrative In this book which marks the 100th anniversary of the fateful climb Dr Robert Edwards brings the fresh and original perspective of a mathematician to the story of Mallory and Irvine Dr Edwards has assembled the contemporary accounts of the early British expeditions written by the climbers and their leaders and has identified their anomalies and inconsistencies He has studied the letters of George Mallory and has held in his hand the diaries of Andrew Irvine He has viewed in person some of the surviving artifacts the ice axe found in 1933 and Mallory's boots recovered in 1999 He has corresponded with modern mountaineers who have climbed Everest Above all he has applied mathematics and modern imaging and mapping technology to an analysis of what the 1924 climbers could and could not have seen and done

False Summit Julie Rak, 2021-04-14 The race to climb Everest catapulted mountain climbing with its accompanying images of conquest and sport into the public sphere on a global scale But as a metaphor for the pinnacle of human achievement mountaineering remains the preserve of traditional white male heroism False Summit unpacks gender

politics in the expedition narratives and memoirs of mountaineers in the Himalayas and the Karakoram Why are women still a minority in the world's highest places Julie Rak proposes that the genre has itself reached a false summit a peak that proves not to be the pinnacle and that mountaineering is not ready to welcome other ways of climbing or other kinds of climbers For more than two centuries mountaineering as an activity and as an ideal has helped shape how the self is understood within the context of conquest adventure and proximity to risk As climbing shows signs of becoming more diverse Rak asks why change is so hard to achieve and why gender bias and other inequities exist in climbing at all Exploring classic and lesser known expedition accounts from Everest K2 and Annapurna False Summit helps us understand why mountaineering remains one of the most important ways to articulate gender identities and politics *Co-opting Culture* Garrick B. Harden, Robert Carley, 2009-06-16 *Co-opting Culture* Culture and Power in Sociology and Cultural Studies represents a collection of new scholarship on culture from the social sciences and from work done under the rubric of cultural studies Working from the idea that Sociology and Cultural Studies have developed distinct and valuable toolkits for understanding culture the editors have brought together a collection of essays that address the ways in which the cultures around race sex and gender are mediated through or intersect with politics society and economy Some essays deal directly with the theoretical nature of this mediation while others adopt these theoretical approaches to investigate specific cultural objects or communities In doing so these essays call attention to the particularities of form that constitute a kind of cultural logic around the objects under consideration *The White Road* Sarah Lotz, 2025-05-01 A cutting edge thriller about one man's quest to discover horror lurking at the top of the world Desperate to attract subscribers to his fledgling website Journey to the Dark Side ex-adrenalin junkie and slacker Simon Newman hires someone to guide him through the notorious Cwm Pot caves so that he can film the journey and put it on the internet With a tragic history Cwm Pot has been off-limits for decades and unfortunately for Simon the guide he's hired is as unpredictable and dangerous as the watery caverns that lurk beneath the earth After a brutal struggle for survival Simon barely escapes with his life but predictably the gruesome footage he managed to collect down in the earth's bowels goes viral Ignoring the warning signs of mental trauma and eager to capitalize on his new internet fame Simon latches onto another escapade that has that magic click-bait mix of danger and death a trip to Everest But up above 8000 feet in the infamous Death Zone he'll need more than his dubious morals and wits to guide him especially when he uncovers the truth behind a decade-old tragedy a truth that means he might not be coming back alive A truth that will change him and anyone who views the footage he captures forever *On the Ridge Between Life and Death* David Roberts, 2006-12-01 What compels mountain climbers to take the risks that they do Is it the thrill in the physical accomplishment in managing to defy the odds or both and why do they continue to do what they do in the face of such great danger In *On the Ridge Between Life and Death* David Roberts confronts these questions head-on as he recounts the exhilarating highs and desperate lows of his climbing career By the time he was twenty-two Roberts had already been

involved in three fatal mountain climbing accidents and had escaped death himself by the sheerest of luck And yet as he acknowledges few things have brought him more joy than climbing In a famous essay on the subject written more than twenty years ago Roberts judged climbing to be worth the risk He continues to climb to this day and several of his challenging routes in Alaska have never been climbed since But in reassessing the emotional costs to himself and to loved ones he reaches a different conclusion one that is sure to cause controversy not only in climbing circles but among adventurers of all kinds Candid and unflinching *On the Ridge Between Life and Death* is a compelling examination of the risks we take in order to feel more alive

The Go Point Michael Useem, 2009-03-24 What do you do when it's time to get off the fence One of the world's most noted leadership experts Michael Useem uses dramatic story telling to show how to master the art and science of being decisive He places you smack in the middle of people who faced their go point when actions or lack of them determined the fates of individuals companies and countries Why on earth did Robert E Lee send General George Pickett on an almost suicidal charge against the Union lines at Gettysburg How does the leader of a firefighting crew make life or death decisions when one direction means safety the other danger You've just assumed responsibility for a scandal wracked corporation a company teetering on the brink of disaster What you decide over the course of the next several days will have consequences for thousands of employees and investors How do you fulfill your responsibilities You'll discover why some decisions were flawless perfectly on target and others utterly disastrous Most of all you'll learn how to make the right calls yourself whether you're changing your career launching a product or deciding on a potential acquisition or merger
