Lost Narratives Popular Fictions Politics And Recent History:

Lost Narratives Roger Bromley, 2021-09-17 Roger Bromley deals with the ways in which certain popular forms contribute to the social production of memories. The texts he examines include the fictions of R F Delderfield and Lena Kennedy. This book should be of interest to students of cultural studies and popular fiction. [The Intimate Empire](#) Gillian Whitlock, 2000-02-01 By means of contextualized readings, this work argues that autobiographic writing allows an intimate access to processes of colonization and decolonization, incorporation and resistance, and the formation and reformation of identities which occurs in postcolonial space. The book explores the interconnections between race, gender, autobiography, and colonialism, and uses a method of reading which looks for connections between very different autobiographical writings to pursue constructions of blackness and whiteness, femininity and masculinity, and nationality. Unlike previous studies of autobiography which focus on a limited Euro American canon, the book brings together contemporary and 19th century women's autobiographies and travel writing from Canada, the Caribbean, Kenya, South Africa, Australia, and New Zealand. With emphasis on the reader of autobiography as much as the subject, it argues that colonization and resistance are deeply embedded in thinking about the self.

Star Power Aaron Barlow, 2014-08-11 Stars do have real power, but not all of them wield it wisely. This work explores how a variety of celebrities developed their brands and how celebrity can become a jumping off point to entirely unrelated activities. Over the past century, a new breed of entertainer has arisen, one where the old division between on-camera talent and the suits behind the scenes has largely eroded. From Mabel Normand and Charlie Chaplin to Lady Gaga and Quentin Tarantino, entertainers have attempted to cross specialties and platforms to new arenas, from politics to philanthropy and more. An ideal resource for general readers as well as students of American popular culture and media, at the undergraduate through scholar level, *Star Power: The Impact of Branded Celebrity* details the new ways entertainers are working in expanded environments to broaden their brands while also providing the history behind this recent trend. The two-volume set comprises four main sections: one that provides historical background, a second on entertainers moving beyond stardom, a third focused on commerce and education, and a final section on cultural missions. The work documents how earlier entertainers set the stage for today's stars by exploiting their celebrity to take greater artistic control of their projects and provides articles that depict each artist from a number of perspectives. Readers will understand what motivates the most important contemporary entertainers working today and better grasp the business of entertainment as a whole, how Hollywood works, and who is really in control.

Celluloid Blackboard Alan S. Marcus, 2006-10-01 This volume advocates for including feature films in secondary history classrooms through examining the ways in which films can promote students' historical understanding while also addressing the potential drawbacks to using film. Part two fills a void in the scholarship, reporting on four recent studies that explore how the use of film may encourage the development of students' historical understanding.

Finally part three describes the results from two secondary teachers incorporating film into their history classrooms
