Latinx Literature Unbound Ralph E.

Rodriguez,2018-05-08 Since the 1990s there has been unparalleled growth in the literary output from an ever more diverse group of Latinx writers Extant criticism however has yet to catch up with the diversity of writers we label Latinx and the range of themes about which they write Little sustained scholarly attention has been paid moreover to the very category under which we group this literature Latinx Literature Unbound thus begins with a fundamental question What does it mean to label a work of literature or an entire corpus of literature Latinx From this question others emerge What does Latinx allow or predispose us to see and what does it preclude us from seeing If the grouping which brings together a heterogeneous collection of people under a seemingly homogeneous label tells us something meaningful is there a poetics we can develop that would facilitate our analysis of this literature In answering these questions Latinx Literature Unbound frees Latinx literature from taken for granted critical assumptions about identity and theme It argues that there may be more salubrious taxonomies than Latinx for organizing and analyzing this literature Privileging the act of reading as a temporal meaning making event Ralph E Rodriguez argues that genre may be a more durable category for analyzing this literature and suggests new ways we might proceed with future studies of the writing we have come to identify as Latinx
