Museum of Dance This museum is always in process reinventing itself in an ever changing world Museums are the guardians of our culture keeping the ideas and creations of the human spirit body and soul alive The National Museum of Dance delights in bringing art and history into the present into the dance of now Paul Kolnik photographer **Beyond the Happening** Catherine Spencer,2020-06-01 Beyond the Happening uncovers the heterogeneous uniquely interdisciplinary performance based works that emerged in the aftermath of the early Happenings By the mid 1960s Happenings were widely declared outmoded or even dead but this book reveals how many practitioners continued to work with the form during the late 1960s and 1970s developing it into a vehicle for studying interpersonal communication that simultaneously deployed and questioned contemporary sociology and psychology Focussing on the artists Allan Kaprow Marta Minuj n Carolee Schneemann and Lea Lublin it charts how they revised and retooled the premises of the Happening within a wider network of dynamic international activity The resulting performances directly intervened in the wider discourse of communication studies as it manifested in the politics of countercultural dropout soft power and cultural diplomacy alternative pedagogies sociological art and feminist consciousness raising **Beyond the Architect's Eye** Mary N. Woods,2013-12-11 Typical architectural photography freezes buildings in an ideal moment and rarely captures what photographer Berenice Abbott called the medium s power to depict how the past jostled the present In Beyond the Architect s Eye Mary N Woods expands on this range of images through a rich analysis that commingles art amateur and documentary photography genres usually not considered architectural but that often take the built environment as their subject Woods explores how photographers used their built environment to capture the disparate American landscapes prior to World War II when urban and rural areas grew further apart in the face of skyscrapers massive industrialization and profound cultural shifts Central to this study is the work of Alfred Stieglitz Frances Benjamin Johnston and Marion Post Wolcott but Woods weaves a wider narrative that also includes Alice Austen Gertrude K sebier Berenice Abbott Margaret Bourke White Helen Levitt Lisette Model Louise Dahl Wolfe Morgan and Marvin Smith Eudora Welty Samuel Gottscho Walker Evans Max Waldman and others In such disparate places as New York City the rural South and the burgeoning metropolis of Miami these unconventional architectural photographers observed buildings as deeply connected to their context Whereas Stieglitz captured New York as the quintessential modern urban landscape in the period the South was its opposite a land supposedly frozen in the past Yet just as this myth of the Old South crystallized in photographs like Johnston s a New South shaped by popular culture and modern industry arose Miami embodied both of these visions In Wolcott s work agricultural fields where stoop labor persisted were juxtaposed with Art Deco hotels a popular modernism of the machine age that remade Miami Beach into a miniaturized Manhattan on the beach Beyond the Architect s Eye is a groundbreaking study that melds histories of American art cities and architecture with visual studies of landscape photography and cultural geography **New York City, 1987**,1987
