100 American Crime Writers S. Powell, 2012-08-07 100 American Crime Writers features discussion and analysis of the lives of crime writers and their key works examining the developments in American crime writing from the Golden Age to hardboiled detective fiction This study is essential to scholars and an ideal introduction to crime fiction for anyone who enjoys this fascinating genre

Isn't Justice Always Unfair? J. Kenneth Van Dover, John F. Jebb, 1996 Isn't Justice Always Unfair explores the uncommonly long and uncommonly rich relationship between the fictional detective and his or her South It begins with the New Orleans expatriate Legrand uncovering Captain Kidd's treasure on an island off Charleston South Carolina it covers the satires and parodies of Mark Twain and the polished stories of Melville Davisson Post and Irvin S Cobb and it concludes with surveys of the many good and excellent writers who are using the form of the detective story to compose inquiries into the character of life in the South today At the center of Isn't Justice Always Unfair lies an analysis of a most remarkable phenomenon William Faulkner's exploitation of the genre as an avenue into his postage stamp of Southern experience Yoknapatawpha County

Detecting the South in Fiction, Film, and Television Deborah E. Barker, Theresa Starkey, 2019-10-23 Detecting the South in Fiction Film the role of land as a source of income an ecologically threatened space or a place of seclusion and the continued presence of the southern gothic in recurring elements such as dilapidated plantation houses swamps family secrets and the occult Twenty two critical essays probe how southern detective narratives intersect with popular genre forms such as neo noir hard boiled fiction the dark thriller suburban noir amateur sleuths journalist detectives and television police procedurals Alongside essays by scholars Detecting the South in Fiction Film and Television presents pieces by authors of detective and crime fiction including Megan Abbott and Ace Atkins who address the extent to which the South and its artistic traditions influenced their own works By considering the diversity of authors and characters associated with the genre this accessible collection provides an overdue examination of the historical political and aesthetic contexts out of which the southern detective narrative emerged and continues to evolve

The Red Hot Typewriter Hugh Merrill, 2000-08-12 Although John D MacDonald published seventy novels and more than five hundred short stories in his lifetime he is remembered best for his Travis McGee series He introduced McGee in 1964 with *The Deep Blue Goodbye* With Travis McGee MacDonald changed the pattern of the hardboiled private detectives who preceeded him McGee has a social conscience holds thoughtful conversations with his retired economist buddy Meyer and worries about corporate greed racism and the Florida ecolgoy in a long series whose brand recognition for the series the author cleverly advanced by inserting a color in every title Merrill carefully builds a picture of a man who in unexpected ways epitomized the Horatio Alger sagas that comprised his strict father's secular bible From a financially struggling childhood and a succession of drab nine to five occupations MacDonald settled down to writing for a living a lifestyle that would have horrified his father

He worked very hard and was rewarded with a more than decent livelihood But unlike Alger's heroes MacDonald had a lot of fun doing it

Twentieth-Century Crime Fiction Lee Horsley, 2005-08-25 Twentieth Century Crime Fiction aims to enhance understanding of one of the most popular forms of genre fiction by examining a wide variety of the detective and crime fiction produced in Britain and America during the twentieth century It will be of interest to anyone who enjoys reading crime fiction but is specifically designed with the needs of students in mind It introduces different theoretical approaches to crime fiction e.g. formalist historicist psychoanalytic postcolonial feminist and will be a useful supplement to a range of crime fiction courses whether they focus on historical contexts ideological shifts the emergence of sub genres or the application of critical theories Forty seven widely available stories and novels are chosen for detailed discussion In seeking to illuminate the relationship between different phases of generic development Lee Horsley employs an overlapping historical framework with sections doubling back chronologically in order to explore the extent to which successive transformations have their roots within the earlier phases of crime writing as well as responding in complex ways to the preoccupations and anxieties of their own eras The first part of the study considers the nature and evolution of the main sub genres of crime fiction the classic and hard boiled strands of detective fiction the non investigative crime novel centred on transgressors or victims and the mixed form of the police procedural The second half of the study examines the ways in which writers have used crime fiction as a vehicle for socio political critique These chapters consider the evolution of committed oppositional strategies tracing the development of politicized detective and crime fiction from Depression era protests against economic injustice to more recent decades which have seen writers launching protests against ecological crimes rampant consumerism Reaganomics racism and sexism

Cracking the Hard-Boiled Detective Lewis D. Moore, 2015-01-24 The hard boiled private detective is among the most recognizable characters in popular fiction since the 1920s a tough product of a violent world in which police forces are inadequate and people with money can choose private help when facing threatening circumstances Though a relatively recent arrival the hard boiled detective has undergone steady development and assumed diverse forms This critical study analyzes the character of the hard boiled detective from literary antecedents through the early 21st century It follows change in the novels through three main periods the Early roughly 1927-1955 during which the character was defined by such writers as Carroll John Daly Dashiell Hammett and Raymond Chandler the Transitional evident by 1964 in the works of John D. MacDonald and Michael Collins and continuing to around 1977 via Joseph Hansen Bill Pronzini and others and the Modern since the late 1970s during which such writers as Loren D. Estleman Liza Cody Sara Paretsky Sue Grafton and many others have expanded the genre and the detective character Themes such as violence love and sexuality friendship space and place and work are examined throughout the text Instructors considering this book for use in a course may request an examination copy here
