Modern Art And The Grotesque:

Modern Art and the Grotesque Frances S. Connelly, 2009-07-16 Frances Connelly examines how the concept of the grotesque has influenced the history practice and theory of art in the nineteenth and twentieth centuries The grotesque has been adopted by a succession of artists as a way to push beyond established boundaries explore alternate modes of experience and expression and challenge the status quo Examining specific images by a range of artists such as Ingres Gauguin H ch de Kooning Polke and Mona Hatoum these essays encompass a variety of media including medical illustration paintings prints photography multimedia installations and film

Encyclopedia of Contemporary Literary Theory Irene Rima Makaryk, 1993-01-01 The last half of the twentieth century has seen the emergence of literary theory as a new discipline As with any body of scholarship various schools of thought exist and sometimes conflict within it I R Makaryk has compiled a welcome guide to the field Accessible and jargon free the Encyclopedia of Contemporary Literary Theory provides lucid concise explanations of myriad approaches to literature that have arisen over the past forty years Some 170 scholars from around the world have contributed their expertise to this volume Their work is organized into three parts In Part I forty evaluative essays examine the historical and cultural context out of which new schools of and approaches to literature arose The essays also discuss the uses and limitations of the various schools and the key issues they address Part II focuses on individual theorists It provides a more detailed picture of the network of scholars not always easily pigeonholed into the categories of Part I This second section analyses the individual achievements as well as the influence of specific scholars and places them in a larger critical context Part III deals with the vocabulary of literary theory It identifies significant complex terms places them in context and explains their origins and use Accessibility is a key feature of the work By avoiding jargon providing mini bibliographies and cross referencing throughout Makaryk has provided an indispensable tool for literary theorists and historians and for all scholars and students of contemporary criticism and culture

Baudelaire and Caricature: From the Comic to an Art of Modernity, Baudelaire s essays on caricature offered the first sustained defense of the value of caricature as a serious art worthy of study in its own right This book argues for the crucial importance of the essays for his conception of modernity so fundamental to the subsequent history of modernism From the theory of the comic formulated in *De l essence du rire* to his discussions of Daumier Goya Hogarth Cruikshank Bruegel Grandville Gavarni Charlet and many others Baudelaire develops not only an aesthetic of caricature but also a caricatural aesthetic dual and contradictory grotesque ironic violent farcical fantastic and fleeting that defines an art of modern life In particular Baudelaire s insistence on the dualism and ambiguity of laughter has radical implications for such emblems of modernity as the city and the fl neur who roams the streets The modern city is the space of the comic a kind of caricature presenting the fl neur with an image of dualism one s position as subject and object implicated in the same urban experiences one seems to control The theory of the comic invests the idea of modernity with reciprocity one s status as laughter and object of laughter

thus preventing the subjective construction and appropriation of the world that has so often been linked with the project of modernism Comic art reflects what Walter Benjamin later defined as Baudelairean allegory at once representing and revealing the alienation of modern experience But Baudelaire also transforms the dualism of the comic into a peculiarly modern unity the doubling of the comic artist enacted for the benefit of the audience the self generating and self reflexive experience of the fl neur in a communion with the crowd This study examines his views in the context of the history of comic theory and contemporary accounts of the individual artists Complete with illustrations of the many works discussed it illuminates the history and theory of caricature the comic and the grotesque and adds to our understanding of modernism in literature and the visual arts

The Riddling between Oedipus and the Sphinx Yuan Yuan,2016-04-12 The issue of the other has always been an urgent one especially since 1980 s when the political debates over race gender class culture ethnicity and post colonialism took the central stage The Riddling between Oedipus and the Sphinx Ontology Hauntology and Heterologies of the Grotesque probes the polemic status of the other and the dubious nature of the subject from a heterodox perspective of an emblematic grotesque figure the Sphinx the mystical trickster and the guardian of sacred knowledge in Egyptian culture In Greek mythology Oedipus the epitome of Western logos solved the Sphinx s riddle with a single word Man This evocation for the phantom of a solipsistic subject discloses in effect Oedipus latent grotesque disparity The book explores the encounter of this unlikely pair to inquire the riddling relationship between the singular subject and the grotesque other in the context of modern discourses of the subject and postmodern theories of the other

Rethinking the Concept of the Grotesque Shun-Liang Chao,2017-07-05 How are we to define what is grotesque in art or literature Since the Renaissance the term has been used for anything from the fantastic to the monstrous and been associated with many artistic genres from the Gothic to the danse macabre Shun Liang Chao s new study adopts a rigorous approach by establishing contradictory physicality and the notion of metaphor as two keys to the construction of a clear identity of the grotesque With this approach Chao explores the imagery of Richard Crashaw Charles Baudelaire and Rene Magritte as individual exemplars of the grotesque in the Baroque Romantic and Surrealist ages in order to suggest a lineage of this curious aesthetic and to cast light on the functions of the visual and of the verbal in evoking it

Connelly, 2014-07-31 This book establishes a fresh and expansive view of the grotesque in Western art and culture from 1500 to the present day Following the non linear evolution of the grotesque Frances S Connelly analyzes key works situating them within their immediate social and cultural contexts as well as their place in the historical tradition By taking a long historical view the book reveals the grotesque to be a complex and continuous tradition comprised of several distinct strands the ornamental the carnivalesque and caricatural the traumatic and the profound The book articulates a model for understanding the grotesque as a rupture of cultural boundaries that compromises and contradicts accepted realities Connelly demonstrates that the grotesque is more than a style genre or subject it is a cultural phenomenon engaging the central concerns of the humanistic debate today Hybrid ambivalent and changeful the grotesque is a shaping force in the modern era *Feminism and Contemporary Art* Jo Anna Isaak, 2002-09-11 Looks at the work of a diverse range of artists and explores the effect of feminist theory on art practice The book provides a provocative and valuable account of the diversity and revolutionary potential of women's art practice *Cultural Contact and the Making of European Art since the Age of Exploration* Mary D. Sheriff, 2010-06-21 Art historians have long been accustomed to thinking about art and artists in terms of national traditions This volume takes a different approach suggesting instead that a history of art based on national divisions often obscures the processes of cultural appropriation and global exchange that shaped the visual arts of Europe in fundamental ways between 1492 and the early twentieth century Essays here analyze distinct zones of contact between various European states between Asia and Europe or between Europe and so called primitive cultures in Africa the Americas and the South Pacific focusing mainly but not exclusively on painting

drawing or the decorative arts Each case foregrounds the centrality of international borrowings or colonial appropriations and counters conceptions of European art as a pure tradition uninfluenced by the artistic forms of other cultures The contributors analyze the social cultural commercial and political conditions of cultural contact including tourism colonialism religious pilgrimage trade missions and scientific voyages that enabled these exchanges well before the modern age of globalization Contributors Claire Farago University of Colorado at Boulder Elisabeth A Fraser University of South Florida Julie Hochstrasser University of Iowa Christopher Johns Vanderbilt University Carol Mavor University of North Carolina at Chapel Hill Mary D Sheriff University of North Carolina at Chapel Hill Lyneise E Williams University of North Carolina at Chapel Hill

The Grotesque in the Works of Bruno Jasieński Agata Krzychylkiewicz, 2006 This book is the first critical attempt made in any language to re-examine the entire oeuvre of Bruno Jasieński 1901-1938 It takes into account the writer's lifelong concerns but places them in the context of the universal value of his writing generated by his modernist passions and his fascination with the grotesque an artistic device that was consonant with his need to portray life in all its complexities The author relies on the grotesque as an element that unifies Jasieński's futuristic poetry with his prose Especially important in this regard is the close reading of Jasieński's satiric grotesques written in the Soviet Union The author does not avoid the intricacies and difficult questions of Jasieński's ideological commitment but focuses mainly on the consequences that the highly ambivalent and ambiguous nature of the grotesque has on the interpretation of his work

Painful Forms Anna Ioanes, 2025-10-21 In the wake of World War II Americans struggled to grasp the shifting scale of violence brought on by the nuclear era To grapple with the overwhelming suffering of the sociopolitical moment new ways of thinking about violence as structural systemic and senseless emerged Artists and writers however challenged the cultural impulse to make sense of these new horrors mobilizing what Anna Ioanes calls aesthetic violence Searching for the strategies artists employed to resist the normalization of new forms of crushing violence Ioanes examines the works of major cultural figures including Kara Walker James Baldwin Andy Warhol Yoko Ono and Toni Morrison as well as lesser known artists such as playwright Maryat Lee and riot grrrl figure Kathleen Hanna Grounded in close reading archival research and theories of affect aesthetics and identity Painful Forms shows that artists employed forms that short circuited familiar interpretive strategies for making sense of suffering and as a result defamiliarized commonsense notions that sought to naturalize state sanctioned violence Rather than pulling heartstrings stoking outrage or straightforwardly critiquing injustice Ioanes argues aesthetic violence forecloses catharsis maintains ambiguities and refuses to fully make sense allowing audiences to experience new ways of thinking feeling and knowing about suffering
