Nature Performed Environment Culture And Performance:

Nature Performed Bronislaw Szerszynski, Wallace Heim, Claire Waterton, 2004-04-02 This book brings together contributions from scholars across the humanities A wide ranging exploration of the interface between performance and nature Examines the use and usefulness of ideas of performance for understanding human nature relationships Draws on different disciplines and intellectual traditions and on different conceptions of performance and nature Contributions are rooted in real world contexts and problems explored through detailed ethnographic work Explores domains as diverse as allotments and bioinvasion fox hunting and green politics Makes a distinctive contribution to the cultural turn in environmental research Nature Performed: Environment, Culture and Performance Gail Davies, 2006 **Performing Nature** Gabriella Giannachi, Nigel Stewart, 2005 The essays in this volume explore the borderland between ecology and the arts Nature is here read by a number of contributors as cultural by others as an independent domain or even as a powerful process of exchange between the human and the other than human The four parts of the volume reflect these different understandings of nature and performance Informed by psychoanalysis and cultural materialism contributors to the first part Spectacle Landscape and Subjectivity look at ways in which particular social and scientific experiments theatre and film productions and photography either reinforce or contest our ideas about nature and human human or human animal relations and identities The second part World Hermeneutic Language and Social Ecology investigates political protest social practice art acoustic ecology dance theatre family therapy and ritual in terms of social philosophy Contributors to the third part Environment Immersiveness and Interactivity explore architecture and sculpture site specific and mediated dance and paratheatre through radical theories of urban and virtual space and time or else phenomenological philosophy The final part Void Death Life and the Sublime indicates the possibilities in dance architecture and animal behaviour of a shift to an existential ontology in which nature has the capacity to perform itself Environmental Publics Sally Eden, 2016-12-08 How do ordinary people think about the environment as they go about their daily lives Does thinking about the environment make them do things differently This book is the first to explore the idea of environmental publics that is the ways in which ordinary people engage with environmental issues across different practical contexts of work play and home Emphasising the practices of environmental engagement Environmental Publics examines how people consume the environment learn about it campaign for its protection and enjoy it through their leisure time But the book avoids relying on idealisations of consumers or citizens or theoretical constructs about behavioural norms that have traditionally dominated research in this field Instead this book differentiates environmental publics not by who they are but by what they are doing their daily practices It also analyses specifically the geographies of those practices how what people do affects the environment but in different ways across time and space and at different scales aspects of practices that are neglected in the literature With an interdisciplinary perspective this book will be of interest to students and scholars in geography sociology science and

technology studies political science and anthropology It is written in an accessible and readable style so as to be useful for preliminary and more advanced courses in environmental management perception and policy as well as in studies of modern society consumption and environmentalism **A Companion to Environmental Geography** Noel Castree,David

Demeritt,Diana Liverman,Bruce Rhoads,2016-10-03 A Companion to Environmental Geography is the first book to comprehensively and systematically map the research frontier of human environment geography in an accessible and comprehensive way Cross cuts several areas of a discipline which has traditionally been seen as divided presenting work by human and physical geographers in the same volume Presents both the current state of the art research and charts future possibilities for the discipline Extends the term environmental geography beyond its traditional meanings to include new work on nature and environment by human and physical geographers not just hazards resources and conservation geographers Contains essays from an outstanding group of international contributors from among established scholars and rising stars in geography **Ecologies of Grace** Willis Jenkins,2013-02-12 Christianity struggles to show how living on

earth matters for living with God While people of faith increasingly seek practical ways to respond to the environmental crisis theology has had difficulty contextualizing the crisis and interpreting the responses In Ecologies of Grace Willis Jenkins presents a field shaping introduction to Christian environmental ethics that offers resources for renewing theology Observing how religious environmental practices often draw on concepts of grace Jenkins maps the way Christian environmental strategies draw from traditions of salvation as they engage the problems of environmental ethics He then uses this new map to explore afresh the ecological dimensions of Christian theology Jenkins first shows how Christian ethics uniquely frames environmental issues and then how those approaches both challenge and reinhabit theological traditions He identifies three major strategies for making environmental problems intelligible to Christian moral experience Each one draws on a distinct pattern of grace as it adapts a secular approach to environmental ethics The strategies of ecojustice stewardship and ecological spirituality make environments matter for Christian experience by drawing on patterns of sanctification redemption and deification He then confronts the problems of each of these strategies through critical reappraisals of Thomas Aquinas Karl Barth and Sergei Bulgakov Each represents a soteriological tradition which Jenkins explores as an ecology of grace letting environmental questions guide investigation into how nature becomes significant for Christian experience By being particularly sensitive to the ways in which environmental problems are made intelligible to Christian moral experience Jenkins guides his readers toward a fuller understanding of Christianity and ecology He not only makes sense of the variety of Christian environmental ethics but by showing how environmental issues come to the heart of Christian experience prepares fertile ground for theological renewal **Readings in Performance and Ecology** Wendy

Arons,Theresa J. May,2016-04-30 This ground breaking collection focuses on how theatre dance and other forms of performance are helping to transform our ecological values Top scholars explore how familiar and new works of performance

can help us recognize our reciprocal relationship with the natural world and how it helps us understand the way we are connected to the land Environmental Citizenship Andrew Dobson,Derek Bell,2006 A multidisciplinary consideration of how effective environmental citizenship can be in achieving sustainability with theoretical practical and ethnographic perspectives *Cultural Performance* Kevin Landis,Suzanne Macaulay,2017-09-16 This engaging text introduces the burgeoning and interdisciplinary field of cultural performance offering ethnographic approaches to performance as well as looking at the aesthetics of experience and performance theory Examining cultural performance from anthropological geographical and corporeal standpoints this book offers many examples of the ways in which performance art and entertainment utilize cultural methods to deepen and enrich the practice Featuring case studies from a rich cross section of academics chapters explore performances from regions as far flung as Bhutan Ethiopia Ghana Indonesia Ireland New Zealand and the USA With cultural performances as varied as Catholic rituals Maori ceremonies Monster Truck rallies musicals theatre and singing performances this fascinating text compares performance as art and performance as cultural expression Core reading for introductory and interdisciplinary modules on performance this is also an ideal text for upper undergraduate and postgraduate students of performance visual arts cultural studies or ethnography Science and Narratives of Nature Jobin M. Kanjirakkat,Gordon McOuat,Sundar Sarukkai,2017-07-05 The discourse and practice of science are deeply connected to explicit and implicit narratives of nature However nature has been understood in diverse ways by cultures across the world Could these different views of nature generate the possibility of alternate views on science Part of the innovative series Science and Technology Studies this volume looks at different conceptualizations of nature and the manner in which they structure the practice of the sciences The essays draw upon philosophy history sociology religion feminism mathematics and cultural studies and establish a dialogue between cultures through a multi disciplinary exploration of science With contributions from major scholars in the field this volume will deeply interest scholars and students of science and technology studies sociology history and philosophy of science as also environmental studies **The Ashgate Research Companion to Modern Theory, Modern Power, World Politics** Nevzat Soguk,Scott G Nelson,2016-04-28 Deliberately eschewing disciplinary and temporal boundaries this volume makes a major contribution to the de traditionalization of political thinking within the discourses of international relations Collecting the works of twenty five theorists this Ashgate Research Companion engages some of the most pressing aspects of political thinking in world politics today The authors explore theoretical constitutions critiques and affirmations of uniquely modern forms of power past and present Among the themes and dynamics examined are textual appropriation and representation materiality and capital formation geopolitical dimensions of ecological crises connections between representations of violence and securitization subjectivity and genderization counter globalization politics constructivism biopolitics post colonial politics and theory as well as the political prospects of emerging civic and cosmopolitan orders in a time of national religious and secular

polarization Radically different in their approaches the authors critically assess the discourses of IR as interpretive frames that are indebted to the historical formation of concepts and to particular negotiations of power that inform the main methodological practices usually granted primacy in the field Students as well as seasoned scholars seeking to challenge accepted theoretical frameworks will find in these chapters fresh insights into contemporary world political problems and new resources for their critical interrogation

Mobilities and Complexities Ole B. Jensen, Sven Kesselring, Mimi Sheller, 2018-10-25 The new mobilities turn has become a powerful perspective in social theory John Urry's oeuvre has been very influential in the emergence of this new field and has had lasting impacts on many scholars This collection presents originally commissioned essays from leading scholars in the field who reflect on how Urry's writing influenced the course of their research and theorizing This volume gathers contributions in relation to John Urry's path breaking work The new mobilities turn made a strong imprint in European social theory and is beginning to make an impact in the Americas and Asia as well It challenges mainstream theoretical and empirical approaches that were grounded in a sedentary and bounded view of states It propels innovative thinking about social and media ecologies complex systems and social change It bridges many disciplines and methodologies leading to new approaches to existing problems while also resonating with questions about both history and the future Mobilities research marks the rise of academic and intellectual cooperation and collaboration beyond societies as nations around the world face the ecological limits of contemporary mobility and energy systems The contributors represent several national contexts including England Germany Denmark Finland Taiwan Brazil Canada Australia and the USA This book collects personal essays and gives insight into a vivid network of scientists who have connections of various degrees to the late John Urry as an academic figure an author and a person

Inhabiting the Meta Visual: Contemporary Performance Themes Helene G. Markstein, Arthur Maria Steijn, 2019-07-22 This volume was first published by Inter Disciplinary Press in 2016 Theatre and the many varied expressions of performance practice in live and mediated performance forms are by their nature inter disciplinary The goal of this volume is to develop discussion with a focus on the visual aspects of performance brought up by artists and researchers in various performance disciplines and practices The volume facilitates inter personal communication and the exchange of global perspectives to engage a community in meaningful dialogue Scenography describes the discipline of performing arts which include all elements of theatrical presentation As a definition here it is useful for this volume because it outlines the understanding of scenographic practice as a combination of numerous theatre practices that collaborate and include architecture lighting costume make up sound settings and stage properties movement as well as audience participation

Media and the Restyling of Politics John Corner, Dick Pels, 2003-08-07 Within media research and cultural studies the mediation of politicians and the play off between versions of high and low politics are attracting increasing interest Media and the Restyling of Politics brings together the work of leading academics in media and cultural studies to pursue an agenda of research analysis and debate about the

changing nature of political culture and its mediation The contributors question the ways in which emerging forms of political style relate not only to new conventions of celebrity and publicity but to ideas about representation citizenship and the democratic process Topics covered include celebrity politicians the marketing of politics identity and popular culture

Restyling Factual TV Annette Hill, 2007-06-11 Addressing the wide range of programmes and formats from news to documentary to popular factual genres Annette Hill's new book examines the ways viewers navigate their way through a busy noisy and constantly changing factual television environment Restyling Factual TV addresses the wide range of programmes that fall within the category of factuality from politics to natural history to reality entertainment Based on research with audiences of factual TV primarily in Sweden and the UK but with reference to other countries such as the US this book tackles issues such as legitimacy ethics and value in contemporary news and current affairs documentary and reality programming Drawing on the ethics of truth telling and notions of quality this wide ranging authoritative book expands the debate on popular factual entertainment and will be a welcome addition to the current literature *Moving Sites* Victoria Hunter, 2015-03-27 Moving Sites explores site specific dance practice through a combination of analytical essays and practitioner accounts of their working processes In offering this joint effort of theory and practice it aims to provide dance academics students and practitioners with a series of discussions that shed light both on approaches to making this type of dance practice and evaluating and reflecting on it The edited volume combines critical thinking from a range of perspectives including commentary and observation from the fields of dance studies human geography and spatial theory in order to present interdisciplinary discourse and a range of critical and practice led lenses through which this type of work can be considered and explored In so doing this book addresses the following questions How do choreographers make site specific dance performance What occurs when a moving body engages with site place and environment How might we interpret analyse and evaluate this type of dance practice through a range of theoretical lenses How can this type of practice inform wider discussions of embodiment site space place and environment This innovative and exciting book seeks to move beyond description and discussion of site specific dance as a spectacle or novelty and considers site dance as a valid and vital form of contemporary dance practice that explores reflects disrupts contests and develops understandings and practices of inhabiting and engaging with a range of sites and environments Dr Victoria Hunter is Senior Lecturer in Dance at the University of Chichester *Tourism, Land and Landscape in Ireland* K.J. James, 2014-06-20 This study exploring a broad range of evocative Irish travel writing from 1850 to 1914 much of it highly entertaining and heavily laced with irony and humour draws out interplays between tourism travel literature and commodifications of culture It focuses on the importance of informal tourist economies illicit dimensions of tourism national landscapes legend and invented tradition in modern tourism Performance Hanna B Hölling, Jules Pelta Feldman, Emilie Magnin, 2023-11-01 This book focuses on performance and performance based artworks as seen through the lens of conservation which has long been overlooked in the larger

theoretical debates about whether and how performance remains Unraveling the complexities involved in the conservation of performance Performance The Ethics and the Politics of Conservation and Care vol 1 brings this new understanding to bear in examining performance as an object of study experience acquisition and care In so doing it presents both theoretical frameworks and functional paradigms for thinking about and enacting the conservation of performance Further while the conservation of performance is undertheorized performance is nevertheless increasingly entering the art market and the museum meaning that there is an urgent need for discourse on how to care for these works long term In recent years a few pioneering conservators curators and scholars have begun to create frameworks for the longterm care of performance This volume presents explicates and contextualizes their work so that a larger discourse can commence It will thus serve the needs of conservation students and professors for whom literature on this subject is sorely needed This interdisciplinary book thus implements a novel rethinking of performance that will challenge and revitalize its conception in many fields such as art history theater performance studies heritage studies and anthropology

Understanding Cultural Geography Jon Anderson, 2009-09-22 This new and comprehensive book offers a holistic introduction to cultural geography It integrates the broad range of theories and practices of the discipline by arguing that the essential focus of cultural geography is place The book builds an accessible and engaging configuration of this important concept through arguing that place should be understood as an ongoing composition of traces The book presents specific chapters outlining the history of cultural geography before and beyond representation as well as the methods and techniques of doing cultural geography It investigates the places and traces of corporate capitalism nationalism ethnicity youth culture and the place of the body Throughout these chapters case study examples will be used to illustrate how these places are taken and made by particular cultures examples include the Freedom Tower in New York City the Berlin Wall the Gaza Strip Banksy graffiti and anti capitalist protest movements The book discusses the role of power in cultural place making as well as the ethical dimensions of doing cultural geography Understanding Cultural Geography Places and Traces offers a broad based overview of cultural geography ideal for students being introduced to the discipline through either undergraduate or postgraduate degree courses The book outlines how the theoretical ideas empirical foci and methodological techniques of cultural geography illuminate and make sense of the places we inhabit and contribute to This is a timely synthesis that aims to incorporate a vast knowledge foundation and by doing so it will also prove invaluable for lecturers and academics alike

From the Ground Up Efrat Eizenberg, 2016-04-22 Little known and hidden between skyscrapers and wide avenues some 650 community gardens dot New York City Set within one of the densest and most expensive real estate markets these gardens are attended by some of the least advantaged residents of the city Urban residents use these spaces for horticulture recreation social gatherings and artistic and cultural events They manage the gardens collectively and with relative independence from top down control Despite continuous threats from market forces the gardens have been able to thrive as significant community spaces since

the 1970s This book shows how in the process of attempting to protect these highly contested spaces residents developed as community leaders and urban activists Taking an interdisciplinary approach to follow the political development of urban residents the book examines how everyday spatial practices social interactions the production of alternative urban space and the generation of new urban knowledge render community gardeners into important social actors in the urban scene The book argues that with this process of production of space a new type of organic resident evolves These urbanites constantly engage with their urban environment find ways to make the city more supportive for their collective needs and produce the city in their own image Community gardeners as organic residents claim their right to the city act to materialize their vision of the city and utilize the special potential of the locale to constitute themselves as powerful social actors on the urban scene
