The Political Problem of Religious Pluralism

Thaddeus J. Kozinski, 2012-07-10 In contemporary political philosophy there is much debate over how to maintain a public order in pluralistic democracies in which citizens hold radically different religious views The Political Problem of Religious Pluralism deals with this theoretically and practically difficult issue by examining three of the most influential figures of religious pluralism theory John Rawls Jacques Maritain and Alasdair MacIntyre Drawing on a diverse number of sources Kozinski addresses the flaws in each philosopher's views and shows that the only philosophically defensible end of any overlapping consensus political order must be the eradication of the ideological pluralism that makes it necessary In other words a pluralistic society should have as its primary political aim to create the political conditions for the communal discovery and political establishment of that unifying tradition within which political justice can most effectively be obtained Kozinski's analysis though exhaustive and rigorous still remains accessible and engaging even for a reader unversed in the works of Rawls Maritain and MacIntyre Interdisciplinary and multi thematic in nature it will appeal to anyone interested in the intersection of religion politics and culture

Sociological Theory and the Capability Approach Spiros

Gangas, 2019-10-10 Sociological Theory and the Capability Approach connects normative strands of sociological theory to the fusion of ethics and economics proposed by Amartya Sen's and Martha Nussbaum's capability approach Spanning classical Hegel Marx Durkheim Scheler Weber and contemporary debates Parsons Giddens Luhmann it identifies areas that bridge the current gap between sociology and capability approach It thus builds on explanatory and normative concerns shared by both traditions Engaging readers from sociology and capability approach Spiros Gangas suggests that the proposed dialogue should be layered along the main areas of value theory economy and society extending this inquiry into the normative meaning attached to being human To this end the book reconstructs the notion of agency along the tracks of Nussbaum's central human capabilities considering also alienation and the sociology of emotions It concludes by addressing the capability approach through the lens of social institutions before it takes up the challenge of ideological fundamentalism and how it can be effectively confronted by capability approach This original book provides a fresh perspective on capability approach as it embeds it in the rich pool of sociological theory's accomplishments As an exercise in theoretical and normative convergence it will be required reading for academics and students in social theory cultural theory philosophy and human development studies

A Pluralist's Guide to Solving Molyneux's Problem

Brian Glenney, 2024-12-31 This book presents a novel pluralist strategy for answering Molyneux's 300 year old conundrum Would a person born blind but given sight identify a shape previously known only by their touch The author interweaves historical scholarship with contemporary philosophical work and empirical research on animal infant and adult human perception The author argues that we need a new approach to Molyneux's problem because we do not know what the problem is really about and it is untestable because a Molyneux

subject cannot be physically realized He criticizes Molyneux's question for its simplistic taxonomy of the blind that groups significant individual differences into a singular ontology Research in the cognitive sciences confirms that various kinds of blindness can co occur such as ocular cortical and psychological blindness Therefore the author adopts an explanatory pluralism for answering Molyneux's problem which includes no yes and no answer answers according to the domain of inquiry being used This account provides a research based answer to a long standing problem using previously unheeded insights particularly from animal crossmodal perception studies to retell a more complex story of perception its levels of explanation and integration A Pluralist's Guide to Solving Molyneux's Problem will be of interest to researchers and advanced students working in comparative psychology epistemology history of philosophy philosophy of perception **The**

Challenge of Pluralism F. Clark Power, Daniel K. Lapsley, 1992 The politics of pluralism has long been an intractable characteristic of American public education Today perhaps more so than ever educators grapple with an awareness of the fact that liberal societies cannot promote a particular vision of the moral life and still respect and uphold the multi cultural values of a pluralistic society The Challenge of Pluralism examines the problematic issue of the role of moral education in a pluralistic society The book takes an interdisciplinary focus and contributors include well known experts in such fields as psychology educational policy studies history of education political history curriculum philosophy of education theology and gender studies The essays delve into the myriad reasons for the moral education controversy and examine how the contemporary debate over the place of moral education in a pluralist society takes place within the larger context of the current arguments over the quality of American education In addition to a historical examination of the values pluralism issue the volume offers critiques of specific educational regimens as they address the problem of moral education This volume offers relevant pertinent discussions that will benefit professional educators social scientists and any individual concerned about the quality of American education and its ability to provide adequate moral and values education Contributors Walter Nicgorski Michael W Apple Rev Michael Himes Dwight Boyd Ronnie A F Blakeney Charles D Blakeney Daniel K Lapsley William Reese Michael R Olneck Ann Diller James W Fowler and F Clark Power *Law, Society and Community* Richard Nobles, David Schiff, 2016-04-22 This collection of socio legal studies written by leading theorists and researchers from around the world offers original perceptive and critical contributions to ideas and theories that have been expounded by Roger Cotterrell over a long and distinguished career Engaging with many classic issues and theories of the sociology of law the contributions are likely to become classics themselves as they tackle some of the most significant challenges that modern law faces They do not shy away from what one of the contributors describes as the complexity and multiplicity of our contemporary legal world The book is organized in three parts socio legal themes methodological and jurisprudential themes globalization cultural and comparative law themes Starting with a chapter that re engages with the need to interpret legal ideas sociologically and ending with one that explores the global significance of modern fascination with the idea of the rule

Radicalizing Democracy for the Twenty-first century Jane Mummary, 2016-11-18 While the subject of democracy has been explored by philosophers since ancient times in the last few decades democracy has been taken for granted in the West as the political norm The recognition of democracy as an empty concept in Western political discourse and the emergence of theories of radical democracy have renewed engagement in democratic theory and politics Radicalizing Democracy for the Twenty first Century explores the radicalizing movement in democratic thought and Introduces readers to the key debates in contemporary philosophical theories about democracy Confronts popular assumptions about democracy Provides a philosophical underpinning for the rise of radical democratic theories movements and politics Examines how radical democracy can respond to the challenges of the contemporary world Radicalizing Democracy for the Twenty first Century is an important resource for students scholars and university teachers in the field of political philosophy political theory and international relations Cultures and Religion in Dialogue Raimon Panikkar, 2018-06-26 **Toleration as Recognition** Anna Elisabetta Galeotti, 2002-03-14 In this 2002 book Anna Elisabetta Galeotti examines the most intractable problems which toleration encounters and argues that what is really at stake is not religious or moral disagreement but the unequal status of different social groups Liberal theories of toleration fail to grasp this and consequently come up with normative solutions that are inadequate when confronted with controversial cases Galeotti proposes as an alternative toleration as recognition which addresses the problem of according equal respect to groups as well as equal liberty to individuals She offers an interpretation that is both a revision and an expansion of liberal theory in which toleration constitutes an important component not only of a theory of justice but also of the politics of identity Her study will appeal to a wide range of readers in political philosophy political theory and law **Issues In Heterodox Economics** Donald A. R. George, 2008-02-11 Through contributions from leading authors Issues in Heterodox Economics provides a critical analysis of the methodology of mainstream economics Challenges economists to abandon sterile formalism and develop new intellectual rigors to contribute to pressing contemporary issues A series of cutting edge articles provides a critical analysis of the dependence of mainstream

economics on mathematical modelling and other methodologies Topics discussed include sustainable development worker control of firms evolutionary growth theory and more Challenges economists to abandon sterile formalism and develop new intellectual rigors to contribute to pressing contemporary issues *Deep Religious Pluralism* David Ray Griffin,2005-01-01 A groundbreaking scholarly work *Deep Religious Pluralism* is based on the conviction that the philosophy articulated by Alfred North Whitehead encourages not only religious diversity but deep religious pluralism Arising from a 2003 Center for Process Studies conference at Claremont Graduate University this book offers an alternative to the version of religious pluralism that has dominated the recent discussion especially among Christian thinkers in the West which has evoked a growing call to reject pluralism as such Renowned contributors of a diversity of faiths include Steve Odin John Shunji Yakota Sandra B Lubarsky Jeffery D Long Mustafa Ruzgar Christopher Ives Michael Lodahl Chung ying Cheng Wang Shik Jang and John B Cobb Jr *Faith in a Pluralist Age* Kaye V. Cook,2018-03-14 Most academics agree with Peter Berger that pluralism theory appears more accurate than secularization theory in accounting for the societal changes that accompany modernization Yet Berger's earlier book *Many Altars of Modernity* gives limited attention to the implications of the pluralist paradigm for religious discourse in particular for evangelicals According to Berger who wrote the first chapter in this book while pluralism leads to less certainty about faith and creates secular spaces it also more positively clarifies the importance of trust in God highlights the nature of religious institutions as voluntary associations rather than birth rights and challenges Christians to know what they believe in Subsequent chapters respond to the first Four responses are theoretical e g challenging the concept of secular spaces exploring social constructionism and four are contextual e g describing anti pluralist forces in India challenging feminists to pluralism examining women's responses to pluralism and exploring values in Brazil and China The ideas are easily accessible to the lay reader and are intended to initiate a much needed conversation about the implications of pluralist theory We conclude that pluralism is challenging for Christian faith but as Peter Berger says in most ways it is good for you With contributions from Peter Berger Bruce Wearne Roger Olson Paul Brink James Skillen Tal Howard Ruth Groenhout Ruth Melkonian Hoover Si Hua Chang Taylor Marie Funchion *Present-day Challenges to Religion* Mathavum Chinthayum,1973 **Problems of Religious Pluralism** John Harwood Hick,1985-10-07 **Accelerating Knowledge Sharing, Creativity, and Innovation Through Business Tourism** Bari, Muhammad Waseem,Shaheen, Sadia,Fanchen, Meng,2020-04-10 Business tourism is a newly coined terminology in social sciences and management literature It is defined as individuals traveling and staying outside of their hometowns for not more than one successive year for the purpose of enjoyment and other drives e g learning and business activities Key business tourism activities include attending a variety of meetings conferences and workshops as well as exhibitions Understanding the negative and positive aspects of business tourism is essential to promoting employee learning and knowledge transfer skills *Accelerating Knowledge Sharing Creativity and Innovation Through Business Tourism* is an essential reference source that discusses how differences in cultures
