really going on during problem solving when it is used regularly in classroom This book seeks to stay on top of that trend by
approaching diverse aspects of current problem solving research covering three broad themes Firstly it explores the role of
teachers in problem solving classrooms and their professional development moving onto secondly the role of students when
solving problems with particular consideration of factors like group work discussion role of students in discussions and the
effect of students engagement on their self perception and their view of mathematics Finally the book considers the question
of problem solving in mathematics instruction as it overlaps with problem design problem solving situations and actual
classroom implementation The volume brings together diverse contributors from a variety of countries and with wide and
varied experiences combining the voices of leading and developing researchers The book will be of interest to any reader
