Prostitution In The Medieval World 1926:

Who's who Among North American Authors Alberta Lawrence, 1927 Covering the United States and Canada with their possessions and neighbors and containing the biographical and literary data of living authors whose birth or activities connect them with the continent of North America with a press section devoted to journalists and magazine writers varies slightly

Religious Poverty and the Profit Economy in Medieval Europe Lester K. Little, 1983 In this stimulating and important book Lester Little advances the original thesis that paradoxically it was the leading practitioners of voluntary poverty Franciscan and Dominican friars who finally formulated a Christian ethic which justified the activities of merchants moneylenders and other urban professionals and created a Christian spirituality suitable for townsmen Little has synthesized a vast body of specialized literature in Italian German French and English to write an interpretive essay which provides a new perspective on the interaction between economic and social forces and the religious movements advocating the apostolic ideal of voluntary poverty Little's book is a major contribution not only to the history of the religious movement of voluntary poverty but also to the interdisciplinary study of the middle ages

Journal of Social History **Prostitution in the Medieval World** Leo Markun, 2013-10 This is a new release of the original 1926 edition

Prostitution in Medieval and Early Modern Literature Albrecht Classen, 2019-07-18 Prostitution is known as the oldest profession in the history of humanity While historians have already given due consideration to the profession's social and cultural meanings across time periods little has been written about literary representations of prostitution

Prostitution in Medieval and Early Modern Literature analyses the work of writers from an array of social positions including courtly poets and even religious writers dealing with the topic during the medieval and early modern periods Its study shows that prostitutes and brothel owners were present on the literary stage far more often than we might have assumed Utilizing an interdisciplinary approach and incorporating relevant sources from across the entire European continent dating from the early Middle Ages to the sixteenth century it examines the phenomenon of prostitution in a variety of contexts and highlights the extent to which the institution mattered for both the higher and the lower classes

Women in Medieval Europe Jennifer Ward, 2014-06-11 Women in Medieval Europe were expected to be submissive but such a broad picture ignores great areas of female experience Between the thirteenth and fifteenth centuries women are found in the workplace as well as the home and some women were numbered among the key rulers saints and mystics of the medieval world Opportunities and activities changed over time and by 1500 the world of work was becoming increasingly restricted for women Women of all social groups were primarily engaged with their families looking after husband and children and running the household Patterns of work varied geographically In the northern towns women engaged in a wide range of crafts with a small number becoming entrepreneurs Many of the poor made a living as servants and labourers Prostitution flourished in many medieval towns Some women

turned to the religious life and here opportunities burgeoned in the thirteenth century The Middle Ages are not remote from the twenty first century the lives of medieval women evoke a response today The medieval mother faced similar problems to her modern counterpart The sheer variety of women s experience in the later Middle Ages is fully brought out in this book

Women in Medieval Europe 1200-1500 Jennifer Ward,2016-04-14 *Women in Medieval Europe* explores the key areas of female experience in the later medieval period from peasant women to Queens It considers the women of the later Middle Ages in the context of their social relationships during a time of changing opportunities and activities so that by 1500 the world of work was becoming increasingly restricted to women The chapters are arranged thematically to show the varied roles and lives of women in and out of the home covering topics such as marriage religion family and work For the second edition a new chapter draws together recent work on Jewish and Muslim women as well as those from other ethnic groups showing the wide ranging experiences of women from different backgrounds Particular attention is paid to women at work in the towns and specifically urban topics such as trade crafts healthcare and prostitution The latest research on women gender and masculinity has also been incorporated along with updated further reading recommendations This fully revised new edition is a comprehensive yet accessible introduction to the topic perfect for all those studying women in Europe in the later Middle Ages

Demonic Possession and Lived Religion in Later Medieval Europe Sari Katajala-Peltomaa,2020-02-19 Demonic possession was a spiritual state that often had physical symptoms however in *Demonic Possession and Lived Religion in Later Medieval Europe* Sari Katajala Peltomaa argues that demonic possession was a social phenomenon which should be understood with regard to the community and culture She focuses on significant case studies from canonization processes c 1240 1450 which show how each set of sources formed its own specific context in which demonic presence derived from different motivations reasonings and methods of categorization The chosen perspective is that of lived religion which is both a thematic approach and a methodology a focus on rituals symbols and gestures as well as sensitivity to nuances and careful contextualizing of the cases are constitutive elements of the argumentation The analysis contests the hierarchy between the learned and the popular within religion as well as the existence of a strict polarity between individual and collective religious participation Demonic presence disclosed negotiations over authority and agency it shows how the personal affected the communal and vice versa and how they were eventually transformed into discourses and institutions of the Church that is definitions of the miraculous and the diabolical Geographically the volume covers Western Europe comparing Northern and Southern material and customs The structure follows the logic of the phenomenon beginning with the background reasons offered as a cause of demonic possession continuing with communities responses and emotions including construction of sacred caregiving methods Finally the ways in which demonic presence contributed to wider societal debates in the fields of politics and spirituality are discussed Alterity and inversion of identity gender and various forms of corporeality and the interplay between the sacred and diabolical are themes that run all through the volume

Human Trafficking in Medieval Europe Christopher Paoella, 2025-10-01 Human trafficking has become a global concern over the last twenty years but its violence has terrorized and traumatized its victims and survivors for millennia This study examines the deep history of human trafficking from Late Antiquity to the Early Modern Period It traces the evolution of trafficking patterns the growth and decline of trafficking routes the everchanging relationships between traffickers and authorities and it examines the underlying causes that lead to vulnerability and thus to exploitation As the reader will discover the conditions that lead to human trafficking in the modern world such as poverty attitudes of entitlement corruption and violence have a long and storied past When we understand that past we can better anticipate human trafficking s future and then we are better able to fight it

Women at Work from Ancient Egypt Through the Middle Ages Lora Ann Sigler, 2025-10-17 Even voracious readers are often unaware that women have worked outside the home from the earliest recorded history A significant number of them have made names for themselves by being the first of either sex to do what they did For example the first musical composer we know of Enheduanna of Sumeria daughter of Sargon II Or even more astonishing the first practitioners of Caesarian sections for a difficult birth generally fatal for the mother but producing a live infant Thoroughly illustrated with high quality photographic images this work fills a gap in popular history detailing women at work from the dawn of civilization through to the Middle Ages There are four appendices regarding objects of interest related indirectly but importantly to the text as well as copious endnotes included with each chapter and a glossary of terms which may be unfamiliar to readers For those who wish to pursue related topics there is also a complete bibliography A number of the women included in this work have been forgotten by history even their real names unknown All however have contributed generously to their respective societies and cultures
