Psychic Energy:

Psychic Energy Mary Esther Harding, 2021-07-13 A study of the primitive and unconscious aspects of man's nature and the processes by which their energies may contribute to the integration of personality New edition comprehensively revised and enlarged with many new illustrations INITIATIVE PSYCHIC ENERGY WARREN HILTON, 1914 **Applied**

Psychology ...: Initiative psychic energy Warren Hilton, 1914 *Your Psychic Powers and how to Develop Them*

Hereward Carrington, 1920 Psychological Astrology Karen Hamaker-Zondag, 1990-01-01 Examines the traditional wisdom of astrology in the light of Jungian psychology revealing the horoscope as a picture of our psychic structure and a key to self knowledge and personal growth Beginning with an analysis of Jung's terminology including archetypes the collective unconscious and the theory of synchronicity the author explores the striking correspondence between Jung's theory of psychological types and the traditional astrological elements *An Introduction to Theories of Human Development* Neil J Salkind, 2004-01-22 This brief accessible core text provides a comprehensive view of the major developmental perspectives in a way that should appeal especially to students going on to applied careers in the social and behavioral sciences education and the human services and other helping professions Neither overly detailed nor unnecessarily technical it is intended as a basic introduction At the same time the author does not talk down or condescend to the reader He emphasizes the applied nature of these developmental theories not only in the text material but also with features such as boxed highlights The book is organized into five major parts beginning with an introduction to the primary concepts and important ideas about human development and research and then grouping various theories into four major theoretical perspectives maturational and biological psychodynamic behavioral and cognitive developmental before concluding with an integrative chapter that compares the various theories covered The Mind and Its Mechanism Paul Bousfield, William Robert Bousfield, 1927

Mythos and Logos in the Thought of Carl Jung Walter A. Shelburne, 1988-01-01 The author explores and defends the bold thesis that the idea of the collective unconscious can be reconciled with a scientific world outlook as he sketches a big picture from Jung's psychological viewpoint In his examination of Jung's archetypes Shelburne considers the chief critical views of the scientific import of Jung's thesis as he discusses the issue of rationality posed by the theory There is also a discussion of how the ideas of James Hillman contrast with those of Jung on the issue of the scientific nature of archetypes Shelburne presents scientific evidence for the existence of archetypes and shows how the theory fits in with modern evolutionary biology *Embodied Spirituality in a Sacred World* Michael Washburn, 2012-02-01 Anyone seeking a deeper understanding of human spirituality will find something of value in Michael Washburn's new book Drawing on a rich variety of psychoanalytic Jungian and existential phenomenological sources and on both Western and Asian spiritual texts *Embodied Spirituality in a Sacred World* provides a theoretical foundation for the idea that human development follows a spiral path Washburn shows that ego development early in life requires us to turn our backs on original sources of our existence and

therefore that spiritual development later in life requires us to spiral back to these sources on the way to whole psyche integration He elucidates the underlying causes and pivotal events that set development on its spiral course and traces six major dimensions of experience as they unfold along the spiral path the unconscious the energy system the ego system the perceived other the experiential body and the life world In providing a theoretical foundation for the idea of the spiral path Washburn defends the idea against its critics and helps explain why the idea has been compelling to so many people in diverse traditions Letters of Helena Roerich. 1935-1939.
