Public Piers Plowman Modern Scholarship And Late Medieval English Culture:

Public Piers Plowman C. David Benson, 2010-11-01 Public Piers Plowman is divided into two parts The first is an extended essay on what Benson calls the Langland myth He traces the evolution of Piers scholarship and demonstrates the limitations of treating Piers as a direct expression of the poet's experience and intellectual views In the second part Benson offers an alternative history for the poem Benson approaches it from a broader public context using representative examples from vernacular writing parish art and civic practices He argues that Piers reached a wide contemporary audience because far from being an account only of the author's own life and opinions it was securely rooted in the common culture of its time and place Jacket

Economic Ethics in Late Medieval England, 1300-1500 Jennifer Hole, 2016-10-07 Drawing on an array of archival evidence from court records to the poems of Chaucer this work explores how medieval thinkers understood economic activity how their ideas were transmitted and the extent to which they were accepted Moving beyond the impersonal operations of an economy to its ethical dimension Hole's socio cultural study considers not only the ideas and beliefs of theologians and philosophers but how these influenced assumptions and preoccupations about material concerns in late medieval English society Beginning with late medieval English writings on economic ethics and its origins the author illuminates a society which although strictly hierarchical and unequal nevertheless fostered expectations that all its members should avoid greed and excess consumption Throughout Hole aims to show that economic ethics had a broader application than trade and usury in late medieval England

The Philosophy of Piers Plowman David Strong, 2017-04-26 This book examines William Langland's late medieval poem *The Vision of Piers Plowman* in light of contemporary intellectual thought David Strong argues that where the philosophers John Duns Scotus and William of Ockham revolutionize the view of human potential through their theories of epistemology ethics and freedom of the will Langland vivifies these ideas by contextualizing them in an individual's search for truth and love Specifically the text ponders the intersection between reason and the will in expressing love While scholars have consistently noted the text's indebtedness to these higher strains of thought this is the first book length study in over thirty years that explores the depth of this interconnection and the only one that considers the salience of both Scotus and Ockham It is essential reading for medieval literary specialists and students as well as any cultural historian who desires to augment their knowledge of truth and love

Nowhere in the Middle Ages Karma Lochrie, 2016-05-26 In *Nowhere in the Middle Ages* Lochrie reveals how utopian thinking was in fact somewhere in the Middle Ages In the process she transforms conventional readings of More's *Utopia* and challenges the very practice of literary history today

The Feral Piers Rosanne P. Gasse, 2016-02-29 What do we mean when we talk about the text of *Piers Plowman* What is the concept of a literary text when that construct exists in so many variant and feral forms as is the case for the multiple modern editorial reconstructions and the more than fifty surviving manuscripts and early print editions of *Piers Plowman* How do the anonymous roles of author scribe and reader intersect to create the experience of the text How can we judge a pre modern text's reception history if we do not know exactly what it was that the early reader was responding to This book takes a daring and innovative approach to answering such questions as these It is a micro study of one particular historic version of *Piers Plowman* its scribe and its fifteenth and sixteenth century readers British Library Cotton Caligula A XI a manuscript which combines the C A and B texts of the poem and which was likely copied out in the first quarter of the fifteenth century It reads the Cotton *Piers* not as an ossified relic whose value lies in what can be gleaned from it about modes of scribal production and its textual relationship to other *Piers* manuscripts but as a living text meant to be experienced and enjoyed as a work of literature in its own right In gaining a better comprehension at the micro level of this particular historic version a better understanding of the whole concept of *Piers Plowman* itself emerges

disability studies to medievalists The essays explore a wide variety of disabilities including the more traditionally accepted classifications of blindness and deafness as well as perceived disabilities such as madness pregnancy and age Adopting a ground breaking new approach to the study of disability in the medieval period this provocative book will interest

medievalists and scholars of disability throughout history **Cushions, Kitchens and Christ** Louise Campion,2022-01-15

This book represents the first full length study of the prevalence of domestic imagery in late medieval religious literature It examines as yet understudied patterns of household imagery and allegory across four fifteenth century spiritual texts all of which are Middle English translations of earlier Latin works These texts are drawn from a range of popular genres of medieval religious writing including spiritual guidance texts Lives of Christ and collections of revelations received by visionary women All of the texts discussed in this book have identifiable late medieval readers which further enables a discussion of the way in which these book users might have responded to the domestic images in each one This is a hugely important area of enquiry as the literal late medieval household was becoming increasingly culturally important during the fourteenth and fifteenth centuries and these texts frequent recourse to domestic imagery would have been especially pertinent **Piers Plowman and the Books of Nature** Rebecca Davis,2016-09-08

Piers Plowman and the Books of Nature explores the relationship of divine creativity poetry and ethics in William Langland s fourteenth century dream vision These concerns converge in the poem s rich vocabulary of kynde the familiar Middle English word for nature broadly construed But in a remarkable coinage Langland also uses kynde to name nature s creator who appears as a character in Piers Plowman The stakes of this representation could not be greater by depicting God as Kynde that is under the guise of creation itself Langland explores the capacity of nature and of language to bear the plenitude of the divine In doing so he advances a daring claim for the spiritual value of literary art including his own searching form of theological poetry This claim challenges recent critical attention to the poem s discourses of disability and failure and reveals the poem s place in a long and diverse tradition of medieval humanism that originates in the twelfth century and indeed points forward to celebrations of nature and natural capacity in later periods By contextualizing Langland s poetics of kynde within contemporary literary philosophical legal and theological discourses Rebecca Davis offers a new literary history for Piers Plowman that opens up many of the poem s most perplexing interpretative problems *Images of Kingship in Chaucer and His Ricardian Contemporaries*

Samantha J. Rayner,2008 The other poets work comes consequently into sharper focus showing that despite a diversity in style and approach common concerns and attitudes towards the theme of kingship underpin all of the poets under

consideration **BOOK JACKET The Visual Object of Desire in Late Medieval England** Sarah Stanbury,2015-07-10

Little remains of the rich visual culture of late medieval English piety The century and a half leading up to the Reformation had seen an unparalleled growth of devotional arts as chapels parish churches and cathedrals came to be filled with images in stone wood alabaster glass embroidery and paint of newly personalized saints angels and the Holy Family But much of this

fell victim to the Royal Injunctions of September 1538 when parish officials were ordered to remove images from their churches In this highly insightful book Sarah Stanbury explores the lost traffic in images in late medieval England and its impact on contemporary authors and artists For Chaucer Nicholas Love and Margery Kempe the image debate provides an urgent language for exploring the demands of a material devotional culture though these writers by no means agree on the ethics of those demands The chronicler Henry Knighton invoked a statue of St Katherine to illustrate a lurid story about image breaking Lollards Later John Capgrave wrote a long Katherine legend that comments through the drama of a saint in action on the powers and uses of religious images As Stanbury contends England in the late Middle Ages was keenly attuned to and troubled by its culture of the spectacle whether this spectacle took the form of a newly made queen in Chaucer's Clerk's Tale or of the animate Christ in Norwich Cathedral's Despensers Retable In picturing images and icons these texts were responding to reformist controversies as well as to the social and economic demands of things themselves the provocative objects that made up the fabric of ritual life

Langland's Early Modern Identities S. Kelen, 2007-11-26 This book uses the methodologies of cultural studies and the history of the book to show how editors and readers of the Sixteenth through the early Nineteenth century successively remade Piers Plowman and its author according to their own ideologies of the Middle Ages

English Medieval Misericords Paul Hardwick, 2011 Misericord carvings present a fascinating corpus of medieval art which in turn complements our knowledge of life and belief in the late middle ages Subjects range from the sacred to the profane and from the fantastic to the everyday seemingly giving equal weight to the scatological and the spiritual alike Focusing specifically on England though with cognisance of broader European contexts this volume offers an analysis of misericords in relation to other cultural artefacts of the period Through a series of themed case studies the book places misericords firmly within the doctrinal and devotional milieu in which they were created and sited arguing that even the apparently coarse images to be found beneath choir stalls are intimately linked to the devotional life of the medieval English Church The analysis is complemented by a gazetteer of the most notable instances Dr Paul Hardwick is Professor in English Leeds Trinity University College

The Visible Text Thomas A. Bredehoft, 2014-01-16 Oxford Textual Perspectives is a new series of informative and provocative studies focused upon literary texts conceived of in the broadest sense of that term and the technologies cultures and communities that produce inform and receive them It provides fresh interpretations of fundamental works and of the vital and challenging issues emerging in English literary studies By engaging with the materiality of the literary text its production and reception history and frequently testing and exploring the boundaries of the notion of text itself the volumes in the series question familiar frameworks and provide innovative interpretations of both canonical and less well known works Covering materials ranging from Anglo Saxon manuscripts and inscribed objects to contemporary comics The Visible Text rewrites the history of textual media and technologies Arguing that media are not defined by technologies alone but by a combination of technologies and the ideas that people hold about those technologies Bredehoft identifies four distinct periods or domains in the history of English literature that correspond to four ways in which media ideologies interacted with the two basic defining technologies of manuscripts and printed books Examining two complementary ways of defining texts as subject to a reproductive medium on the one hand and as surrounded and defined by paratexts on the other The Visible Text points out how Anglo Saxon manuscripts and contemporary comics share a remarkable similarity in being structured as productions rather than reproductions Contrastingly the late medieval and print era periods share a cultural investment in textual reproduction but they differ both in their characteristic technologies and in

how they conceptualize the object of reproduction itself A final epilogue briefly considering the nature of electronically mediated textuality highlights the importance of understanding the history addressed here as electronic text both parallels and departs from typographic print in ways that earlier reproductive domains clarify and complicate Filled with concrete examples of both books and texts *The Visible Text* will be of interest to readers in the fields of literature book history literary theory media studies and visual culture
