*Public Policy and the South African Economy* D. Hobart Houghton, 1976      **The Decline of the South African Economy** Stuart Jones, 2002-01-01 South Africa's leading economists adopt within this volume a sectoral approach in their analysis of the drastic changes that have occurred within the South African economy since 1970 The book illustrates how despite its sophisticated infrastructure the South African economy has shared in the economic decline resulting from misguided economic policies that has been the experience of Sub Saharan Africa The contributors argue that the failure of manufacturing to maintain the country's economic growth once the output of the gold mines began to decline is central to an understanding of events and outcomes in the economy Government policy towards manufacturing has played a major part in the decline of the South African economy but this has however tended to be overlooked as a result of the turbulence generated by the political events unfolding in South Africa      **Brief Tests of Collection Strength** Howard D. White, 1995-09-26 For purposes of accreditation resource sharing and institutional mission librarians need to assess the strengths of their collections in particular subject areas This book describes and illustrates a brief test for determining a library's collection strength Though such tests are most often employed in academic libraries the methodology outlined by the author should be useful to all types of libraries in assessing the strength of their holdings In a time of increasing material and limited resources libraries need to be particularly judicious in deciding which works to acquire Oftentimes a library seeks to develop strong holdings in one or more subject areas Such an approach is especially useful for libraries that share their resources with other institutions To plan their acquisitions carefully and to be of greatest use to other consortia members a library needs to gauge the strength of its holdings accurately This volume describes and illustrates a relatively brief test to assign libraries a score for existing collection strength in a subject area Drawing upon expert human judgment and holdings data available from OCLC the test can assist librarians in setting and verifying collection levels on the RLG or WLN Conspectus scales Collection strength is often verified in a labor intensive fashion The brief test presented by the author is an economical alternative to the more typical labor intensive approach to collection analysis      *Expectations and the Meaning of Institutions* Don Lavoie, 2005-08-19 This collection of Ludwig Lachmann's essays challenges contemporary attitudes to economics and seeks to apply an interpretive approach to the discipline The essays spanning six decades address a wide range of issues in microeconomics macroeconomics methodology and the history of thought They outline Lachmann's approach to economics with the emphasis on the meaning of human institutions in a world of unpredictable change rather than on quantitative and stable relations Collecting Lachmann's most important work together for the first time it includes two essays never previously published      **A Bibliographical Guide to South African Economic Development** Anthony B.
