**News as Entertainment** Daya Kishan Thussu,2008-01-09 Thussu brings to this project the passion for news of a socially committed former journalist the political economy of his international relations education and a formidable assembly of global detail examining the recent explosion of infotainment John Downing Southern Illinois University Thussu s account of war as infotainment the Bollywoodization of

news and the emergence of a global infotainment sphere is as compelling as it is alarming This is a significant and essential book for anyone interested in exploring the connections between news journalism informed citizenship and democracy Bob Franklin The Cardiff School of Journalism Media and Cultural Studies Richly detailed and empirically grounded this first book length study of infotainment and its globalization by a leading scholar of global communication offers a comprehensive and critical analysis of this emerging phenomenon Going beyond both geographically and theoretically the dumbing down discourse largely confined to the Anglo American media the book argues that infotainment may have an important ideological role a diversion in which soft news masks the hard realities of neo liberal imperialism Chapters include a historical appraisal of infotainment the infrastructure for its globalization as well as coverage of recent wars on television news as high tech infotainment and the growing synergies between Hollywood and Bollywood originated infotainment A global infotainment sphere is emerging the book argues within which competing versions of news from 24 7 news networks to bloggers coexist Accessible engagingly written and robustly argued the book combines analyses of theoretical debates on infotainment with extensive and up to date comparative data New Technologies in Developing Societies L. Obijiofor,2015-05-19 New technologies may have transformed human societies but not much has been written on how they are impacting people in Africa and other developing regions in terms of how they use technology to enhance their socioeconomic conditions in everyday life This book critically examines these issues from theoretical practical and policy perspectives **A Critical Account of Article 106(2) TFEU** Jarleth Burke,2018-03-22 A Critical Account of Article 106 2 TFEU Government Failure in Public Service Provision offers a sceptical perspective on how EU law applies to public services Article 106 2 provides that other Treaty rules may be disapplied in order to sustain a Service of General Economic Interest SGEI The rhetorical presentation of Article 106 2 is as a strict exception As a result Article 106 2 is often presented as a threat to Europe s public service tradition This book challenges those shibboleths by using the concept of government failure It is concerned with instances of government intervention that are unnecessary generate avoidable inefficiencies or that can be bettered so as to realise general interest goals more efficaciously As an element of the government failure critique a market feasibility test incorporating the concept of market failure is used to expose laxity in the review of general interests under Article 106 2 Complementing that the process of disapplying other Treaty rules under Article 106 2 is shown to have evolved from being strict to being highly indulgent of SGEI providers with a relatively recent but only partial correction post Altmark Overall the strict exception label for Article 106 2 does not hold Moreover it is contingent and presents no legitimate general interest related threat to the organisation and delivery of public services A comprehensive re orientation of Article 106 2 on issues of proof is required as is greater reliance on market counterfactuals and much more careful separation of objectives and means in SGEI operation and design Through these measures the toleration of government failure can be stemmed and Article 106 2 s contingency reduced Sound Matters Richard L Beeston BA,2024-02-13 This book has been written to assist researchers
