Public Spaces Private Lives Beyond The Culture Of Cynicism:

Public Spaces, Private Lives Henry A. Giroux, 2003 While many of the essays in this book were written before 9 11 they point to a number of important issues such as the commercialization of public life the stepped up militarization racial profiling and the threat to basic civil liberties that have been resurrected since the terrorist attacks *Public Spaces Private Lives* serves to legitimate the claim that there is much in America that has not changed since 9 11 Rather than a dramatic change what we are witnessing is an intensification and acceleration of the contradictions that threatened American democracy before the tragic events of 9 11 Hence *Public Spaces Private Lives* offers a context for both understanding and critically engaging the combined threats posed by the increase in domestic militarization and a neoliberal ideology that substitutes market values for those democratic values that are crucial to rethinking what a vibrant democracy would look like in the aftermath of September 11th

Echoes from Freire for a Critically Engaged Pedagogy Peter Mayo, 2012-12-20 In this concise and accessible text Peter Mayo outlines some of the major concepts in Freire's praxis In pursuit of a critically engaging pedagogy Mayo compares Freire's work with a range of other thinkers and educators including Lorenzo Milani Antonia Darder John Dewey Margaret Ledwith Antonio Gramsci and Henry Giroux Chapters in the book include discussions of the State's role in education specifically higher education a critical analysis of the dominant discourse in education centering on competences and the type of slant this discourse takes a study of adult education through a Freirean lens an historical view of Nicaragua's Freire inspired literacy and popular education campaigns of 1980 a fresh perspective on the role of social movements in the contexts of social transformation a new analysis of the relevance of Freirean concepts for transformative research and an exploration of educators as intellectuals and social actors The result is a compelling study of how Paulo Freire's writings continue to resonate around the world and of how we must continue to apply and interpret them anew

Longing for Justice Jennifer S. Simpson, 2014-11-05 A timely and persuasive argument for Higher Education's obligations to our democratic society *Longing for Justice* combines personal narrative with critical analysis to make the case for educational practices that connect to questions of democracy justice and the common good Jennifer S Simpson begins with three questions First what is the nature of the social contract that universities have with public life Second how might this social contract shape undergraduate education And third how do specific approaches to knowledge and undergraduate education inform how students understand society In a bold challenge to conventional wisdom about Higher Education Simpson argues that today's neoliberal educational norms foreground abstract concepts and leave the complications of real life especially the intricacies of power unexamined Analysing modern teaching techniques including service learning and civic engagement Simpson concludes that for Higher Education to serve democracy it must strengthen students abilities to critically analyse social issues recognize and challenge social inequities and pursue justice

Challenging Discriminatory Practices of Religious Socialization among Adolescents Kiran Vinod Bhatia, Manisha Pathak-Shelat, 2019-10-12 This

book examines how religion operates as an institution of governance and discipline in society The authors unravel the ways in which adolescents are socialized into adhering to the dictates of their religious identities which often translates into practices of micro aggression enacted in and through their interaction with the religious other in schools and classrooms Through ethnographic immersion in villages in the Gujarat the authors identify media as a powerful source through which the dominant ideology of religious discrimination is perpetuated among adolescents Subsequently a critical media education framework was developed in order to equip these young people with the critical skills needed to challenge power relations with the goal being to identify resources for resistance within themselves and their immediate media environments Using pedagogic techniques such as spatial and cultural mapping content creation and applied theatre practices to create a reflective yet practical guide the findings of this book can be applied to a wide range of socio cultural contexts **Take**

Back Higher Education Henry A. Giroux, Susan Searls Giroux, 2004-05-10 Higher education is under siege No longer viewed as a public good it is attacked by businesses who want to refashion institutions in the image of the marketplace Higher education is the target of cultural conservatives who have undermined academic freedom and access by deriding the academy as a hotbed of left multicultural radicalism and anti Americanism The historic mission to educate students as citizens motivated by democratic values is overshadowed by profit margins Giroux and Giroux argue that the greatest danger faced by higher education comes from corporatization and educational apartheid If higher education is to meet the challenges of a democratic future it must encourage students to be critical thinkers and citizens as it vouchsafes conditions for educators to produce scholarship in the service of an inclusive democracy *Social Justice Design and Implementation in Library and Information Science* Bharat Mehra, 2021-12-29 Social Justice Design and Implementation in Library and Information Science presents a range of case studies that have successfully implemented social justice as a designed strategy to generate community wide changes and social impact Each chapter in the collection presents innovative practices that are strategized as intentional deliberate systematic outcome based and impact driven They demonstrate effective examples of social justice design and implementation in LIS to generate meaningful outcomes across local regional national and international settings Including reflections on challenges and opportunities in academic public school and special libraries museums archives and other information related settings the contributions present forward looking strategies that transcend historical and outdated notions of neutral stance and passive bystanders Showcasing the intersections of LIS concepts and interdisciplinary theories with traditional and non traditional methods of research and practice the volume demonstrates how to further the social justice principles of fairness justice equity equality and empowerment of all people including those on the margins of society Social Justice Design and Implementation in Library and Information Science will be of great interest to LIS educators scholars students information professionals library practitioners and all those interested in integrating social justice and inclusion advocacy into their information related efforts to develop impact driven externally focused and

Growing Up Postmodern Ronald Strickland,2002 This collection takes its inspiration from Paul Goodman s *Growing Up Absurd* a landmark critique of American culture at the end of the 1950s Goodman called for a revival of social investment in urban planning public welfare workplace democracy free speech racial harmony sexual freedom popular culture and education to produce a society that could inspire young people and an adult society worth joining In postmodernity Goodman s enlightenment era vision of social progress has been judged obsolete For many postmodern critics subjectivity is formed and expressed not through social investment but through consumption the freedom to consume has replaced political empowerment But the power to consume is distributed very unevenly and even for the affluent it never fulfills the desire produced by the advertising industry The contributors to this volume focus on adverse social conditions that confront young people in postmodernity such as the relentless pressure to consume social dis investment in education harsh responses to youth crime and the continuing climate of intolerance that falls heavily on the young In essays on education youth crime counseling protest movements fiction identity formation and popular culture the contributors look for moments of resistance to the subsumption of youth culture under the logic of global capitalism

From Art to Politics Yvon Grenier,2001 This book offers an analysis of Paz s political thought arguing that it is rooted in two separate and often antagonistic traditions Liberalism and Romanticism Grenier shows that Paz s political thought is best approached not so much by looking at the specific positions Paz took in the issues of his day but rather by uncovering the core values at the heart of Paz s political philosophy *From Art to Politics* gives not only a better understanding of Paz s thought but also a discussion of the political culture and democratization of Mexico The book takes a novel look at issues such as the relations between art and politics the role of intellectuals and the penchant of academics for machination theories in the area of art and culture The result is an account of Paz s work that is both more focused and more ambitious than those offered in previous books on Paz s politics
