find Koestler's *Darkness at Noon*, Hersey's *Hiroshima*, Anne Frank's *Diary* and Dee Brown's *Bury My Heart at Wounded Knee*. But the volume ends on a happier note with *Optimism*, Joy Gentility and such wonderful works as Helen Keller's *The Story of My Life*, Shaw's *Pygmalion*, Margaret Wise Brown's *Goodnight Moon* and Harper Lee's *To Kill a Mockingbird*. Illustrated throughout with imaginative paper cut out murals by artist Diana Bryan, *The New York Public Library's Books of the Century* is a reflection of our times featuring both the books we love, whether *The Cat in the Hat* or *Ulysses*, and books like *The Surgeon General's Report* or *Mein Kampf* that for better or worse have been an inescapable part of our century. For 100 years the librarians of The New York Public Library have shared our passion for books with a diverse and literate public, said curator and editor Elizabeth Diefendorf. That experience has given us a unique perspective in making our choices for the books of the century. We hoped that visitors to the exhibition and now the readers of this book will be drawn into our choices and reflect on what their own selections would be.

Researching the Public Opinion Environment Sherry Devereaux Ferguson, 2000-05-11. *Researching the Public Opinion Environment: Theories and Methods* informs the reader on the rationale, purposes, theories, and methodologies involved in researching the public. The book is divided into four parts. Part One looks at the theories and systems relevant to opinion research. Part Two addresses the topics of monitoring and analyzing the media. Part Three describes the basics of survey research, focus groups, Delphi techniques, stakeholder assemblies, and Q methodology. Part Four analyzes the impact of the media.

The Dimensions of Tolerance Herbert McClosky, Alida Brill, 1983-11-29. Reaching well beyond traditional categories of analysis, McClosky and Brill have surveyed civil libertarian attitudes among the general public, opinion leaders, lawyers and judges, police officials and academics. They analyze levels of tolerance in a wide range of civil liberties domains: first amendment rights, due process, privacy, and such emerging areas as women's and homosexual rights, and along numerous variables including political participation, ideology, age, and education. The authors explore fully the differences between civil libertarian values in the abstract and applying them in specific instances. They also examine the impact of tensions between liberties: free press and privacy, for example, and between tolerance and other values such as public safety. They probe attitudes toward recently expanded liberties, finding that even the more informed and sophisticated citizen is often unable to read on through complex new civil liberties issues. This remarkable study offers a comprehensive assessment of the viability and vulnerability of beliefs central to the democratic system. It makes an invaluable contribution to the study of contemporary American institutions and attitudes.
