the lives and communication of twentieth century first ladies Using a rhetorical framework the contributors look at the speaking writing media coverage and interaction and visual rhetoric of American first ladies from Ida Saxton McKinley to Laura Bush The women's rhetorical devices varied some practiced a rhetoric without words while others issued press releases gave speeches and met with various constituencies All used interpersonal or social rhetoric to support their husbands relationships with world leaders party officials boosters and the public Featuring an extensive introduction and chapter on the First Lady as a Site of American Womanhood Wertheimer has gathered a collection that includes the post White House musings of many first ladies capturing their reflections on public expectations and perceived restrictions on their communication Tidal Wave Sara Evans, 2010-05-11 Forty years ago few women worked married women could not borrow money in their own names schools imposed strict quotas on female applicants and sexual harassment did not exist as a legal concept Yet despite the enormous changes for women in America since 1960 and despite a blizzard of books that continue to argue about women s proper place there has not been a serious definitive history of what happened until now Sara M Evans is one of our foremost historians of women in America Her book Personal Politics is a classic that captured the origins of the modern women s movement its successor Born for Liberty set the standard for sweeping histories of women In Tidal Wave Evans again sets the standard by drawing on an extraordinary range of interviews archives and published sources to tell the incredible story of the past forty years in women s history Encompassing both the so called Second Wave of feminism's initial explosion in the 1960s and 1970s and the Third Wave of the 1980s and 1990s she challenges traditional interpretations at every step She shows that the Second Wave was beset by fragmentation and infighting from the beginning its slogan the personal is political was both a rallying cry and the seed of its self destruction Yet the Third Wave has been surprisingly strong and almost all women today might be thought of as feminists in practice if not in name From national events and from leaders of institutions such as NOW and Emily s List to little known local stories of women who simply wanted more out of their lives only to discover that they were creating a movement Tidal Wave paints a vast canvas of a society in upheaval from politics to economics to popular culture to marriage and the family Today Evans argues the women s movement is as alive and vital as ever precisely because it has enjoyed such stunning success Though not all women are comfortable with the term feminist the vast majority hold jobs and enjoy previously unimaginable personal freedoms Never before in American or world history have women experienced full and equal citizenship and opportunity At last the extraordinary story can be told Women of the 2016 Election Jennifer Schenk Sacco, 2018-12-12 Women of the 2016 Election is an examination of women who played prominent roles in the 2016 US presidential election The collection focuses on women from different parties races religions and immigrant statuses who fulfill roles as candidates staffers first families journalists and grassroots organizers The contributors to this collection give a unique view into women s influences on an unprecedented election They examine the roles of feminism morality motherhood expectations of voters the press masculinity femininity race class and agency in this interdisciplinary work which spans the fields of political science feminist theory communication and women s and gender studies This is the election that gave rise to the Trump presidency and the MeToo movement and the women considered here have left trails and revealed how far there is yet to go for women achieving power in the highest echelons of American politics media and society
