Behavioural Public Policy in

Australia Sarah Ball,2022-09-14 Using rich ethnographic data and first hand experience Ball presents a detailed account of Australia s attempts to incorporate behavioural insights into its public policy Ball identifies three competing interpretations of behavioural public policy and how these interpretations have influenced the use of this approach in practice The first sees the process as an opportunity to introduce more rigorous evidence The second interpretation focuses on increasing compliance cost savings and cutting red tape The last focuses on the opportunity to better involve citizens in policy design These interpretations demonstrate different solutions to a series of dilemmas that the Australian Public Service and others have confronted in the last 50 years including growing politicisation technocracy and a disconnect from the needs of citizens Ball offers a detailed account of how these priorities have shaped how behavioural insights have been implemented in policy making as well as reflecting on the challenges facing policy work more broadly An essential read for practitioners and scholars of policy making especially in Australia *Handbook of Public Administration Reform* Shaun F.

**Institutions on the edge?** Michael Keating,2020-07-25 Australia faces major challenges to its forms of governance Changing expectations from its citizens global pressures on the economy and technological innovation are impacting on government operations Yet most of its institutions were designed a hundred years ago Cabinet government was inherited Parliament was already established in its forms and procedures The federal structure the High Court and the federal public service were created as a consequence The party structure has been effectively frozen since the 1920s and a tradition of handing some responsibilities to arms length organisations was well established So how have these institutions changed over the last hundred years and how well will they adapt to the demands of the modern world Do they have the capacity to adapt appropriately and enable governments to achieve their preferred outcomes In this book experienced academics and practitioners explore these questions They examine each of the institutions in terms of their ability to meet new challenges and provide some hope that Australia s institutions even if at times slow to move and dominated by internal interests have a capacity to adapt and govern effectively The book shows our political institutions in a new light as dynamic often flexible organisms it provides important new insights into the way we are governed and how our system of governance might develop in the future *Research Handbook on Public Management and COVID-19* Helen Dickinson,Sophie

Yates,Janine O'Flynn,Catherine Smith,2024-02-12 Following the extensive global impact of COVID 19 this forward looking Research Handbook examines the pandemic from a public management perspective exploring the roles and responses of public managers and considering how public organisations will be reshaped in the future **Dilemmas in Public**

**Management in Greater China and Australia** Andrew Podger,Hon S. Chan,Tsai-tsu Su,John Wanna,2023-07-12 This book draws on more than a decade of workshops organised by the Greater China Australia Dialogue on Public Administration involving scholars and practitioners from Mainland China Hong Kong Taiwan and Australia Although these workshops recognised the major differences in the institutional frameworks of these jurisdictions until recently they focused largely on the shared challenges and the diffusion of ideas and approaches As rising international tensions inevitably draw attention to

areas where interests and philosophies diverge it is the differences that must now be highlighted Yet despite the tensions this book reveals that these jurisdictions continue to address shared challenges in public administration The book s contributors focus in detail on these four areas 1 intergovernmental relations including the shifting balance between centralisation and decentralisation 2 budgeting and financial management including during and after the COVID 19 pandemic 3 the civil service its capability and its relationship with government and the public 4 service delivery particularly in health and aged care This book is aimed at a wide readership not only at those within the jurisdictions it explores It emphasises the importance of continued engagement in understanding different approaches to public administration confirming fundamental philosophical differences where necessary but also looking for common ground and opportunities for shared learning
