Public Sector Reform Rationale Trends And Problems:

Public Sector Reform Jan-Erik Lane,1997 Leading experts from a number of countries examine the similarities and differences common problems and the future form of the public sector They argue that public sector reform deals with matters of justice and not just efficiency Public Sector Reform B. Nolan,2001-04-10 In these times of dramatic social economic and political change governments around the world are questioning their roles and responsibilities in the public sector There is a trend away from traditional public sector model and that of market ideology but there does not yet exist a universally accepted alternative Brendan Nolan offers a comparative analysis of public administration in several OECD countries the UK USA Australia and Scandinavia and explores possible future directions 35 Years of Public Sector Reform in Central Europe Michiel S. de Vries,Juraj Nemec,2025-03-11 This book examines public administration reforms in Central and Eastern Europe during the last three decades After 1989 so called socialist countries in Central and Eastern Europe started their transformation from centralistic to democratic societies Their public administration systems changed dramatically to adopt new norms and principles Focusing on current EU member states in the region the book identifies similarities and differences in their public administrative reforms Paying particular attention to three policy areas education health care and local services it assesses the historical roots of public administrative reforms and how the legacy of being former members of the Warsaw Pact are still visible The book argues that there are important differences between administrations in Central and Eastern European countries compared to older EU member states and that even within these countries significant differences can be seen between developments and administrative reforms at the national and local level It concludes by assessing the implications of these arguments for candidate EU members and the complexities and pitfalls they might encounter in this process **Public Sector Reform** Jan-Erik Lane,1997-12-12 Deregulation privatization and marketization have become the bywords for the reforms and debates surrounding the public sector This major book is unique in its comparative analysis of the reform experience in Western and Eastern Europe Australia New Zealand and Canada Leading experts identify a number of key factors to systematically explain the similarities and differences map common problems and together reflect on the future shape of the public sector exploring significant themes in a lively and accessible way Paradigms and Public Sector Reform Lhawang Ugyel,2016-10-06 This book describes the administrative system of Bhutan Divided into two main parts the first part of the book describes the Bhutanese public administration by examining the various paradigms and ideal types of public administration Chapters examine the paradigms and ideal types in the field of public administration and the paradigm concept helps in explaining the dynamics and the interaction of the application of public sector reforms within the context of the ideal types Based on the historical and recent reforms the Bhutanese administrative system has been mapped onto the ideal type typology to show hybridity with a mix and layering of characteristics of paradigms The second part of the book examines the dynamics of implementing and evaluating the Position

Classification System PCS This part includes chapters which evaluate the PCS and discusses the dynamics of the reform It synthesizes the findings of the implementation of the PCS and connects it to the broader discussions on public sector reforms It discusses the trajectory of public sector reform and the points of convergences and divergences within this trajectory

Reforming the Malawian Public Sector Richard Tambulasi,2010-06-01 Reforming the Malawian Public Sector argues that the new public management model that Malawi like most African countries adopted under the influence of donor organisations has not led to the intended development The book examines decentralisation performance contracting and publicprivate partnerships as key aspects of the reforms and comes to the conclusion that at best it can be argued that the failures have been due to poor implementation and this could be attributed to the fact that the process was led by donors who lacked the necessary institutional infrastructure The book uses the 2005 6 fertiliser subsidy programme which the government embarked on despite donor resistance that it went against market models but which turned out to be overwhelmingly successful to demonstrate the states developmental ability and potential This volume is essential reading for academics students and practitioners seeking a deeper understanding of public administration management policy development and governance in Africa and the rest of the developing world The book is dedicated to the memory Guy Mhone a Malawian who was among Africas leading scholars in public administration and governance His works focused mainly on public sector reforms and development

Leadership and Public Sector Reform in Asia Evan Berman,Eko Prasajo,2018-04-06 Present day knowledge about public sector reforms in Asia is quite scattered and seldom focuses on the challenges of leadership This book seeks to address this issue by presenting country cases that reflect the great diversity of the region

Government Transparency T. Erkkilä,2012-09-17 Transparency has become a global concept of responsible government This book argues that the transnational discourse of transparency promotes potentially contradictory policy ideas that can lead to unintended consequences It critically examines whether or not increased transparency really leads to increased democratic accountability

The Oxford Handbook of Public Management Ewan Ferlie,Laurence E. Lynn,Christopher Pollitt,2007 The public sector continues to play a strategic role across the world and in the last thirty years there have been major shifts in approaches to its management This text identifies the trends in public management and the effects these have had as well as providing a broad overview to each topic

Public Sector Reforms in Developing Countries Charles Conteh,Ahmed Shafiqul Huque,2014-04-03 The underpinning assumption of public management in the developing world as a process of planned change is increasingly being recognized as unrealistic In reality the practice of development management is characterized by processes of mutual adjustment among individuals agencies and interest groups that can constrain behaviour as well as provide incentives for collaborative action Paradoxes inevitably emerge in policy network practice and design The ability to manage government departments and operations has become less important than the ability to navigate the complex world of interconnected policy implementation processes Public sector

reform policies and programmes as a consequence are a study in the complexities of the institutional and environmental context in which these reforms are pursued Building on theory and practice this book argues that advancing the theoretical frontlines of development management research and practice can benefit from developing models based on innovation collaboration and governance The themes addressed in Public Sector Reforms in Developing Countries will enable public managers in developing countries cope in uncertain and turbulent environments as they seek optimal fits between their institutional goals and environmental contingencies
