Publishing In Yugoslavias Successor States:

Publishing in Yugoslavia's Successor States Michael Biggins, Janet Crayne, 2019-07-16 From the Editor's Foreword Without any doubt the 1990s will long be remembered as the decade of Yugoslavia's prolonged disintegration. A virtual blueprint of the conflict is accessible to anyone in a position to track the independent print media that were then emerging in Yugoslavia's various republics. *Publishing in Yugoslavia's Successor States* presents the results of extensive tracking and research in that area. You'll learn how weekly independent news magazines such as *Mladina* in Slovenia, *Danas* in Croatia and later *Vreme* in Serbia courageously documented the centrifugal political forces at work in Yugoslavia at the time. Independent daily newspapers often located in provincial cities away from the centers of political control pursued similar policies adhering to high standards of objective political coverage. The periodical press also weighed in over time with more reflective assessments of the area's evolving political crisis and recommendations for managing it. Finally, as Yugoslavia's old communist paradigm of information management gradually lost control, the market gave rise to numerous tabloid weeklies and dailies that banked on nationalism and fear, serving as handmaidens to media-savvy demagogues and helping to rekindle past rivalries. *Publishing in Yugoslavia's Successor States* will take you on a turbulent tour of this vital industry struggling to survive and thrive in a war-torn land. *American Book Publishing Record*, 2001 **Solanus**, 2007 **Geolinguistics**, 2001 *Access to East European and Eurasian Culture* Miranda Beaven Remnek, 2007 Gain an up-to-date overview of the evolving nature of access to scholarly publishing and acquisitions on East Europe and Eurasia. *Access to East European and Eurasian Culture Publishing Acquisitions Digitization Metadata* presents a wide-ranging overview of current information access issues in the Slavic and East European field. This valuable resource is a helpful guide to acquisitions from border areas less commonly covered including Greece, Ukraine, and Central Asia. Slavic specialists will find a range of answers to some of the most salient information access issues now confronting the East European and Eurasian field. This careful selection of superb presentations from a 2006 conference on Book Arts, Culture, and Media in Russia, East Europe, and Eurasia, *From Print to Digital*, focuses on access challenges and advances in publishing, acquisitions, digitization, and metadata. *Access to East European and Eurasian Culture Publishing Acquisitions Digitization Metadata* provides a clear picture of the trends and technological developments now impacting library collections and acquisitions. This one expansive volume presents helpful tables with publishing statistics, lists of web sites, workflow charts, and diagrams, several figures, and MARC templates. The book is extensively referenced. Topics discussed in *Access to East European and Eurasian Culture Publishing Acquisitions Digitization Metadata* include publishing trends and diversification in Russia, East Europe, and Eurasia since the early 1990s; access to scholarly texts from underrepresented areas in US Slavic collections; Slavic studies library acquisitions from Central Asia, Greece, and Ukraine; Slavic digital access; designing and maintaining large to small scale digital projects in the Slavic field; MARC21 and XML as tools for access to Slavic metadata; library scholar collaboration in promoting digital access to

Slavic scholarship Access to East European and Eurasian Culture Publishing Acquisitions Digitization Metadata is an essential resource for Slavic librarians educators and students who seek to improve their knowledge of new access mechanisms and technology applications in Slavic studies
