Pueblo Del Sol The People Of The Sun

Leoncio A. Garza-Valdes

Pueblo Del Sol The People Of The Sun:

José Carlos Mariátegui José Carlos Mariátegui, 2011-08 José Carlos Mariátegui is one of Latin America's most profound but overlooked thinkers. A self-taught journalist, social scientist, and activist from Peru, he was the first to emphasize that those fighting for the revolutionary transformation of society must adapt classical Marxist theory to the particular conditions of Latin America. He also stressed that indigenous peoples must take an active if not leading role in any revolutionary struggle. Today Latin America is the scene of great social upheaval. More progressive governments are in power than ever before, and grassroots movements of indigenous peoples, workers, and peasants are increasingly shaping the political landscape. The time is perfect for a rediscovery of Mariátegui, who is considered an intellectual precursor of today's struggles in Latin America but virtually unknown in the English-speaking world. This volume collects his essential writings, including many that have never been translated and some that have never been published. The scope of this collection, masterful translation, and thoughtful commentary make it an essential book for scholars of Latin America and all of those fighting for a new world waiting to be born.

The DNA of God Leoncio A. Garza-Valdes, 2012-05-09 In 1988, radiocarbon dating showed that the Shroud of Turin, long regarded as the burial cloth of Jesus of Nazareth, could not be from the time of Jesus but was of a more recent origin. What scientists did not know at that time but what author Dr. Leoncio Garza Valdes came to discover is that bacteria produce an organic coating, what he calls a bioplastic coating, over time on ancient textiles, including the Shroud itself. This coating, which the author first discovered on Mayan artifacts, so distorts the carbon dating process that objects on which it is found, such as the Shroud, are actually significantly older than the data show. The scientific community has hailed Dr. Garza Valdes's findings since this new knowledge is of significance for archaeologists around the world. For those interested in the mysterious history of the Shroud, it is again possible to regard this artifact as originating in the first century and consequently as being the burial cloth of Jesus. But Dr. Garza Valdes's amazing discoveries did not end with this breakthrough. His examination of pieces of the Shroud under a microscope has revealed incredible clues consistent with the Scriptural accounts of the death of Jesus. Bacteria that produce acetic acid vinegar were isolated from the Shroud. Do they belong to the vinegar offered to Jesus before his death on the cross? Could human blood remnants that contain a man's DNA be traces of the blood of Jesus? Does it contain the DNA of God? The DNA of God is the fascinating story of this microbiologist's journey of discovery and of the earthshaking secrets he has revealed about the Shroud of Turin.

History's Peru Mark Thurner, 2011-02-13 Mark Thurner here offers a brilliant account of Peruvian historiography, one that makes a pioneering contribution not only to Latin American studies but also to the history of historical thought at large. He traces the contributions of key historians of Peru from the colonial period through the present and teases out the theoretical underpinnings of their approaches. He demonstrates how Peruvian historical thought critiques both European history and Anglophone postcolonial theory. And his deeply informed readings of Peru's most influential historians, from Inca Garcilaso de

la Vega to Jorge Basadre are among the most subtle and powerful available in English Dance in the Cemetery William W. Stein, 1997 This is a biographical study of Jose Carlos Mariategui one of Latin America's greatest literary figures which is organized around the Lima scandal of 1917 At the time he was a young journalist of 23 an autodidact intellectual with an insurrectionary character The scandal erupted when he led a small group to the General Cemetery where a dancer gave her interpretation of Chopin's Funeral March Although the participants wished to have an artistic experience the reaction of the Lima elite was negative the performance was viewed in terms of lewdness and desecration the participants were arrested placed in prison their case was forwarded for criminal prosecution and the daily newspapers made the most out of the incident This study focuses on the scandal in the context of Peruvian society in 1917 It examines the roots of Mariategui's rebellion by exploring his manner of dealing with lameness and physical mutilation the desertion of his family by his father and Mariategui's search for a father figure his humble Andean roots on his mother's side and his ambivalence half yearning half hostility toward his father's elite social sector Throughout the work Mariategui's writings are quoted as illustrations and supplements to points made in the text The object is to answer the questions Why a dance Why a cemetery And why a dance in a cemetery by looking at patterns of repetition in Mariategui's life The study becomes a psychobiography as well as a literary one **Handbook of Middle American Indians, Volume 16** Robert Wauchoppe, 2014-01-07 The publication of

Queer Ancient Ways Zairong Xiang, 2018 Queer Ancient Ways advocates a profound unlearning of colonial modern categories as a pathway to the discovery of new forms and theories of queerness in the most ancient of sources In this radically unconventional work Zairong Xiang investigates scholarly receptions of mythological figures in Babylonian and Nahua creation myths exposing the ways they have consistently been gendered as feminine in a manner that is not supported and in some cases actively discouraged by the texts themselves An exercise in decolonial learning to learn from non Western and non modern cosmologies Xiang's work uncovers a rich queer imaginary that had been all but lost to modern thought in the process critically revealing the operations of modern colonial systems of gender sexuality and knowledge formation that have functioned from the Conquista de America in the sixteenth century to the present to keep these systems in obscurity At the heart of Xiang's argument is an account of the way the unfounded feminization of figures such as the Babylonian co creatrix Tiamat and the Nahua creator figures Tlaltecuhli and Coatlicue is complicit with their monstrification This complicity tells us less about the mythologies themselves than about the dualistic system of gender and sexuality within which they have been studied underpinned by a consistent tendency in modern colonial thought to insist on unbridgeable categorical differences By contextualizing these deities in their respective mythological linguistic and cultural environments through a unique combination of methodologies and critical traditions in English Spanish French Chinese and Nahuatl Xiang departs from the over reliance of much contemporary queer theory on European post modern thought Much more than a queering of the non Western and non modern Queer Ancient Ways thus constitutes a decolonial and transdisciplinary engagement with ancient cosmologies and ways of thought which are in the process themselves revealed as theoretical sources of and for the queer imagination El Pueblo Del Sol.
