Puercoespín El:

El domine Lucas ,1844 *El origen de las maneras de mesa* Claude Lévi-Strauss,1981 En esta tercera parte de sus Mitológicas Lévi Strauss traslada al norte de América su indagación del pensamiento mítico del continente El rico material recopilado por los etnógrafos sirve de punto de partida a una reflexión interpretativa que busca las líneas maestras de un campo ideológico *Hemispheric Indigenities* Miléna Santoro, Erick D. Langer, 2018-11 Hemispheric Indigenities is a critical anthology that brings together indigenous and nonindigenous scholars specializing in the Andes Mesoamerica and Canada The overarching theme is the changing understanding of indigeneity from first contact to the contemporary period in three of the world's major regions of indigenous peoples Although the terms indio indigene and indian only exist in Spanish French and English respectively because of European conquest and colonization indigenous peoples have appropriated or changed this terminology in ways that reflect their shifting self identifications and aspirations As the essays in this volume demonstrate this process constantly transformed the relation of Native peoples in the Americas to other peoples and the state This volume's presentation of various factors geographical temporal and cross cultural provide illuminating contributions to the burgeoning field of hemispheric indigenous studies Hemispheric Indigenities explores indigenous agency and shows that what it means to be indigenous was and is mutable It also demonstrates that self identification evolves in response to the relationship between indigenous peoples and the state The contributors analyze the conceptions of what indigeneity meant means today or could come to mean tomorrow *International Journal of Transmedia Literacy (IJTL) Vol 1, No 1 (2015)* AA. VV., 2016-04-20T15:05:00+02:00 Forms of fiction and literature underwent a process of disembodiment and cross fertilization during the revolution from the Gutenberg Galaxy printed paper mass distribution to the McLuhan Galaxy new media hypertext cooperative writing The dimension of literacy has moved from a semiotically measured geometry to a dislocation and a deconstruction of contents and channels that give expression to new products The impact of social media on narratology has redefined the meaning of readership and authorship The author not only loses his/her traditional role but becomes an icon of himself/herself a collective minded producer that is self perceived through the extroflexed eye of the amniotic network in which he/she defines his/her narrative experience Transmedia culture defines a new cross networked and amniotic literacy considering that we are not facing a simple adaptation of different narrative forms from one media to another different media and languages participate and contribute to the construction of a transmedia environment The first issue of the IJTL seeks to shed light on transmedia literacy according to the epistemological crisis of authorship and the new dimension of participation and relationship offered by both the Web and New Media Moving from the state of the art the aim is to investigate the interdisciplinary relations in the field of transmedia literacy in order to favour a pattern recognition about theories technologies and social dimensions of the phenomena to offer a critical toolkit to understand and map out the emerging knowledge and practices created by this new field El victorial
