Puerto Rican Discourse Lourdes M. Torres, 2013-12-02 Before conclusions about Spanish in the United States can be drawn individual communities must be studied in their own contexts That is the goal of Puerto Rican Discourse One tendency of previous work on Spanish in the United States has been an eagerness to generalize the findings of isolated studies to all Latino communities but the specific sociocultural contexts in which people and languages live often demand very different conclusions The results of Torres work indicate that the Spanish of Puerto Ricans living in Brentwood continues to survive in a restricted context Across the population of Brentwood for Puerto Ricans of all ages and language proficiencies the Spanish language continues to assume an important practical symbolic and affective role An examination of the structural features of 60 oral narratives narrative components and the verbal tenses associated with each overall Spanish verb use and clause complexity reveals little evidence of the simplification and loss across generations found in other studies of Spanish in the United States English dominant Puerto Ricans are able Spanish language narrators demonstrating a wide variety of storytelling skills The structure of their oral narratives is as complete and rich as the narratives of Spanish dominant speakers The content of these oral narratives of personal experience is also explored Too often in studies on U S Spanish sociolinguists ignore the words of the community the focus is usually on the grammatical aspects of language use and rarely on the message conveyed In this study oral narratives are analyzed as constructions of gendered and ethnically marked identities The stories demonstrate the contradictory positions in which many Puerto Ricans find themselves in the United States All of the speakers in this study have internalized to a greater or lesser extent dominant ideologies of gender ethnicity and language at the same time that they struggle against such discourse The analysis of the discourse of the community reveals how the status quo is both reproduced and resisted in the members narratives and how ideological forces work with other factors such as attitudes to influence the choices speakers make concerning language use A special feature of this book is that transcripts are provided in both Spanish and English This volume combines ethnographic quantitative and qualitative discourse methodologies to provide a comprehensive and novel analysis of language use and attitudes of the Brentwood Puerto Rican community Its rich linguistic and ethnographic data will be of interest to researchers and teachers in cultural communication ethnic Hispanic American studies sociolinguistics and TESL

Each contribution, many written by well known scholars in the field of bilingual and multilingual education, affirms the desirability of multilingualism as a societal resource and as a right of individuals while acknowledging the social, economic and political differences that make the acquisition of multilingualism easy for some and difficult for others. And yet the book focuses on the school as a place of promise and resistance, having the potential to preserve, recover and expand the world's linguistic diversity. The introduction, written by the co editors, identifies the conceptual threads that are developed throughout the chapters. But the chapters themselves remind us of the importance of local conditions despite the global pressures of the 21st century in imagining and creating multilingual educational spaces *Aspects of Multilingual Aphasia* Martin R. The Fragile Community Mara B. Adelman, Larry R. Frey, 2020-07-24 This book examines the concept of community focusing on how communication practices help manage the tensions of creating and sustaining everyday communal life amidst the crisis of human loss While acknowledging how the contradictory and inconsistent nature of human relationships inevitably affects community this intimate and compelling text shows how community is created and sustained in concrete communication practices The authors explore these ideas at Bonaventure House an award winning residential facility for people with AIDS where the web of social relationships and the demands of a life threatening illness intersect in complex ways Facing a life threatening illness can defy meaningful social connections but it can also inspire such ties sometimes in ways that elude us in the course of daily life By understanding how collective communication practices help residents forge a sense of community out of the fragility and chaos of living together with AIDS we are able to better understand how communication is inexorably intertwined with the formation of community in other environments Based on seven years of ethnographic research including participant observation in depth interviews and questionnaires this book weaves together narratives and visual images with conceptual analysis to uncover the ongoing oppositional forces of community life and to show how both mundane and profound communication processes ameliorate these tensions and thereby sustain this fragile community Because the average length of stay for a resident is seven months in which time he or she moves from being a newcomer to a community member to someone the community remembers the text reflects this short but crystallized life starting with the day a new resident opens the door to the day he or she passes away The writing is rich intimate engaging personal compelling and vivid The stories told discuss such deeply personal topics as the dilemmas of romantic relationships in a context fraught with many perils issues of power authority and control that enable and constrain social life and communicative practices that help residents cope with bereavement over the loss of others as well as their own impending deaths The text concludes by examining the lessons learned from Bonaventure House about creating and sustaining a health community and serves as an inspiration for strengthening interpersonal relationships and communities in other environments
