The Pundits' Dictionary, 1986 **Primetime Pundits** Lynn Letukas, 2014-09-04 Despite the central role of punditry in our contemporary media environment research has been slow to examine punditry on cable news Deregulation the advent of cable television and the rise of a twenty four hour news cycle have dramatically transformed the structure and content of news paving the way for political pundits to come to the forefront Cable news networks in particular have played a critical role in challenging the neutrality of traditional media through the development of opinion programs that made highly politicized and entertaining content central to their primetime coverage Over the past three decades these opinionated programs have become increasingly popular as a programming strategy for cable news producers seeking to develop novel programming to target niche audiences The pundits who pontificate on these programs have come to dominate our national political dialogue and play a significant role in setting the public agenda and influencing public opinion in the United States Punditry and pundits lie at the heart of programming and network changes that have evolved over the past thirty years *Primetime Pundits How Cable News Covers Social Issues* explores the ascent of punditry and offers new models for understanding how social issues are covered not just by pundits but also in the larger changing media landscape

aware of and concerned with their ignorance of the geographical political and military complexion of the territories beyond the mountain frontiers of the Indian empire This was particularly true of Tibet Though use of pundits was phased out in the 1890s in favor of purely British expeditions they gathered an immense amount of information on the topography of the region the customs of its inhabitants and the nature of its government and military resources They were able to travel to places where virtually no European could venture and did so under conditions of extreme deprivation and great danger They are responsible for documenting an area of over one million square miles most of it completely unknown territory to the West Now thanks to Waller's efforts their contributions to history will no longer remain forgotten **Why America's Top**

Pundits Are Wrong Catherine Besteman, Hugh Gusterson, 2005-01-17 In this fresh literate and biting critique of current thinking on some of today's most important and controversial topics leading anthropologists take on some of America's top pundits This absorbing collection of essays subjects such popular commentators as Thomas Friedman Samuel Huntington Robert Kaplan and Dinesh D Souza to cold hard scrutiny and finds that their writing is often misleadingly simplistic culturally ill informed and politically dangerous Mixing critical reflection with insights from their own fieldwork twelve distinguished anthropologists respond by offering fresh perspectives on globalization ethnic violence social justice and the biological roots of behavior They take on such topics as the collapse of Yugoslavia the consumer practices of the American poor American foreign policy in the Balkans and contemporary debates over race welfare and violence against women In the clear vigorous prose of the pundits themselves these contributors reveal the hollowness of what often passes as prevailing wisdom and passionately demonstrate the need for a humanistically complex and democratic understanding of the contemporary world Available November 2004 Pub Date January 2005 [The Media-Savvy Middle School Classroom](#) Susan
