Punishment Richard H. Walters, 1972 **Punishment and Modern Society** David Garland, 2024-05-31 In this path breaking book David Garland argues that punishment is a complex social institution that affects both social relations and cultural meanings Drawing on theorists from Durkheim to Foucault he insightfully critiques the entire spectrum of social thought concerning punishment and reworks it into a new interpretive synthesis *Punishment and Modern Society* is an outstanding delineation of the sociology of punishment At last the process that is surely the heart and soul of criminology and perhaps of sociology as well punishment has been rescued from the fringes of these disciplines This book is a first class piece of scholarship Graeme Newman *Contemporary Sociology* Garland's treatment of the theorists he draws upon is erudite faithful and constructive *Punishment and Modern Society* is a magnificent example of working social theory John R Sutton *American Journal of Sociology* *Punishment and Modern Society* lifts contemporary penal issues from the mundane and narrow contours within which they are so often discussed and relocates them at the forefront of public policy This book will become a landmark study Andrew Rutherford *Legal Studies* This is a superbly intelligent study Its comprehensive coverage makes it a genuine review of the field Its scholarship and incisiveness of judgment will make it a constant reference work for the initiated and its concluding theoretical synthesis will make it a challenge and inspiration for those undertaking research and writing on the subject As a state of the art account it is unlikely to be bettered for many a year Rod Morgan *British Journal of Criminology* Winner of both the Outstanding Scholarship Award of the Crime and Delinquency Division of the Society for the Study of Social Problems and the Distinguished Scholar Award from the American Sociological Association's Crime Law and Deviance Section [Punish and Critique](#) Adrian Howe, 2005-10-27 Acknowledgements Introduction 1 Political economies of punishment 2 New histories of punishment regimes 3 The Foucault Effect from penology to penalty 4 Feminist analytical approaches to women's imprisonment 5 Postmodern feminism and the question of penalty 6 Towards a postmodern penal politic Bibliography **The Socio-economics of Crime and Justice** Brian Forst, 2016-06-16 This book

on crime and justice is motivated primarily by the idea that individual behaviour is influenced both by self interest and by conscience or by a sense of community responsibility Forst has assembled a collection of authors who are writing in four parts 1 the philosophical foundations and the moral dimension of crime and punishment 2 the sense of community and the way it influences the problem of crime 3 on offenders and offences and 4 on the response of the criminal justice system

Metaphors of Confinement Monika Fludernik, 2019-08-13 Metaphors of Confinement The Prison in Fact Fiction and Fantasy offers a historical survey of imaginings of the prison as expressed in carceral metaphors in a range of texts about imprisonment from Antiquity to the present as well as non penal situations described as confining or restrictive These imaginings coalesce into a carceral imaginary that determines the way we think about prisons just as social debates about punishment and criminals feed into the way carceral imaginary develops over time Examining not only English language prose fiction but also poetry and drama from the Middle Ages to postcolonial particularly African literature the book juxtaposes literary and non literary contexts and contrasts fictional and nonfictional representations of imprisonment and discussions about the prison as institution and experiential reality It comments on present day trends of punitivity and foregrounds the ethical dimensions of penal punishment The main argument concerns the continuity of carceral metaphors

through the centuries despite historical developments that included major shifts in policy such as the invention of the penitentiary The study looks at selected carceral metaphors often from two complementary perspectives such as the home as prison or the prison as home or the factory as prison and the prison as factory The case studies present particularly relevant genres and texts that employ these metaphors often from a historical perspective that analyses development through different periods

Greek Law in Its Political Setting Lin Foxhall, A. D. E. Lewis, 1996 This volume explores the ways in which law integrated with other aspects of life in ancient Greece The papers collected here reveal a number of different pathways between law and political social and economic life in Greek societies Emanating from several scholarly traditions they offer a range of contrasting but complementary insights rarely collected together What emerges clearly is that law in Greece only takes on its full meaning in a broadly political context Dynamic tensions govern the relationships between this semi autonomous legal arena and other spheres of life An ideology of equality before the law was juxtaposed with a practical reality of individuals unequal abilities to cope with it It is hard to draw firm lines between the settlement of cases in court and the spill over of legal actions into the agora the streets the fields and the houses Hence it is hardly surprising if justice can all too easily give way to justification

Criminal Sentencing in Bangladesh Muhammad Mahbubur Rahman, 2017-03-20 In Criminal Sentencing in Bangladesh Muhammad Mahbubur Rahman critically examines the sentencing policies of Bangladesh and demonstrates that the country s sentencing policies are not only yet to be developed in a coherent manner and shaped with an appropriate and contextual balance but also remain part of the problem rather than part of the solution The author forcefully argues that the conception of sentencing policies cannot and should not always be

confined exclusively to institutional understandings The typical realities of post colonial societies call for rethinking the traditional judiciary centred understanding of what is meant by criminal sentences This book thus raises the question for theoretical sentencing scholarship whether the prevailing judiciary centred understanding of sentencing should be rethought
