from similar phenomena and to carry on the discussion of its justification fruitfully

The Use of Punishment Sean McConville, 2013-01-10 In recent decades there has been a vast increase in the use of imprisonment and penal supervision and to many this development appears to be qualitatively as well as quantitatively different The causes of this development its consequences and future course form the main point of departure for the contributors to this volume who consider the changes that have contributed to these apparently fundamental shifts in the use of punishment In this major new book contributors from a range of disciplines provide an integrated approach to a range of questions surrounding the use of punishment In what ways have broader social institutions and processes contributed to penal expansion This book is the principal outcome of the Guggenheim Punishment Project which aimed for a truly interdisciplinary account of thinking about punishment and an outcome which was general and reflective rather than specific and policy oriented and accessible to the generalist as well as those with a specialist interest in the field

Day Fines in Europe Elena Kantorowicz-Reznichenko, Michael Faure, 2021-07-01 Day fines as a pecuniary sanction have a great potential to reduce inequality in the criminal sentencing system as they impose the same relative punishment on all offenders irrespective of their income Furthermore with correct implementation they can constitute an alternative sanction to the more repressive and not always efficient short term prison sentences Finally by independently expressing in the sentence the severity and the income of the offender day fines can increase uniformity and transparency of sentencing Having this in mind almost half of the European Union countries have adopted day fines in their criminal justice system For the first time this book makes their findings accessible to a wider international audience Aimed at scholars policy makers and criminal law practitioners it provides an opportunity to learn about the theoretical advantages the practical challenges the successes and failures and ways to improve

Justifying Legal Punishment Igor Primoratz, 1997-11 While the philosophy of punishment is dominated by utilitarian and mixed theories this study written in the analytic tradition but also drawing on the views of Hegel argues for a purely retributive view all the main questions facing a theory of punishment are answered in terms of justice and desert without any concessions to social expediency

Trials and Punishments Antony Duff, 1986 This book discusses whether a system of criminal punishment can be justified within our legal system

Why Punish? Rob Canton, 2017-09-16 Why do we punish Is it because only punishment can achieve justice for victims and right the wrong of a crime Or is it justified because it reduces crime by deterring potential offenders offering rehabilitative treatment to others and incapacitating the most dangerous The complex answers to this enduring question vary across time and place and are directly linked to people's personal cultural social religious and ethical commitments and even their sense of identity This unique introduction to the philosophy of punishment provides a systematic analysis of the themes of retribution deterrence rehabilitation incapacitation and restorative justice Integrating philosophical sociological political and ethical perspectives it provides a thorough and wide ranging discussion of the purposes meanings and justifications of punishment for crime and the extent to which punishment does could or should live up to what it claims to achieve Why Punish challenges criminology and criminal justice students as well as policy makers judges magistrates and criminal justice practitioners to think more critically about the role of punishment and the moral principles that underpin it Bridging abstract theory with the realities of practice Rob Canton asks what better punishment would look like and how it can be achieved

The Death Penalty from an African Perspective Fainos Mangena, Jonathan O. Chimakonam, 2018-01-15 This book is about an African philosophical examination of the death penalty debate In a 21st century world where the notion of human right is primed this book considers the question of the death penalty in two sub Saharan African countries namely Zimbabwe and Nigeria notorious for their poor human right records This edited collection comprises of 11 essays from Zimbabwean and Nigerian philosophers As

opinions continue to divide over the retention or abolition of the death penalty these African philosophers attempt to localise this debate by raising the following questions What is the meaning of life in the African place Is it proper to take the human life under any guise at all Who has the right to take the human life Can the death penalty be justified on the bases of African cultures Why should it be abolished Why should it be retained Indeed this book is the first of its kind to engage the tumultuous issue of capital punishment in the postcolonial Africa and from the African philosophical point of view

Criminal Punishment and Restorative Justice David J. Cornwell, F. W. M. McElrea, John R. Blad, Robert B. Cormier, 2006 Criminal Punishment and Restorative Justice is an appraisal of the divide that exists between punitive and restorative methods The book looks at events that serve to restrict a greater and more emphatic adoption of restorative justice and its huge potential in contemporary criminal justice developments In an era of increasing and worldwide reliance on imprisonment and other punitive methods the author argues that justice and communities would be far better served by a more enthusiastic and early shift to restorative methods Criminal Punishment and Restorative Justice provides an international perspective on how restorative justice can bring about an altogether more enlightened approach to dealing with offenders and victims alike against a backdrop of often spurious traditional justifications for punishment While acknowledging the need for a constructive use of custody and other corrections in response to serious crime the author points out that the present over reliance on custody can be reduced by challenging offenders to take responsibility for their offenses and to make practical reparation for their wrong doing and repairing the harm that they have caused The book also assesses the potential of restorative justice to make corrections more effective civilized humane and pragmatic in terms of finding solutions to crime on the basis of sound principles and information not political expediency **What More**
