Linden**

Purchasing Power Consumer Organizing Gender And The Seattle Labor Movement 1919 1929:

Purchasing Power Dana Frank, 1994-01-28 Analyzing consumer organizing tactics and the decline of the Seattle movement as a case study of the U S labor movement this work traces its transformation after the famous Seattle General Strike of 1919 paying special attention to the gender dynamics of labor s consumer campaigns

Purchasing Power Dana Frank, 1994-02-25 This book analyzes consumer organizing tactics and the decline of the Seattle labor movement in the 1920s as a case study of the U S labor movement in the 1920s The book examines the transformation of the movement after the famous Seattle General Strike of 1919 by showing that workers organized not only at the point of production but through politicized consumption as well employing boycotts cooperatives labor owned businesses and union label promotion It pays special attention to the gender dynamics of labor s consumer campaigns as trade union men sought to persuade their wives to shop union and to the racial dynamics of campaigns organized by white workers against Seattle s Japanese American businesses

Purchasing Power Dana Frank, 1994

Children and Consumer Culture in American Society Lisa Jacobson, 2007-12-30 Children play a crucial role in today s economy According to some estimates children spend or influence the spending of up to 500 billion annually Journalists sociologists and media reformers often present mass marketing toward children as a recent fall from grace but the roots of children s consumerism and the anxieties over it date back more than a century Throughout the twentieth century a wide variety of groups including advertisers retailers parents social reformers child experts public schools and children themselves helped to socialize children as consumers and struggled to define the proper boundaries of the market The essays and documents in this volume illuminate the historical circumstances and cultural conflicts that helped to produce shape and legitimize children s consumerism Focusing primarily on the period from the Gilded Age through the twentieth century this book examines how and why children and adolescents acquired new economic roles as consumers and how these new roles both reflected and produced dynamic changes in family life and the culture of capitalism This volume also reveals how children and adolescents have used consumer goods to define personal identities and peer relationships sometimes in opposition to marketers expectations and parental intentions

The Necessity of Organization Kathleen B. Nutter, 2019-05-24 The Necessity of Organization describes Mary Kenney O Sullivan s struggle to improve labor conditions through trade unionism Appointed the first woman organizer for the American Federation of Labor in 1892 she went on to be a co founder of the Women s Trade Union League formed in 1903 as a cross class alliance of women workers and their middle and upper class allies The possibilities and limits of trade unionism for women given the class and gender constraints of the period are the focus of this book

Identity and Intolerance Norbert Finzsch, Dietmar Schirmer, 2002-07-18 In a world of increasingly heterogeneous societies matters of identity politics and the links between collective identities and national racial or ethnic intolerance have assumed dramatic significance and have stimulated an enormous body of research and literature which rarely transcends the limitations of a national perspective

however and thus reproduces the limitations of its own topic Comparative attempts are rare if not altogether absent Identity and Intolerance attempts to shift the focus toward comparison in order to show how German and American societies have historically confronted matters of national racial and ethnic inclusion and exclusion This perspective sheds light on the specific links between the cultural construction of nationhood and otherness the political modes of integration and exclusion and the social conditions of tolerance and intolerance The contributors also attempt to integrate the approaches offered by the history of ideas and ideologies social history and discourse theory An Intimate Affair Jill Fields,2007 Presents the history of twentieth century lingerie This book examines the ways cultural meanings are orchestrated by the fashion industrial complex and the ways in which individuals and groups embrace reject or derive meaning from these everyday yet significant intimate articles of clothing Public Workers Joseph E. Slater,2017-04-15 Public Workers is the first book to analyze why public sector labor law evolved as it did separate from and much more restrictive than private sector labor law and what effect this law had on public sector unions organized labor as a whole and by extension all of American politics

The Routledge History of Twentieth-Century United States Jerald Podair,Darren Dochuk,2018-05-02 The Routledge History of the Twentieth Century United States is a comprehensive introduction to the most important trends and developments in the study of modern United States history Driven by interdisciplinary scholarship the thirty four original chapters underscore the vast range of identities perspectives and tensions that contributed to the growth and contested meanings of the United States in the twentieth century The chronological and topical breadth of the collection highlights critical political and economic developments of the century while also drawing attention to relatively recent areas of research including borderlands technology and disability studies Dynamic and flexible in its possible applications The Routledge History of the Twentieth Century United States offers an exciting new resource for the study of modern American history

The Oxford Handbook of Environmental History Andrew C. Isenberg,2017 The Oxford Handbook of Environmental History draws on a wealth of new scholarship to offer diverse perspectives on the state of the field **Class and Other Identities** Lex Heerma van Voss,Marcel van der Linden,2002-06-01 With the onset of a more conservative political climate in the 1980s social and especially labour history saw a decline in the popularity that they had enjoyed throughout the 1960s and 1970s This led to much debate on its future and function within the historical discipline as a whole Some critics declared it dead altogether Others have proposed a change of direction and a more or less exclusive focus on images and texts The most constructive proposals have suggested that labour history in the past concentrated too much on class and that other identities of working people should be taken into account to a larger extent than they had been previously such as gender religion and ethnicity Although class as a social category is still as valid as it has been before the questions now to be asked are to what extent non class identities shape working people s lives and mentalities and how these are linked with the class system In this volume some of the leading European historians of labour and the working classes address these questions

Two non European scholars comment on their findings from an Indian resp American point of view The volume is rounded off by a most useful bibliography of recent studies in European labour history class gender religion and ethnicity

Freedom from Want Kathleen G. Donohue,2006-01-20 Deftly combining intellectual cultural and political history Freedom from Want sheds new light on the ways in which Americans reconceptualized the place of the consumer in society and the implications of these shifting attitudes for the philosophy of liberalism and the role of government in safeguarding the material welfare of the people

Book History Ezra Greenspan,Jonathan Rose,2000-08-01 Book History is the annual journal of the Society for the History of Authorship Reading and Publishing Inc SHARP Book History is devoted to every aspect of the history of the book broadly defined as the history of the creation dissemination and the reception of script and print Book History publishes research on the social economic and cultural history of authorship editing printing the book arts publishing the book trade periodicals newspapers ephemera copyright censorship literary agents libraries literary criticism canon formation literacy literacy education reading habits and reader response

For All the People John Curl,2012-07-01 Seeking to reclaim a history that has remained largely ignored by most historians this dramatic and stirring account examines each of the definitive American cooperative movements for social change farmer union consumer and communalist that have been all but erased from collective memory Focusing far beyond one particular era organization leader or form of cooperation For All the People documents the multigenerational struggle of the American working people for social justice While the economic system was in its formative years generation after generation of American working people challenged it by organizing visionary social movements aimed at liberating themselves from what they called wage slavery Workers substituted a system based on cooperative work and constructed parallel institutions that would supersede the institutions of the wage system With an expansive sweep and breathtaking detail this scholarly yet eminently readable chronicle follows the American worker from the colonial workshop to the modern mass assembly line from the family farm to the corporate hierarchy ultimately painting a vivid panorama of those who built the United States and those who will shape its future John Curl with over forty years of experience as both an active member and scholar of cooperatives masterfully melds theory practice knowledge and analysis to present the definitive history from below of cooperative America This second edition contains a new introduction by Ishmael Reed a new author's preface discussing cooperatives in the Great Recession of 2008 and their future in the 21st century and a new chapter on the role co ops played in the Food Revolution of the 1970s

The Sex of Things Victoria de Grazia,Ellen Furlough,2023-09-01 This volume brings together the most innovative historical work on the conjoined themes of gender and consumption In thirteen pioneering essays some of the most important voices in the field consider how Western societies think about and use goods how goods shape female as well as male identities how labor in the family came to be divided between a male breadwinner and a female consumer and how fashion and cosmetics shape women's notions of themselves and the society in which they live Together these essays represent the state of the art in

research and writing about the development of modern consumption practices gender roles and the sexual division of labor in both the United States and Europe Covering a period of two centuries the essays range from Marie Antoinette's Paris to the burgeoning cosmetics culture of mid century America They deal with topics such as blue collar workers survival strategies in the interwar years the anxieties of working class consumers and the efforts of the state to define women's especially wives and mothers consumer identity Generously illustrated this volume also includes extensive introductions and a comprehensive annotated bibliography Drawing on social economic and art history as well as cultural studies it provides a rich context for the current discourse around consumption particularly in relation to feminist discussions of gender This volume brings together the most innovative historical work on the conjoined themes of gender and consumption In thirteen pioneering essays some of the most important voices in the field consider how Western societies think about and use goods how

"They Are All Red Out Here" Jeffrey A. Johnson, 2014-10-20 One of early twentieth century America's most fertile grounds for political radicalism the Pacific Northwest produced some of the most dedicated and successful socialists the country has ever seen As a radicalized labor force emerged in mining logging and other extractive industries socialists employed intensive organizational and logistical skills to become an almost permanent third party that won elections and shook the confidence of establishment rivals At the height of Socialist Party influence just before World War I a Montana member declared They are all red out here In this first book to fully examine the development of the American Socialist Party in the Northwest Jeffrey A Johnson draws a sharp picture of one of the most vigorous left wing organizations of this era Relying on party newspapers pamphlets and correspondence he allows socialists to reveal their own strategies as they pursued their agendas in Washington Oregon Idaho and Montana And he explores how the party gained sizable support in Butte Spokane and other cities seldom associated today with left wing radicalism They Are All Red Out Here employs recent approaches to labor history by restoring rank and file workers and party organizers as active participants in shaping local history The book marks a major contribution to the ongoing debate over why socialism never grew deep roots in American soil and no longer thrives here It is a work of political and labor history that uncovers alternative social and political visions in the American West

What Can We Learn from the Great Depression? Dana Frank, 2024-10-08 Four stories of resilience mutual aid and radical rebellion that will transform how we understand the Great Depression Drawing on little known stories of working people What Can We Learn from the Great Depression amplifies voices that have been long omitted from standard histories of the Depression era In four tales Professor Dana Frank explores how ordinary working people in the US turned to collective action to meet the crisis of the Great Depression and what we can learn from them today Readers are introduced to the 7 daring Black women who worked as wet nurses and staged a sit down strike to demand better pay and an end to racial discrimination the groups who used mutual aid cooperatives eviction protests and demands for government relief to meet their basic needs the million Mexican and Mexican American repatriados who were erased from mainstream historical

memory while often fictitious white Dust Bowl migrants became enshrined the Black Legion a white supremacist fascist organization that saw racism antisemitism anti Catholicism and fascism as the cure to the Depression While capitalism crashed during the Great Depression racism did not and was in fact wielded by some to blame and oppress their neighbors Patriarchy persisted too undermining the power of social movements and justifying women s marginalization within them For other ordinary people collective action gave them the means to survive and fight against such hostilities What resulted were powerful new forms of horizontal reciprocity and solidarity that allowed people to provide each other with the bread beans and comradeship of daily life The New Deal when it arrived provided vital resources to many but others were cut off from its full benefits especially if they were women or people of color What Can We Learn from the Great Depression shows us how we might look to the past to think about how we can shape the future of our own failed economy These lessons can also help us imagine and build movements to challenge such an economy and to transform the state as a whole in service to the common good without replicating racism and patriarchy *World War I and Urban Order* Adam J. Hodges, 2016-04-30 This book uses Portland Oregon to bring to life the transformation of U S cities during the first truly national war mobilization effort World War I had an enormous impact on urban life and the relationship between cities and the federal government that has been almost entirely unexplored until now *A History of America in Ten Strikes* Erik Loomis, 2018-10-02 Recommended by The Nation the New Republic Current Affairs Bustle In These Times An entertaining tough minded and strenuously argued The Nation account of ten moments when workers fought to change the balance of power in America A brilliantly recounted American history through the prism of major labor struggles with critically important lessons for those who seek a better future for working people and the world Noam Chomsky Powerful and accessible A History of America in Ten Strikes challenges all of our contemporary assumptions around labor unions and American workers In this brilliant book labor historian Erik Loomis recounts ten critical workers strikes in American labor history that everyone needs to know about and then provides an annotated list of the 150 most important moments in American labor history in the appendix From the Lowell Mill Girls strike in the 1830s to Justice for Janitors in 1990 these labor uprisings do not just reflect the times in which they occurred but speak directly to the present moment For example we often think that Lincoln ended slavery by proclaiming the slaves emancipated but Loomis shows that they freed themselves during the Civil War by simply withdrawing their labor He shows how the hopes and aspirations of a generation were made into demands at a GM plant in Lordstown in 1972 And he takes us to the forests of the Pacific Northwest in the early nineteenth century where the radical organizers known as the Wobblies made their biggest inroads against the power of bosses But there were also moments when the movement was crushed by corporations and the government Loomis helps us understand the present perilous condition of American workers and draws lessons from both the victories and defeats of the past In crystalline narratives labor historian Erik Loomis lifts the curtain on workers struggles giving us a fresh perspective on American history from the boots up Strikes

include Lowell Mill Girls Strike Massachusetts 1830 40 Slaves on Strike The Confederacy 1861 65 The Eight Hour Day Strikes Chicago 1886 The Anthracite Strike Pennsylvania 1902 The Bread and Roses Strike Massachusetts 1912 The Flint Sit Down Strike Michigan 1937 The Oakland General Strike California 1946 Lordstown Ohio 1972 Air Traffic Controllers 1981 Justice for Janitors Los Angeles 1990 *North of the Color Line* Sarah-Jane Mathieu, 2010-11-29 *North of the Color Line* examines life in Canada for the estimated 5 000 blacks both African Americans and West Indians who immigrated to Canada after the end of Reconstruction in the United States Through the experiences of black railway workers and their union the Order of Sleeping Car Porters Sarah Jane Mathieu connects social political labor immigration and black diaspora history during the Jim Crow era By World War I sleeping car portering had become the exclusive province of black men White railwaymen protested the presence of the black workers and insisted on a segregated workforce Using the firsthand accounts of former sleeping car porters Mathieu shows that porters often found themselves leading racial uplift organizations galvanizing their communities and becoming the bedrock of civil rights activism Examining the spread of segregation laws and practices in Canada whose citizens often imagined themselves as devoid of racism Mathieu historicizes Canadian racial attitudes and explores how black migrants brought their own sensibilities about race to Canada participating in and changing political discourse there
