Phenomenology and Philosophy of Mind David Woodruff Smith, Amie L. Thomasson, 2005-10-06 Philosophical work on the mind flowed in two streams through the 20th century phenomenology and analytic philosophy The phenomenological tradition began with Brentano and was developed by such great European philosophers as Husserl Heidegger Sartre and Merleau Ponty As the century advanced Anglophone philosophers increasingly developed their own distinct styles and methods of studying the mind and a gulf seemed to open up between the two traditions This volume aims to bring them together again by demonstrating how work in phenomenology may lead to significant progress on problems central to current analytic research and how analytical philosophy of mind may shed light on phenomenological concerns Leading figures from both traditions contribute specially written essays on such central topics as consciousness intentionality perception action self knowledge temporal awareness and mental content Phenomenology and Philosophy of Mind demonstrates that these different approaches to the mind should not stand in

opposition to each other but can be mutually illuminating Standard Catalog of Sports Memorabilia Tom
