Coronavirus Disease (COVID-19): Psychological, Behavioral, Interpersonal Effects, and Clinical Implications for Health Systems Gianluca Castelnuovo, Andrea De Giorgio, Gian Mauro Manzoni, Changiz Mohiyeddini, Darren C. Treadway, Daniel Bressington, Sally Wai Chi Chan, Llewellyn Ellardus Van Zyl, Antonella Granieri, John Naslund, 2022-08-30 *Sexual Identities and Sexuality in Social Work* Priscilla Dunk-West, 2016-04-01 Sexuality and sexual identity have been relatively marginalized areas in both social work education and practice. However, changes in policy and legislation in the UK and other countries over the past decade have brought discussions of sexuality into the mainstream public service agenda. In social work and social care, gay and lesbian citizenship rights have been explicitly recognised. In the fields of adoption and fostering, new regulations and guidance have helped improve and develop practice around assessment and intervention. It remains the case, however, that sex is often perceived as a problem area within social work and social care, discussed only in relation to sexually diverse communities or in the realm of dysfunction or pathology. This collection aims to generate a more proactive and challenging discussion of sexuality and sexual identity in social work. Its starting point is that sexuality is an essential aspect of individual identity that users must be able to express; their sexuality and that it is essential for social workers to be able to respond and discuss sexual issues appropriately. The contributions are informed by feminist research, considering in particular the experiences of women working in and using social care services since the 1990s. In addition to a consideration of the wider policy, legislative and service providers' perspectives, the book includes reflective accounts as well as research-led contributions offering a comprehensive and balanced account of this important field which aims to inform both theory and practice.

Models of Madness John Read, Richard Bentall, Professor of Clinical Psychology, Department of Psychological Sciences, Richard Bentall, Loren Mosher, 2004-08-02 *Models of Madness* shows that hallucinations and delusions are understandable reactions to life events and circumstances rather than symptoms of a supposed genetic predisposition or biological disturbance. International contributors critique the medical model of madness, examine the dominance of the illness approach to understanding madness from historical and economic perspectives, document the role of drug companies, outline the alternative to drug-based solutions, identify the urgency and possibility of prevention of madness. *Models of Madness* promotes a more humane and effective response to treating severely distressed people that will prove essential reading for psychiatrists and clinical psychologists and of great interest to all those who work in the mental health service. This book

forms part of the International Society for the Psychological Treatment of Psychoses series edited by Brian Martindale **A Short Introduction to Psychiatry** Linda Gask, 2004-06-22 A Short Introduction to Psychiatry is designed to give readers a clear picture of the profession of psychiatry as it is today as well as an understanding of the subject from which to develop further study The author describes the development of the profession the route to qualification and the scope of contemporary practice including the work done by psychiatrists in a range of specialisms from child psychiatry to addiction services and forensic psychiatry Drawing on the experience of people who have been through psychiatric treatment the book also explores what psychiatry is like from the patient s user s perspective Many criticisms have been levelled against the profession and the author Linda Gask summarizes key debates which have been and continue to be played out between psychiatry s critics and its defenders A Short Introduction to Psychiatry is for anyone looking into psychiatry for the first time whether with a view to training or out of more general interest
